- Home Health of Kansas LT0301-0617

3. New Single-Offering CNE Providers

- High 5 for Mom and Baby – Kansas Breastfeeding Education, Module 3
- High 5 for Mom and Baby – Kansas Breastfeeding Education, Module 6
- High 5 for Mom and Baby – Kansas Breastfeeding Education, Module 11
- High 5 for Mom and Baby – Kansas Breastfeeding Education, Module 13
- High 5 for Mom and Baby – Kansas Breastfeeding Education, Module 2
- High 5 for Mom and Baby – Kansas Breastfeeding Education, Module 1
- High 5 for Mom and Baby – Kansas Breastfeeding Education, Module 15
- High 5 for Mom and Baby – Kansas Breastfeeding Education, Module 10

4. New IV-Therapy Providers: None

5. Delinquent CNE and IV Therapy Providers

On April 19, 2021, a certified letter was sent to fourteen Long-Term CNE Providers and two IV-Therapy Providers who had not yet submitted the Annual Report and/or Annual Fee for 2020. These providers were asked to submit their delinquent reports and/or fees by May 15, 2021. Eight Long-Term CNE Providers did not submit the delinquent Annual Report and Annual Fee and one Long-Term CNE Provider did not submit the delinquent Annual Report.

6. IV-Therapy Certifications through LPN Curriculum

KSBN has received four rosters for graduating classes who successfully completed IV-Therapy as a part of their LPN Curriculum.

- Graduation Date 12/20/20 – Nine students listed on the roster; six students licensed to date
- Graduation Date 04/30/21 – Sixteen students listed on the roster; two students licensed to date
- Graduation Date 05/13/21 – Twenty students listed on the roster/ no students licensed to date
- Graduation Date 05/14/21 (1) – Twenty-two students listed on the roster; no students licensed to date
- Graduation Date 05/14/21 (2) – Fifteen students listed on the roster; no students licensed to date

- Graduation Date 05/14/21 (3) – Twenty students listed on the roster; no students licensed to date
- Graduation Date 05/14/21 (4) – Eleven students listed on the roster; no students licensed to date
- Graduation Date 05/17/21 – Nineteen students listed on the roster; no students licensed to date

7. IV-Therapy Test Questions Survey

On May 19, 2021 a short survey was sent to all IV-Therapy Providers, requesting their input on the IV-Therapy Test Questions as they stand. Five IV-Therapy Providers completed the survey. The questions were:

1. In your opinion, do the IV-Therapy Test Questions need to be updated?
 - a. 80% yes, 20% no
2. What IV-Therapy Questions should be removed from the current IV-Therapy Test Questions?
 - a. “I don’t believe at this point, since the test is asking very basic questions, any need to be removed.”
3. What IV-Therapy Questions should be added to the current IV-Therapy Test Questions?
 - a. I think questions regarding infection control such as how long to scrub the hub and clean the skin is very important; want to prevent any infection and keep up with Infusion Nursing Standards on infection prevention.
 - b. I believe there should be more situation questions requiring the nursing process. Such as, “Patient receiving ‘X’ medications and while receiving/after discharge/when mixing, something changed (signs & symptoms of complications and incompatibility). What is your immediate response?”; more scope of practice questions; more questions which would require a nurse to look up information (really showing how important using Drug References are); more questions about sites to avoid; questions to help remember steps (SASH Method); diagram questions (locations).
 - c. Outpatient situations; care of PICC lines.
4. Would you be interested in serving on a taskforce for IV-Therapy Test Questions?
 - a. 60% yes, 40% no
