Long Term CNE Provider Checklist
(K.A.R. 60-9-107)

Name of Provider: Accredo Health, Inc. LT0223-0538

Name of Program Coordinator: Maureen McCullough, MSN, RN

Date Received: 2/9/23

Date to CNE Committee: March 2023

_____ **Approved**

_____ **Not Approved:** _____

Date Notified: _____

Information Required	Received	NA
Completed application for initial approval or five-year renewal for LT CNE providership shall be submitted at least 60 days before a scheduled board meeting	X	
The name and address of the organization on the application	X	
The name and address of the department or unit within the organization responsible for approving CNE, if different from the name and address of the organization		X
The name, education and experience of the program coordinator responsible for CNE	Maureen McCullough	
• Be a licensed professional nurse	X	
• Have three years of clinical experience	X	
• Have one year of experience in developing and implementing nursing education	X	
• Have a baccalaureate degree (unless held this position for the provider at least five years immediately prior to January 1, 1977)	X	
Policies & Procedures:		
Written policies and procedures, including at least the following areas:		
• Assessing the need and planning for CNE activities	X	
• Fee assessment	X	
• Advertisements or offering announcements. Published information shall contain the following statement: "(name of provider) is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for contact hours applicable for APRN, RN, or LPN relicensure. Kansas State Board of Nursing provider number: _____"	X	
• Notice of change of coordinator or required policies and procedures. The program coordinator shall notify the board in writing of any change of the individual	X	

responsible for the providership or required policies and procedures within 30 days		
For long term providers, the policies and procedures for the offering approval process shall include the following:		
• A summary of the planning	X	
• The behavioral objectives	X	
• The content, which shall meet the definition of CNE in KSA 65-1117	X	
• The instructor's education and experience, documenting knowledge and expertise in the content area	X	
• A current bibliography that is reflective of the offering content. The bibliography shall include books published within the past 10 years, periodicals published within the past five years, or both	X	
• An offering evaluation that includes each participant's assessment of the following:		
▪ The achievement of each objective	X	
▪ The expertise of each individual presenter	X	
An approved provider may award any of the following:		
• Contact hours as documented on an offering agenda for the actual time attending, including partial credit for one or more contact hours	X	
• Credit for fractions of hours over 30 mins to be computed towards a contact hour	X	
• Instructor credit, which shall be twice the length of the first-time presentation of an approved offering, excluding an standardized, prepared curriculum	X	
• Independent study credit that is based on the time required to complete the offering, as documented by the provider's pilot test results	X	
• Clinical hours		X
Documentation of Attendance		
Each provider shall maintain documentation to verify that each participant attended the offering. The provider shall require each participant to sign a daily roster, which shall contain the following information:		
• The provider's name, address, provider number, and coordinator	X	
• The date and title of the offering, and the presenter or presenters	X	
• The participant's name and license number and the number of contact hours awarded	X	
Each provider shall maintain documentation to verify completion of each independent study offering, if applicable. To verify completion of an independent study offering, the provider shall maintain documentation that includes the following:		
• The provider's name, address, provider number, and coordinator	X	

• The participant's name and license number, and the number of contact hours awarded	X	
• The title of the offering	X	
• The date on which the offering was completed	X	
• Either the completion of a posttest or a return demonstration	X	
Certificate of Attendance/CE Transcript		
A certificate of attendance shall be awarded to each participant after completion of an offering, or a CE transcript shall be provided according to the policies and procedures of the long-term provider	X	
Each certificate and each CE transcript shall be complete before distribution to the participant	X	
Each certificate and each CE transcript shall contain the following information:		
• The provider's name, address and provider number	X	
• The title of the offering	X	
• The date or dates of attendance or completion	X	
• The number of contact hours awarded and, if applicable, the designation of any independent study or instructor contact hours awarded	X	
• The signature of the individual responsible for the providership	X	
• The name and license number of the participant	X	
Recordkeeping & Storage		
For each offering, the approved provider shall retain the following for two years:		
• A summary of the planning	X	
• A copy of the offering announcement or brochure	X	
• The title and objectives	X	
• The offering agenda or, for independent study, pilot test results	X	
• A bibliography	X	
• A summary of the participants' evaluations	X	
• Each instructor's education and experiences	X	
• Documentation to verify completion of the offering	X	
The record storage system used shall ensure confidentiality and easy retrieval of records by authorized individuals	X	
Program Evaluation Plan		
For long-term providers, a copy of the total program evaluation plan	X	
Two Proposed Offerings		
The provider shall submit two proposed offerings, including the following:	#1 Myasthenia Gravis (MG)	#2 Age-Related Macular Degeneration

		& Diabetic Macular Edema
• A summary of planning	X	X
• A copy of the offering announcement or brochure	X	X
• The title and behavioral objectives	X	X
• The offering agenda or, for independent study, pilot test results	X	X
• Each instructor's education and experience	X	X
• A current bibliography	X	X
• The offering evaluation form	X	X

planningce ~ The Accredo Health, Incorporated Continuing Education Advisory Committee directs the Continuing Education Program activities. Continuing Education Program Coordinator, with cooperation from the entire committee, leads and coordinates activity planning, development, implementation, and evaluation.

The advisory committee consists of representation from the following:

☐ Continuing Education Program Coordinator meeting the following requirements:

o Licensed to practice nursing; Have three years of clinical experience; Have one year of experience developing and implementing nursing education; Have a baccalaureate degree in nursing

Attachment 2: CE 26 Continuing Education Program Coordinator Qualifications and Responsibilities

☐ Accredo Director and Clinical Practice Lead – Specialty Pharmacy;
 Accredo Director, Specialty Clinical Product – Primary Therapies;
 Accredo Director of Clinical Resources – Nursing

☐ Senior Clinical Consultants; Representatives from various target groups appointed as required

The Accredo Continuing Education Program Advisory Committee meets as needed, but no less than quarterly to plan, develop, review, and evaluate the program activities as appropriate.

Accredo Health, Incorporated Continuing Education Program Advisory Committee Objectives:

☐ Foster professional nurse education in a planned and systematic manner; Identify needed education; Approve course offerings; Approve individual instructors based on defined criteria; Assess compliance with the Kansas State Board of Nursing and Accredo Continuing Education Program processes and services in order to evaluate appropriateness and effectiveness of educational offerings to ultimately improve patient outcomes; Assure records are maintained in a confidential and secure manner; Analyze aggregate data from various sources to improve performance; Acknowledge complaints regarding educational offerings within 72 hours with written notification. Review complaints within 10 business days, and notify with a written response of resolution. Note: We have not received any to date.

Need Assessment and Planning Continuing Nursing Education:
 The Continuing Education Program Advisory Committee assesses the need for a continuing nursing education offering by:

☐ New or updated information on therapies, medications, or disease states of interest to AHI clinicians and clients; Formal needs assessment - identified specific clinical or practice knowledge gaps; Areas identified as high-risk, high-volume, high-cost, or problem prone; Formal recommendations from the Performance Improvement Committee; Informal suggestions from AHI clinicians requesting education in a specified area.

Attachment 3: CE 1-03 Continuing Education Process 1.2 Faculty Planning (3) CE Committee oversight

feeassessment ~ Process for fee assessment:

☐ No fee will be assessed for continuing education offerings for employees of Accredo Health, Inc. and agencies contracted with Accredo Health, Inc.

☐ No fees are being assessed for continuing education offerings presented to healthcare providers not employed by Accredo Health, Inc.

Attachment 6: CE 17 Continuing Education Fee Payment, Assessment, and Reimbursement Process 1.3 Fee Assessment Process

advertisement ~ The following may be utilized to announce course offerings:

oExternal CE - We create and maintain an internal course list we share with our internal clinical operations partners and account managers. The account manager communicates with external clients verbally or by email that Continuing Education courses are available when education need is verbalized by the client.

oInternal CE – Internal Email

☐ Published announcements shall contain the following statement:

"Accredo Health, Inc. Is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for _____ contact hours applicable for APRN, RN, or LPN relicensure. Kansas State Board of Nursing Provider Number LT0223-0538.

Attachment 7: (443) Myasthenia Gravis (MG) Brochure p. 2

approvalprocess ~ The Continuing Education Committee will approve continuing nursing education offerings with content which meets the definition of CNE in KSA 65-117: "Continuing nursing education means learning experiences intended to build upon the educational and experimental bases of the registered professional and licensed practical nurse for the enhancement of practice, education, administration, research, or theory development to the end of improving the health of the public." Approval will be noted by signature of the Continuing Education Program Coordinator. Documentation will be kept on file in Continuing Education limited access files for no less than 7 years. Approval will also be documented in the AHI CE database.

For each continuing nursing education offering, the following are required:

☐ A summary of planning of the continuing nursing education offering

☐ The behavioral objectives: meaning the intended outcome of instruction stated as measurable learner behaviors

☐ Content meets definition of CNE in KSA 65-1117(a)

☐ The instructors' education and experience, documenting knowledge and expertise in the content area

☐ A current bibliography that is reflective of the offering content. The bibliography will include books published within the past ten years and periodicals published within the past five years, or both. Books and articles outside of those timeframes may be included if they have historical significance. Explanation will be included.

☐ An offering evaluation that includes each participant's assessment of the achievement of each objective, and the expertise of individual presenters.

Attachment 3: CE 1 Continuing Education Process – 2.1 Course Approval Process

Attachment 9: CE Review and Approval (447) Age-related Macular

Degeneration and Diabetic Macular Edema: Overview and Treatment Options

contacthours ~ Contact hours will be awarded to those meeting all course requirements

- included in the course announcement, course presentation slides and handout, and
- provided orally by the presenter at the beginning of the activity.

Requirements per discipline example (i.e. verifying participation and successful offering completion):

- Nurses must complete the attendance roster, including their license number(s) and signature; and complete a posttest, and course evaluation to receive course credit.
- Pharmacists must complete the attendance roster, including their NABP e-profile ID and date of birth (MMDD), a posttest, and submit a course evaluation to receive a statement of credit.
- Case managers must complete the attendance roster, a posttest, and course evaluation to receive course credit.

 CNE credits and fractions of credits will be calculated as follows:

- o1.0 contact hours = 50 minutes
- o1.1 contact hours = 55 minutes
- o1.2 contact hours = 60 minutes
- o0.1 contact hours added for each additional 5-minute increment

 Contact hours for presentations will be awarded for actual time attended

 Late arrival / early departure policy:

oNo credit will be given for CNE offerings in the event of late arrival or early departures

 Instructor credit shall be two contact hours for each contact hour of first-time presentation of an approved offering

Attachment 3: CE 1 Continuing Education Process – 1.3 Activity development – (9) Contact Hours

Attachment 11: CE 16 Post Presentation Process – Assignment of Contact Hours

Attachment 12: CE 4 Independent Learning Contact Hour Determination via Pilot Test

verifycompletion ~  Documentation to verify each participant attended offering on site:

- oParticipants will sign an attendance roster
- oParticipants signature will be required following lunch for all day courses to verify attendance of entire course
- oThe attendance roster shall contain the following:

 Provider's name

 Provider's address

 Provider number

☐ Program coordinator
☐ Date and title of offering
☐ Presenter(s)
☐ Participant's name and license number
☐ Number of contact hours awarded
 oPartial credit will not be given, as previously explained in late arrival / early departure policy
 Attachment 13: CE 27 Verification of Satisfactory Continuing Education Activity Completion
 Attachment 11: CE 16 Post Presentation Process (CE 16-03)
 Attachment 15a: (443) Myasthenia Gravis (MG) attendance roster – live
 Attachment 15b: (443) Myasthenia Gravis (MG) attendance roster distance learning format
☐ Documentation to verify each participant attended offering via WebEx:
 oParticipants will complete a pretest and register via Survey Monkey
 oContinuing Education Specialist (CES) will provide WebEx access information to participant via Outlook from information participant gave in Survey Monkey
 oParticipants will complete posttest and evaluation, and provide name, license number(s) and state(s) of licensure in Survey Monkey after the WebEx presentation. Note: Participant enters Survey Monkey by exiting WebEx.
 oWebEx attendee report documents arrival, departure, and return times (if applicable). Participants must attend the entire presentation to receive continuing education credit.
 oThe attendance roster shall contain the following:
☐ Provider's name
☐ Provider's address
☐ Provider number
☐ Program coordinator
☐ Date and title of offering
☐ Presenter(s)
☐ Participant's name and license number
☐ Number of contact hours awarded
 oPartial credit will not be given, as previously explained in late arrival / early departure policy
 Attachment 16: CE 43 CE Series Process
 Attachment 17: CE 45 CE Evaluation Outcome Summary
 Attachment 11: CE 16 Post Presentation Process (CE 16-03)
☐ Documentation to verify completion of independent study offering:
 oParticipants will sign an attendance roster containing required information mentioned above
 oParticipants will complete a posttest with a passing grade or perform a return demonstration

 Attachment 19: CE 18 Independent Learning Continuing Education Requirements CE 18-01

Certificates

- oCertificates of attendance will be awarded to each participant after completing an offering
 - oEach certificate will be complete before distribution to participants
 - oEach certificate will contain the following:
 - Provider's name, address, and provider number
 - Offering title
 - Date(s) of attendance
 - Number of contact hours awarded
 - If applicable, the designation of any independent study or instructor contact hours awarded
 - Signature of Continuing Education Program Coordinator
 - Signature may either be by signature stamp. Stamp will be kept in locked file cabinet. Access to key will be limited to the Continuing Education Program Coordinator and Continuing Education Administrator
 - Signature generated by CE Database when certificate is created. Only CEA and CES are able to access database.
 - Participant name and license number
- Attachment 20: Sample Certificate

recordkeeping ~ For each offering, Accredo Health, Inc. will retain the following in electronic format, or as hardcopy as appropriate, for a minimum of two years:

- oSummary of planning
 - oAnnouncement / brochure
 - oTitle and objectives
 - oAgenda
 - oPilot Test results for self-study courses
 - oBibliography
 - oParticipant evaluation summaries (Note: evaluation information has been added to Survey Monkey. We are able to run reports using various filters to summarize evaluation results; e.g. by session, by course, by presenter)
 - oEach instructor's education and experience
 - oDocumentation to verify offering completion – signed hardcopy roster or electronic roster, including license numbers, and contact hours awarded
 - oAlphabetized list of participant names
- Records will be kept at Accredo Health, Inc. – 11411 Strang Line Road, Lenexa, KS 66215 in locked file cabinets. The Continuing Education Program Coordinator and the Continuing Education Administrator will have access to the key assuring confidentiality and easy record retrieval.

Attachment 21: CE 5 Record Retention and Material Maintenance (CE 05-01)

noticeofchange ~ The Continuing Education Program Coordinator will notify the board in writing of any change of the individual responsible

for the providership or required policies and procedures within 30 days.

Attachment 22: CE 26 Administrative Change (CE 26-1.2.2)

programevaluation ~ A total program evaluation will be completed no less than annually by the Continuing Education Committee using a systematic process to analyze the overall continuing nursing education program outcomes in order to make subsequent decisions. The evaluation will provide a process for collecting and analyzing data to determine if the Continuing Education Program is appropriate and effective. An annual report including statistical information regarding the analysis of the educational offerings will be documented based on the Committee findings and submitted to the Kansas State Board of Nursing (KSBN).

The evaluation will assess the entire program:

- ☐ Program Administration:
- ☐ Policies: Assess need, planning
 - o Evaluation summaries
 - o Employee survey
- ☐ Policies: Fee Assessment
- ☐ Policies: Announcement
- ☐ Policies: Offering approval process
- ☐ Policies: Awarding contact hours
- ☐ Policies: Verifying participation/completion
- ☐ Policies: Record keeping
- ☐ Policies: Notification of changes
- ☐ Total Program Evaluation effectiveness

| | <ul style="list-style-type: none">• Participants are also asked to rate their level of expertise (Novice, intermediate, expert) for each activity objective before the education, after, and what expertise level they need for their current position. Individual and aggregate results are compiled, analyzed, and reported to the AHI CE Committee. Level of expertise increased after the education in all objectives. Also, the results of the level of expertise exceeded what was needed for their current position with rare exception.• Participants evaluate presenters' teaching skills and knowledge, how well each objective was addressed, usefulness of education material, Information presented objectively without bias, opportunities for active learning, posttest accurately measured what participant learned, impact content will have on participant practice, activity promotes healthcare improvement, would recommend to others. Results are analyzed per activity; results are compared to all activities. We also average results per activity. Rating scale: 1 = Excellent, 2 = Good, 3 = Fair, 4 = Poor. Results were between 1.00 and 1.77. |
|--|--|

AHI CE evaluation results show participants rate our CNE activities good to excellent per rating scale used. We will continue to develop and present our CNE activities as we have, and will continue to analyze evaluation results and look for ways to improve individual CNE activities, and the program overall.

Number: AHI SOP CE 1	Revision: 11	Effective date: 06/02/2005	
Title: Continuing Education Process			
Department: Continuing Education			
Program: General			

Purpose

To provide a standardized process for Continuing Education program direction and planning, and course development and approval by AHI and its subsidiaries for nurses, pharmacists and/or pharmacy technicians, case managers, and other healthcare professionals.

Scope

This procedure is applicable to Accredo Health, Inc. Continuing Education (AHI CE) presentation developers and the CE Committee (the planners). It shall be referenced by all individuals involved in AHI continuing education program planning, development, and approval.

Definitions and acronyms

ACPE – Accreditation Council for Pharmacy Education
AHI – Accredo Health, Inc.
BLS – Basic Life Support
CBN – California Board of Nursing
CE – Continuing Education
CEA – Continuing Education Administrator
CEPC – Continuing Education Program Coordinator
CCMC – Commission for Case Manager Certification
CPE – Continuing Pharmacy Education; Continuing Professional Education
CRP - Communication Review Process
EDDF – Education Design/Documentation Format
HCPs – Health care providers
KSBN – Kansas State Board of Nursing
NPA – Nurse Practice Act
PDF – Program Description Form
UAN – Universal Activity Number

Procedure

It is your responsibility to ensure that you understand this procedure before performing the following tasks. Contact the document author if you have any questions about this procedure.

Standard Operating Procedure

Accredo

1.1 Program mission and goals determination

Step	Action
1	<p>Part 1: Mission and Goals (1.1)</p> <p>Accredo Health, Inc. (AHI) Continuing Education (CE) will create a clearly articulated mission, desired goals, and a planning process to achieve the mission and goals.</p> <ul style="list-style-type: none">• The mission, goals, and activities will:<ul style="list-style-type: none">○ Relate to the vision and educational needs of the pharmacist, nurse, and case manager (HCP) to better serve society.○ include Accredo CE's short-term intent in conducting CE activities, including the intended audience and activities scope○ Address how AHI CE will assist HCPs to maintain and enhance their professional competencies to practice in various settings.○ Educate HCPs to deliver patient-centered care as members of an inter-professional team, emphasizing evidence-based practice, quality improvement approaches, and informatics.• The CE Committee will review and revise the mission and goals no less than annually.
2	<p>Part 2: Assessment Plan</p> <p>AHI CE will evaluate the impact of its mission and goals by evaluating learner participation, satisfaction, and learning.</p> <ul style="list-style-type: none">• Learners will provide feedback on the following:<ul style="list-style-type: none">○ presentation○ education○ presence, or absence, of bias○ likes and dislikes○ Suggestions for future presentations – changes to the presentation being evaluated, or learner's topics of interest.• The CE Committee and presenters will review evaluation results no less than annually• Results will guide the CEA, Committee, and presenters in the need to:<ul style="list-style-type: none">○ revise the mission and/or goals○ revise the presentations○ re-educate presenters; e.g. presentation skills
3	<p>Part 3: Achievement of Mission</p> <p>AHI CE will demonstrate evidence showing the degree to which the mission and goals are met.</p> <ul style="list-style-type: none">• Based on the results of the aggregate evaluation results, AHI CE will evaluate and update our mission and goals.

Standard Operating Procedure

3	CE Committee oversight

Standard Operating Procedure

Accredo

	<p>The Company CE Committee will evaluate requests for continuing education course development based on:</p> <ul style="list-style-type: none"> • New or updated information on therapies, medications, or disease states of interest to AHI clinicians and clients; • Formal needs assessment - identified specific clinical or practice knowledge gaps; • Areas identified as high-risk, high-volume, high-cost, or problem prone; • Formal recommendations from the Performance Improvement Committee; • Informal suggestions from AHI clinicians requesting education in a specified area.
4	<p>Content Criteria (ACPE policies and procedures_ Section 1_Introduction_C Definition (also Appendix A: Definitions)</p> <p>Continuing education [for the profession of pharmacy] is a structured educational activity designed or intended to support the continuing development of healthcare providers to maintain and enhance their competence. Continuing education (CE) should promote problem-solving and critical thinking and be applicable to the practice of pharmacy, nursing, and case management.</p> <p>KSBN NPA 65-1117 (a) Presentation content must build upon the educational and experiential bases for the enhancement of practice, education, administration, research, or theory development for the purpose of improving the health or healthcare of the public. The following will <u>not</u> be considered continuing education: (KSBN NPA 60-9-1-5 Definitions (n)(p))</p> <ul style="list-style-type: none"> • In-service and on-the-job training: meaning learning activities in the work setting designed to assist the individual in fulfilling routine job responsibilities • Orientation: meaning formal or informal instruction designed to acquaint employees with the institution and the position <p>Institution-specific courses containing the same content as courses that are part of basic preparation at the level of current licensure or certification, or BCLS.</p>
5	<p>CE Activity methods and/or settings: (10) ACPE Guidelines with CE Definitions</p> <p>Continuing education may be delivered through live lecture, workshops, journal clubs and study groups, seminars, case presentations, video, audio, and computer-based materials, and self-study programs. Program materials may include PowerPoint presentations, written documents, posters, or other media that is accessible to the target audiences.</p>

1.3 Activity Development

Step	Action
1	<p>AHI CE will develop CE activities based on identified knowledge, skill, or practice gap; i.e. developer(s) will identify gaps between what HCPs currently know or do, and what is needed and desired in practice. ACPE Accreditation Standards for CPE 2017_Competence Area 2: Designing Educational Interventions p.49 Identified gaps:</p> <ul style="list-style-type: none"> • may be knowledge, skill, and/or practice gap • guide content development and delivery • form / determine activity type, objectives, active learning exercises, and outcomes <p>Target Audience ACPE Accreditation Standards for CPE 2017_Universal Activity Numbers 9a (pp 25-26)</p>

Standard Operating Procedure

Accredo

	<p>Activities for pharmacists and pharmacy technicians will be assigned a universal activity number (UAN) and release date, and post the course on the ACPE Provider Web Tool. ACPE Accreditation Standards for CPE 2017 Policy 9.0 Provider Web Tool</p> <p>Activities for Case Managers will be submitted to CCMC by the CES 30 days prior to the first scheduled presentation. (13)</p>
2	<p>AHI CE activities will be structured to meet knowledge-, application- and/or practice-based HCPs education needs. (1.3)</p> <ul style="list-style-type: none"> CPE activity types: knowledge, application, and practice. (14) The CPE activity type(s) will be consistent with Accredo Health, Inc. continuing education mission, and appropriate to meet the identified pharmacist and other applicable healthcare professional's needs, and must be based on evidence as accepted in the literature by the health care professions. <p>Knowledge-based CPE activity:</p> <ul style="list-style-type: none"> Designed for HCPs to acquire factual knowledge The minimum credit for these activities is 15 minutes or 0.25 contact hour. Objectives include verbs such as: list, recall, define, memorize, state. <p>Application-based CPE activity:</p> <ul style="list-style-type: none"> Designed primarily for HCPs to apply the information learned in the time allotted. Minimum credit for these activities is 60 minutes or one contact hour. Objectives include verbs such as: apply, demonstrate, interpret, solve, illustrate. <p>Practice-based CPE activity:</p> <ul style="list-style-type: none"> Designed for HCPs to acquire specific knowledge, skills, attitudes, and performance behaviors to expand or enhance practice competency. Formats of these CPE activities should include a didactic component and a practice component. Minimum amount of credit for these activities is 15 contact hours. Objectives include verbs such as: appraise, assess, defend, analyze, and differentiate. <p>AHI CE is not required to offer all 3 activity types.</p> <p>The activity type will be documented in the following:</p> <ul style="list-style-type: none"> CE database under "Courses" EDDF (Education Design / Documentation format) activity brochure per accreditation board requirements (ACPE)
3	<p>4b Content requirements (SOP 01 CE Process 1.3 Activity Development and approval policy)</p> <ul style="list-style-type: none"> Clinical content must come from credible, clinically approved sources, and must be specified in the bibliography. The most commonly used types of sources are: <ul style="list-style-type: none"> Articles in peer-reviewed journals Textbooks and other reference materials Position papers, consensus statements, review articles, and guidelines from government, academic, and other nonprofit organizations

Standard Operating Procedure

Accredo

	<ul style="list-style-type: none"> • Websites sponsored by acceptable organizations may be cited. The types of clinical information cited from appropriate websites may include, but are not limited to, the following: <ul style="list-style-type: none"> • Statistics • Peer-reviewed journal articles posted online • Consensus statements, position statements, and reference materials from approved government, academic, and other nonprofit organizations • FDA updates • Information for patients regarding living with their condition (if based on sound clinical rationale) • The content of the provider's CPE activities is based on evidence as accepted in the literature by the healthcare professions. • To the greatest extent possible, clinical content must be current and based on evidence accepted by experts in the field. In cases where content is unproved or controversial, steps should be taken to ensure that objective and balanced information is provided. Content that pertains to off-label must be disclosed as off-label. • "Sourcing" is the process of selecting and documenting sources for the clinical content in communications materials. • Content that requires sourcing <ul style="list-style-type: none"> • All definitive statements about medications, therapeutic and preventive practices, disease-related information, healthcare costs and trends, or new and not generally accepted information must be based on acceptable sources. This includes the following: <ul style="list-style-type: none"> ○ Statistics ○ Claims of medical benefit ○ Descriptions of side effects or symptoms ○ Clinical guidelines and treatment recommendations ○ Findings and conclusions of clinical studies
4	<p>Continuing Pharmacy Education Activity Development (1.4)</p> <p>Course developers will:</p> <ul style="list-style-type: none"> • Develop appropriate activity type behavioral learning objectives based on what the participant should be able to do as a result of the activity. (1.4) • provide a summary of planning explaining how the activity addresses the HCPs CE needs • Include references in a bibliography; may include additional references as a suggested reading list. (1.8) • create a product reference resource of all medications mentioned in the presentation activity (1.8) • develop unbiased, evidence-based content including all FDA approved treatment options (8a) <ul style="list-style-type: none"> ○ Content or format, or related materials, must not promote a specific proprietary commercial interest. ○ Presentations must give a balanced view of therapeutic options.

Standard Operating Procedure

Accredo

	<ul style="list-style-type: none"> ○ Generic names will be used for all medications. If trade names are also used, they must be used for all medications. ○ Use trade names from several companies if several manufacture, or distribute, the medication. • develop objectives-based: (1.20) <ul style="list-style-type: none"> ○ knowledge checks - questions within the activity presentation participants answer to check their comprehension ○ learning assessments - to measure acquired knowledge and comprehension (1.7) <p>For internal presentations, participants will complete a pretest to measure their topic knowledge-base, and share their personal objective(s) if different from the course objectives (1.7)</p> <ul style="list-style-type: none"> • Presenter will review results to guide the focus of the presentation. • Personal objectives will be evaluated by the CEA and CE Committee to determine if they should be added to future revised version / updates to the activity.
5	Reference Guidelines and Copyright use (15)
6	<p>Learning Assessment (1.9)</p> <p>AHI CE will include learning assessments in each CPE activity to allow pharmacists (and other disciplines) to assess their achievement of the content. Learning assessment completion is required for CPE credit.</p> <p>Formal assessments: Tests and quizzes</p> <ul style="list-style-type: none"> • Will be in hardcopy and/or online, whichever is most appropriate for the circumstances. • Live sessions <ul style="list-style-type: none"> ○ Learning assessments will include participant discussion. ○ The presenter will review answers with the learners. ○ Correct answers will be provided, along with rationale. ○ Tests will not be graded, nor will a passing grade be required. ○ If some participants attending remotely, all participants will follow WebEx session instructions (next bullet). • WebEx sessions <ul style="list-style-type: none"> ○ Learners will complete a pretest with registration, and a posttest following the presentation. ○ Aggregate results will be analyzed for the pretest, and compared to the posttest to show evidence of acquired learning. ○ Posttests will be graded, with a required passing grade. Participants who do not pass may retake the test. ○ Answer key with rationale will be given with CE certificate, or when credit reported to CPE Monitor. • Consistent with identified CPE activity objectives (1.4) and activity type (1.3) <ul style="list-style-type: none"> ○ Knowledge-based CPE activity – assessment questions structured to determine recall of facts.

Standard Operating Procedure

Accredo

	<ul style="list-style-type: none"> ○ Application-based CPE activity – case studies structured to address application of the principles learned. ○ Practice-based CPE activity - formative and summative assessments which demonstrate the participant achieved the stated objectives. ● Assessment feedback, verbal or written, will be provided to participants as per activity type: (1.10) <ul style="list-style-type: none"> ○ Knowledge – Participant informed of the incorrect responses. Rationale included for correct responses. ○ Application – correct evaluation of case studies. Presenter will explain the rationale for incorrect responses. ○ Practice – Presenter will provide feedback on assessments used by participants to demonstrate they achieved the objectives.
7	<p>Evaluations relevant to the intended activity outcome will be developed for each activity. (1.11) Pharmacist feedback will be summarized separately from other disciplines responses. Results will be used to determine areas requiring immediate or future CE program improvement.</p> <p>Feedback will be obtained to measure:</p> <ul style="list-style-type: none"> ● How well the activity met the participant's educational needs ● Objective achievement ● Faculty quality ● Education material usefulness ● Teaching and learning methods effectiveness, including active learning ● Learning assessment activities appropriateness ● Perceptions of bias or commercialism <p>Additional items may be added to determine the program effectiveness and guide development of future activities, as well as assess achievement and impact of the stated mission and goals. (1.1)</p>
8	<p>External CE program approval requirements</p> <p>CE programs developed for presentation to non-employees (participants outside AHI) must also meet the Communication Review Panel (CRP) requirements and receive CRP review and approval. (16)</p> <p>Prior to CRP submission:</p> <ul style="list-style-type: none"> ● CEA will review the activity to ensure content is acceptable by accreditation guidelines, and all accreditation board requirements have been met; formatting, grammar, and spelling. ● Clinical SME will review to ensure content is accurate. <p>After CRP approval:</p> <ul style="list-style-type: none"> ● The CEA will develop required supporting documents. ● Revisions will be submitted to the CRP Communications Analyst to determine if CRP review is required.

CE Documents

The following must be completed / created for each CE presentation. Templates for each are available from the CEA, along with the CE Objectives Tool (1.20):

- Needs Assessment / Gap Analysis (1.2)
 - Identify gaps between pharmacist / pharmacy tech, other HCPs as applicable, current knowledge and what is needed in practice
 - Identified knowledge, skill, or practice gap, and guide content development and delivery
 - Identified gap root (i.e. specific knowledge, skill, attitude, experience) and determines activity type, learning objectives, active learning exercises, and outcomes
- Summary of Planning – content from needs assessment
- Education Design / Documentation Format (EDDF) (1.4)
 - Snapshot of the activity
 - Title:
 - Course ID
 - ACPE UAN / Release date / Planned expiration date / Activity type
 - Contact hours per discipline
 - Presenter requirements
 - Teaching Strategies
 - Objectives
 - Activity outline with knowledge checks
 - References / Bibliography
 - Product References and access date
- Objectives determined based on gap analysis finding(s) (1.4)
 - Specific and measurable
 - Developed to specifically address identified educational need (1.2)
 - Addressed by an active learning activity (1.7)
 - Covered by a learning assessment (1.9)
- Bibliography (reference requirements for KSBN – books 10 yrs in age or less, journal articles and website material 5 yrs or less including date accessed). Exceptions allowed with CEA's approval. (9b)(15)
- Agenda
- Announcement and/or brochure
- Attendance Roster(s) specific to each discipline
- Evaluation for multiple disciplines (1.11)

The following categories will be evaluated as appropriate to course format:

- How well the CPE activity met the participant's educational needs
- Achievement of every objective (e.g., each objective is listed or a single question asking if all objectives were met with a free-text option to list any unmet objectives)

Standard Operating Procedure

Accredo

	<ul style="list-style-type: none"> • Content accuracy, current, and relevant • Faculty Quality - Presenter <ul style="list-style-type: none"> ○ Knowledge of subject ○ Presentation skills • Educational material usefulness • Teaching and learning methods effectiveness, including active learning • Learning assessment activities appropriateness • Perceptions of bias, promotion, or advertisement of commercial products • What they most / least liked about the education • Suggestions for future education • Comments • Time was adequate for the material presented <p>Learning Assessment and Answer Key with rationale</p> <p>A learning assessment is required for pharmacists and pharmacy technicians. AHI CE has decided to require it for all disciplines. Examples of assessment of objectives or outcomes include, but are not limited to:</p> <ul style="list-style-type: none"> • Case studies • Role-play scenarios • Pretest/posttest • Posttest • Action planning <p>Course handout is required for pharmacists and pharmacy technicians. Examples of content include:</p> <ul style="list-style-type: none"> • PowerPoint slides in handout format • Suggested reading list • Table comparing / contrasting disease characteristics presented
10	<p>Contact Hours</p> <p>The course developer states the amount of time it takes to present the course material. From this, contact hours are determined. (18)</p> <p>Contact hours for nurses will be awarded as follows:</p> <ul style="list-style-type: none"> 1.2 CONTACT HOUR = 60 minutes 0.1 CONTACT HOUR added for each additional 5-minute increment. <p>Contact hours for case managers will be awarded as follows:</p> <ul style="list-style-type: none"> 1.00 CONTACT HOUR = 60 minutes 1.25 CONTACT HOUR = 75 minutes 0.25 CONTACT HOUR added for each additional 15-minute increment. <p>Contact hours for pharmacists and pharmacy technicians will be awarded as follows:</p>

Standard Operating Procedure

Accredo

	<p>1.0 CONTACT HOUR = 60 min</p> <p>1.25 CONTACT HOUR = 75 min</p> <p>1.50 CONTACT HOUR = 90 min</p> <p>0.25 CONTACT HOUR added for each additional 15-minute increment.</p> <p>Minimum time for activity per discipline:</p> <ul style="list-style-type: none"> Pharmacist and pharmacy technician – 15-minutes Knowledge-based Nurse – 30 minutes Case Manager – 30 minutes
11	<p>ACPE Universal Activity Numbers:</p> <p>If approved for pharmacists and pharmacy technicians, the activity will be assigned a universal program number and release date (self-study activities only), and posted on the ACPE Provider Web Tool. (11) (12)</p>
12	<p>CCMC Approval (13)</p> <ul style="list-style-type: none"> If course is to be approved for CM CE, notify Continuing Education Specialist to submit to CCMC

2.1 Course Approval Process

Step	Action
1	<p>CRP Review (Peer Review)(16)(19)</p> <ul style="list-style-type: none"> Prior to the CE review/approval, all CPE activities intended for external audiences are reviewed and approved by AHI Communication Review Process. A panel of AHI experts in key functional areas; which may include Legal, Compliance, Privacy/HIPAA, Regulatory, Professional Practice, and Clinical Practice SME; reviews and approves all communications AHI distributes externally. This review process has been implemented to manage legal and regulatory risk, and to enhance patient safety.
2	<p>AHI CE Approval</p> <p>The CEA will designate individuals to perform a Clinical and Final CE Committee review. All reviewers will complete and sign the Identification, Mitigation, and Disclosure of Relevant Financial Relationships form which will be kept on file.</p> <p>Review will be documented on the Multi-approval form (20) which provides:</p> <ul style="list-style-type: none"> Review instructions, access link to documents in CE SharePoint, and due date Course ID and Title Reviewer name and title, date Identification, Mitigation, and Disclosure of Relevant Financial Relationships form was signed Names of developer and documents to be reviewed: <ul style="list-style-type: none"> Course Developer

Standard Operating Procedure

Accredo

	<ul style="list-style-type: none"> ○ Identification, Mitigation, and Disclosure of Relevant Financial Relationships form signature date ○ Course offering documents – required for accreditation but not used for presentation ○ Presentation documents • Reviewers review each form and document any changes needed in a table with headings: <ul style="list-style-type: none"> ○ Document number ○ Slide or page ○ Suggested revision ○ Reviewer ○ Revision date ○ Who made revision (Note: revisions made by CEA only) • Suggested revisions are reviewed by the CEA and made. CEA will discuss with the developer if unsure change should be made. All changes are documented on the multi-review form. • Review information from each separate review form is copied and pasted to a final review form with QA, Clinical, and CE Committee reviews and signatures on one document. • Final document versions are kept Continuing Education "Course Offering" folder with limited access ensuring the most recent version is given upon request.
3	<p>Quality Assurance Review</p> <p>A Quality Assurance review (QAR) will be completed by the CEA for every program submission to ensure:</p> <ul style="list-style-type: none"> • Inclusion of all required course offering documents • Documents meet Continuing Education guidelines • Terminology meets Continuing Education guidelines • Course Offering meets definition of Continuing Education
4	<p>Clinical Review</p> <p>A clinician subject matter expert who is not the initial program developer/presenter, does not have any direct marketing/sales/distribution responsibilities, and who does not have a commercial interest in the activity topic, will perform a clinical review to ensure clinical accuracy of the information. This may be done during CRP review or CE Approval review.</p>
5	<p>CE Committee Review</p> <p>One (1) CE Committee member will perform the CE Committee review of the course offering assuring the offering meets the needs of AHI.</p>
6	<p>Final CE Approval</p> <p>After all points have been addressed by the CEA from the clinical and CE Committee review, the CEA will sign the final approval line on the review/approval form. The form will be saved in the course folder under "Approval Documents." The QA, clinical, CE Committee and final approval dates will be entered into the CE Database, along with any other information that was not completed during the process.</p>
7	<p>Course approval documentation</p>

Standard Operating Procedure

Accredo

Upon course approval, the CEA will:

- notify the course developer(s) and CES of course approval
- provide CES with course information to input in the CE database
- add course name to appropriate course list template document
- Add final version to CRP JIRA database

Number: AHI SOP CE 5	Revision: 10	Effective Date: 06/03/2005	
Title: Record Retention and Material Maintenance			
Department: Continuing Education			
Program: General			

Purpose

The purpose of Record Retention and Material Maintenance is to provide a standardized process for maintenance of approved course material.

Scope

This procedure is applicable to Accredo Health, Inc. Continuing Education (AHI CE). It should be referenced by all individuals responsible for maintaining all media forms of continuing education offerings provided through AHI.

Definitions

AHI – Accredo Health, Inc.

CE – Continuing Education

QA – Quality Assurance

Procedure

It is your responsibility to ensure that you understand this procedure before performing the following tasks. Contact the document author if you have any questions about this procedure.

Approved course offerings will be maintained electronically.

Step	Action
2	Electronic course versions will be divided in individual folders named using the following format: (Access ID) - Course Title - approval date. Example: (089) – Hemophilia Management - 103017
3	Within course folders, documents will be subdivided into: <ul style="list-style-type: none"> • Course Documents - documents required for course approval but not required for presentation purposes • Presentation documents - documents required for presentations • Approval documents – QA, clinical review, and CE Committee review and final approval documentation • Archive documents - documents that have been replaced by revised documents
4	Version control will be implemented for document creation and each update. Electronic PowerPoint presentation name will include the (course ID) CE approval date, course title, CRP approval date, amc#. Course documents will include the course ID in the electronic document title.
5	A current list of approved courses for external use will be maintained on the limited access N drive: N:\Continuing Education\Course Lists, and will be updated as courses are approved.
6	Upon course retirement, the retirement date will be added to the folder title. The folder will be moved from "N:\Continuing Education \Course Offerings" to "N:\Continuing Education \Course Offerings\Retired Courses."

Standard Operating Procedure

Accredo

7	Electronic course folders and contents may be deleted 8 years after retirement date.
8	In the case electronic data is lost, all files are electronically backed-up on a nightly basis and sent off-site to a 3rd party vendor for storage and retrieval. This data is retained past the legal timeframe of 7 years. If Express Scripts, Inc. (ESI) were to go out of business, their Legal requirement would continue to retain data at the 3rd party vendor to stay in compliance with pharmacy law.

Title: Post Presentation Process			
Department: Continuing Education			
Program: General			

Purpose

To provide a standardized procedure for processing the post presentation documents and creating certificates of completion for participants.

Scope

This procedure is applicable to AHI CE. It should be referenced by all individuals that that will be receiving and entering referrals.

Definitions

AHI – Accredo Health, Inc.

CE – Continuing Education

CEA – Continuing Education Administrator

CES – Continuing Education Specialist

Procedure

It is your responsibility to ensure that you understand this procedure before performing the following tasks. Contact the document author if you have any questions about this procedure.

Post presentation documents will be processed and certificates and/or statements of credit mailed within 4 weeks of receipt if all required information is present.

Step	Action
1	<p>CES receives hardcopy from presenters or account coordinators, or accesses electronic data in LMS or Survey Monkey, post presentation documents, including attendance rosters, evaluations, and pre- and posttests (if applicable). When appropriate, the CEA or CES grades posttest to determine if participant passed and is eligible for contact hours.</p> <ul style="list-style-type: none"> • CES ensures all required documents are present • CES enters presentation information into Continuing Education database under "Session": <ul style="list-style-type: none"> ▪ Date of presentation ▪ Presenter ▪ Location ▪ Contact type ▪ Contact person, address, and phone number <p>Participant names, state(s), and license number(s) (required for nurses), NABP ID and DOB (MMDD) (required for pharmacists).</p>
2	<p>From entered data, CES creates course completion certificates, statements of credit, and/or verification of completion forms; and alphabetized participant list. Certificates, statements of credit, and verification of completion forms are mailed or emailed to individual designated on Request to Present form. This could be:</p> <ul style="list-style-type: none"> ▪ Presenter or account manager ▪ Point person at location of presentation ▪ Participant • See AHI SOP 41 Reporting in CPE Monitor

3	<p>CES enters hardcopy evaluation responses into the "Universal UPACE Evaluation Template – Multi-discipline" in Survey Monkey.</p> <ul style="list-style-type: none"> • Select "New Collector." Rename with Session Number, Course Name, Session Date, City, State, and number of evaluations received. • Manually enter evaluation responses. • Filter results to display session results only. • Export evaluation all summary data in Excel. • Save evaluation summary on W Drive in Continuing Education/Presentation Summaries remove with name – CE Database Session Number/Course Title/Presentation Date//City/State.
4	<p>CES completes the "Completed Documents Checklist", a tool used to track completeness of the post presentation program records and process, with the following information:</p> <ul style="list-style-type: none"> • Date documents received • Course title • Presentation date • Agency name • City, state • Presenter • Presenter's manager or Participant Supervisor for completion of Home / Self Study course • Access Session number • Total number of participants • Total number of evaluations received • Total certificates and or statements of credit issued per discipline, date issued, and to whom sent • Checklist of the following: <ul style="list-style-type: none"> ▪ Alphabetized participant list generated by CE Data Base ▪ Evaluations received ▪ Posttest received ▪ Confidentiality Agreement received ▪ Evaluation summary completed ▪ Electronic file made: "N" drive ▪ Evaluation summary sent to Presenter and their direct supervisor ▪ Ready for permanent filing
5	<p>The completed document checklist is attached to the post presentation documents:</p> <ul style="list-style-type: none"> • Attendance roster of participants (name, license number, signature, contact hours awarded, offering title, date of offering) to whom credit was awarded • Participant course objectives and evaluations • Summary of the program: <ul style="list-style-type: none"> ▪ Alphabetized participant list ▪ ACPE Activity Description form (ADF) as appropriate <p>Hardcopy documents are filed.</p>
6	<p>Security measures: Program records are kept in a locked file cabinet only accessible to the CEA and CES for seven (7) years, however, the minimum required length of time from the date of program completion is listed per discipline:</p> <ul style="list-style-type: none"> • Advance Practice Registered Nurse, Registered Nurse, and Licensed Practical Nurse – no less than 2 years • Pharmacist – no less than 5 years • Case manager – no less than 5 years <p>The file cabinet is located within AHI. Access to the office is restricted by locked doors that open with the use of a card key. The CE database is only accessible to the CEA and CES. The audited CE electronic folders are restricted to the CEA and CES. See AHI SOP CE 5 Course Offering Material Maintenance</p>

7	Individual attendance and information regarding each offering shall be available within two (2) weeks upon request from individual health care professionals or their specific board. If individual health care professionals are assessed a fee for this retrieval service, the fee shall be specified.
8	Program records for all informal offerings shall include: <ul style="list-style-type: none"> • roster of participants to whom credit was awarded • summary of the program including participant and provider evaluations
9	The hardcopy session material is kept in a locked file cabinet accessible to the CEA, CES, and select Associate Account Coordinators only. Hardcopy presentation material after 2 years may be moved to Iron Mountain for storage and is retrievable within 48 hours. Iron Mountain 15400 W. 99 th . Street Lenexa, Kansas 66219 Phone: (913) 888-4766 Hardcopy session material may be shredded no less than 7 years after the session date.
10	The evaluation summary will be forwarded to the presenter, the direct supervisor who is responsible for the disease state or subject matter of the course offering or to whom the presenter reports, and to the CE Advisory Committee for the purpose of evaluating the present courses and future course planning. Evaluations containing negative comments or scores of "Fair" or "Poor" are forwarded to the CEA for review to determine if action is required.

Title: Continuing Education Fee Payment, Assessment, and Reimbursement Process			
Department: Continuing Education			
Program: General			

Purpose

To provide a standardized process for payment for various Accredo Health, Inc. Continuing Education (AHI CE) requirements.

Scope

This procedure is applicable to AHI CE. It should be referenced by all individuals responsible for processing AHI CE Fee Payments and/or Reimbursements.

Definitions

AHI – Accredo Health, Inc.

CE – Continuing Education

Procedure

It is your responsibility to ensure that you understand this procedure before performing the following tasks. Contact the document author if you have any questions about this procedure.

The CE Specialist will complete a check request form, submit it to Accounts Payable Division, and receive a check to pay Continuing Education related fees.

1.1 Check Request Process

Step	Action
1	If the purchase falls outside the guidelines for using a P-Card and/or the Vendor will not take a P-Card, complete a check request form with the appropriate information. If this is the first fee paid to this vendor, request the vendor provide a W-9 form prior to fee payment.
2	Complete the official department check request form to include the division and location number, check recipient's name and address, the amount requested, date requested, date required, name of originator, location where check is to be sent, reason for check, and the general ledger account numbers.
3	Obtain authorized signature or approval email from CE manager.
4	Send check request form plus approval by email to accounts payable.
5	Save electronic check request form in W Drive/Continuing Education/Check Request Form/Date Vendor file. File copy of check request and attachments with pertinent documents in CE file cabinet in folder with vendor name. Attach a copy of the check to the filed hardcopy documents when the check is received.

1.2 Fee Payment by Company Credit Card Process

Step	Action
------	--------

Standard Operating Procedure

Accredo

1	In the event the fee may be paid by company credit card, provide P-Card information: name, number, expiration date and security code.
2	The Continuing Education Administrator or the Continuing Education Specialist will provide the Supervisor (P-Card owner) with a copy of the receipt, and keep a hardcopy on file.

1.3 Fee Assessment Process

Step	Action
1	No fee is assessed for continuing education offerings for AHI employees.
2	No fees are assessed for CE offerings presented to healthcare providers not employed by AHI.

1.4 Fee Reimbursement Process

Step	Action
1	AHI does not charge a fee for continuing education.

Process Flow

Title: Independent Study Continuing Education Requirements			
Department: Continuing Education			
Program: General			

Purpose

To provide a standardized process for development and completion of Independent Learning continuing education courses approved for pharmacist, nurse, and case manager Accredo Health, Inc. Continuing Education (AHI CE).

Scope

This procedure is applicable to the Accredo Health, Inc. Continuing Education (AHI CE). It should be referenced by all individuals developing or completing independent learning CE.

Definitions

AHI – Accredo Health, Inc.

CCMC – Commission for Case Manager Certification

CE – Continuing Education

SS – Self-study

Home-study and other mediated activities - printed, recorded, or computer-assisted instructional activities that do not provide for direct interaction between faculty and participants.

Independent study - a self-paced learning activity undertaken by the participant in an unstructured setting under the guidance of, and monitored by, an approved provider. This term may include self-study, distance learning, and authorship.

Procedure

It is your responsibility to ensure that you understand this procedure before performing the following tasks. Contact the document author if you have any questions about this procedure.

Participants of AHI CE courses that are not presented live will be required to complete an attendance roster and pass a posttest with a minimum number of correct answers.

1.1 New Course Process

Step	Action
1	The course will be created and submitted for approval to the CE Administrator.
2	CE Administrator will develop additional supporting course material: <ul style="list-style-type: none"> • Instructions for participant explaining requirements • Instructions for participant explaining post presentation material handling • Attendance roster requiring the following participant information: <ul style="list-style-type: none"> ▪ Name ▪ Signature ▪ State(s) and license number(s) (nurses only) ▪ NABP e-Profile ID and DOB (MMDD) (Pharmacists only) ▪ Address • Posttest and Answer Key with rationale • Evaluation

3	Contact hours will be determined by pilot test as per AHI SOP CE 4: Pilot Test Policy: Independent Learning Contact Hour Determination via Pilot Test
4	Course material will be approved as per AHI SOP CE 1: Continuing Education Process
5	Upon approval for nurse continuing education, the course will be submitted to CCMC for case manager approval, if applicable, per AHI SOP CE 6 Initial and Annual Commission for Case Manager Certification Course Approval.
6	The Project requestor and their manager will be informed of approval, presentation process, and materials.

1.2 Previously Developed Course Process

Step	Action
1	The request for an independent learning option for a previously approved course offering will be sent to the CE Administrator.
2	<p>CE Administrator will develop additional course material:</p> <ul style="list-style-type: none"> • Instructions for participant explaining: <ul style="list-style-type: none"> ○ course and posttest requirements ○ Post-education process to receive CE credit • Attendance roster requiring the following participant information: <ul style="list-style-type: none"> ▪ Name ▪ Signature ▪ State(s) and license number(s) (nurses only) ▪ NABP e-Profile ID and DOB (MMDD) (Pharmacists only) ▪ Address • Posttest / Answer Key with rationale • Evaluation
3	Two (2) members of the CE Committee will review and approve additional course material.
4	If the independent learning will be offered to case managers, the course will be resubmitted to CCMC for approval due to change in format per AHI SOP CE 6 Initial and Annual Commission for Case Manager Certification Course Approval.
5	The project manager and project requestor will be notified of independent learning course approval.

1.3 Presented CE Series recorded via WebEx

Step	Action
1	<p>The CEA will review and edit the recording.</p> <ul style="list-style-type: none"> • Go to "My Training Recordings" and select the presentation link you wish to revise. <ol style="list-style-type: none"> 1. Select "Streaming recording" link. 2. Listen to audio to determine start and stop times. 3. Go back to previous screen and select "Modify." Will take you to "Edit Recording." 4. Under "Recording File," <ol style="list-style-type: none"> a. unclick "Panel Display Options" b. Select "Partial Playback" and enter Start and End times c. Select "Save" d. Listen to audio by selecting "Streaming recording" link to make sure it starts and ends where desired. e. Copy link.

2.	<p>CE Administrator will revise course material:</p> <ul style="list-style-type: none"> • Add to ACPE Webtool and create new UAN • Add SS course into CE database to get course ID. • Change original live course ID to new SS course ID • Revise document to reflect self-study format <ul style="list-style-type: none"> ○ EDDF: course ID, title, UAN, presentation format ○ Brochure: change live format references to recording of live reference; instruction for course and pre- and posttest requirements ○ Attendance rosters • Add course ID, title, and ACPE planned retire date to CE Series Recorded Presentations Instructions found in Continuing Education folder "CE Series_SS Survey Monkey. Save updated instructions with new date: e.g. 102317 CE Series Recorded Presentations Instructions.
3	<p>Add course to "CE Series Self Study – Session Info: Pretest/registration, Posttest, Evaluation, Participant Information" template in Survey Monkey.</p> <ul style="list-style-type: none"> • Select "Design Survey" • Add Course ID, title, planned retire date. Add any unique info such as contact hours other than RN 1.25, RPh 1.25 • Go to last course added pre-test and make a copy. • Revise copy with new course ID, title including Pre-test, and pre-test content. • Change copied course title to new course title. • Copy and paste test questions and responses. Select "Score this question" (enable quiz mode). Mark correct answer(s). Save. Do this for each question. You may need to add or delete questions if the copied test has a different number of questions than the one you are adding. • Add Answer choice and select "Insert / edit Link." • In box "Insert Link," add WebEx recording URL. For target, choose "New Window." • Select "OK." Delete link from copied course.
4	<p>Make a copy of the pre-test page. Rename it Course ID Title Posttest and Evaluation.</p> <ul style="list-style-type: none"> • Add passing grade information. • Delete answer option "I don't know" from every question. • Add course objectives under question asking participant to rate their level of expertise per objective. Make sure to delete other course's objectives. • Save changes.
5	<p>Return to page 1.</p> <ul style="list-style-type: none"> • For question 1. choose "Logic." • Find appropriate course title. In drop-down box on left, select course pre-test title. In drop-down box on right, choose "Top of Page." Save. • Go to Pretest page. Select "Page Logic." Select "Page Skip Logic." Select the course posttest and evaluation page in window below, "After the current page is completed, skip to this page.... Select "Apply." • Go to Posttest page. Select "Page Logic." Select "Page Skip Logic." Select P##: Presenter and Content evaluation. Select "Apply."
6	<p>Select "Preview and Test" at the upper right corner of the template. Choose added course and select "Next" at page bottom. You should be taken to the pretest page.</p> <ul style="list-style-type: none"> • If you did not, repeat step 5. • Complete the questions. • Test the WebEx link. If it doesn't work, repeat step #3. • If link works, select "Next." • If you were not taken to the post-test, repeat step #5. • Complete posttest and evaluation, and participant discipline. Select "Next." • If you do not go to, "Presenter and Content evaluation," repeat step #3.

	<ul style="list-style-type: none"> • Complete page and select "Next." • Complete "Participant and Continuing Education Credit Information" page. • Preview & Test again, or end test. <p>Have one or two other people trial.</p>
--	---

1.3 Post Presentation Process

Step	Action
1	<p>The CE Specialist will receive notification the participant has completed the activity, and view posttest score:</p> <ul style="list-style-type: none"> • Select Analyze Results • Select Individual responses • Find participants results by scrolling through respondent # tab or • Filter by questions and answer. <ul style="list-style-type: none"> ○ Select question that contains an identifier such as name ○ choose a row such as last name ○ add matching words and input participants last name ○ select apply. <p>Notify participant if they did not pass and send them link to 2nd. attempt posttest with instructions and handout.</p>
2	The CE Specialist will process the post presentation material as per AHI SOP CE16: Post Presentation Process.
3	The CE Specialist will create a certificate or statement of credit for individuals who have successfully passed the posttest, and mail it to them along with the answer key and rationale for future reference. Pharmacist credit will be submitted to CPE Monitor .

Title: Continuing Education Evaluation Outcome Summary			
Department: Continuing Education			
Program: General			

Purpose

To provide a standardized process for evaluation of Accredo Health, Inc. (AHI) Continuing Education (CE).

Scope

This procedure is applicable to AHI CE. It should be referenced by all individuals that that will be presenting Continuing Education presentations.

Definitions

AHI – Accredo Health, Incorporated

CE – Continuing Education

CV – Curriculum Vitae

Procedure

It is your responsibility to ensure that you understand this procedure before performing the following tasks. Contact the document author if you have any questions about this procedure.

Assessment Plan

Accredo Health, Inc. (AHI) continuing education (CE) evaluation plan has been developed to document achievement of the AHI CE mission and goals. We measure the following:

- Participation: number of participants attending CPE activities
- Satisfaction: directly measuring satisfaction with learning activities, topic, level of content, and speaker's organization of the material
- Learning: pre- and posttests, self-assessment tools, multiple choice, short answer, essays, presentations

Achievement of Mission

Analysis of the evaluation results demonstrates evidence indicating the degree to which the mission and goal(s) of the AHI CE program were met. Based on the results of the evaluation results, our CE mission and goals are evaluated, and updated or determined to be appropriate unchanged, in order to enhance the program.

1.1 Evaluation

Step	Action
1	Each course will include an evaluation tool that has been developed to gather required information per accreditation boards requirements. Course specific information, such as objectives, will be input into the evaluation template. [45a]
2	Participant responses will be obtained via hardcopy or electronically via Survey Monkey.
3	Responses obtained via hardcopy are input into the appropriate course Evaluation template - Multi Discipline found in Survey Monkey. [45b]

Standard Operating Procedure

Accredo

- Presentation date
- Presenter
- Session number (source: CE database to coincide with the participant attendance list and CE credits.
- Whether the session occurred in multiple locations
- Location
- Course Name
- Disciplines attending
- Course ID and Title
- Evaluation Template:
- Course Specific:
 - Course Objectives Before, After, and Needed for position rated novice, intermediate, or expert
 - Explain how education could be improved to better meet any objective(s) not met; Identify anything not covered in the presentation you need to care for your patients:
- Weighted rating - Scale: Strongly agree / Agree / Disagree / Strongly Disagree / N/A
 - The presenter was knowledgeable and effective
 - The presenter was responsive to participant questions
 - The education material was useful
 - The teaching and learning methods were effective
 - The activity was presented objectively and was free from commercial bias
 - The education contained opportunities for active learning
 - The post-test accurately measured what I learned from the information presented
 - The content learned from this activity will impact my practice
 - The activity promotes improvement in healthcare
 - I would recommend this activity to others
 - Please elaborate if bias perceived
- Participant applicability response
 - This activity will assist in the improvement of my: (Check all that apply)
 - Competence
 - Performance
 - Patient outcomes
 - I do not encounter these patients in my practice area
 - I plan to make the following changes to my practice: (Check all that apply)
 - Modify treatment plans
 - Incorporate different diagnostic strategies into patient evaluation
 - Use alternative communication methodologies with patients and families
 - None; the activity validated current practice
 - None; I do not encounter these patients in my practice area
 - What is your level of commitment to making changes stated above?
 - Very committed
 - Somewhat committed
 - Not very committed
 - Do not expect to change practice
 - I do not encounter these patients in my practice area
 - What are the barriers you face in your current practice setting that may impact patient outcomes? (Check all that apply)
 - Lack of evidence-based guidelines
 - Lack of applicability of guidelines to my current practice/patients
 - Lack of time
 - Organizational/Institutional

x			All recommendations involving clinical medicine related to my content will be based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.
x			All scientific research referred to, reported, or used in my content in support or justification of a patient care recommendation will conform to the generally accepted standards of experimental design, data collection and analysis. To help learners judge the quality of data provided, I will present the source and type of evidence (i.e. animal study, randomized controlled trial, meta-analysis, etc.)
x			Research findings and therapeutic recommendations in my content will be based on scientifically accurate, up-to-date information and be presented in a balanced, objective manner.
x			For any drug/product discussed, the data must be objectively selected and presented, both favorable and unfavorable information about the drug/product must be fairly presented, and I will include information about reasonable alternative treatment options. Where there is a suggestion of superiority of one drug/product over another, this suggestion need to be supported by evidence-based data.
x			If I am discussing specific healthcare products or services, I will use generic names to the extent possible. If I need to use trade names, I will use trade names from several companies when available, and not just trade names from a single company. My educational materials will not contain any advertising, unnecessary trade names or product group messages.
x			If I am discussing any drug/product use that is unlabeled or investigational, I will disclose that the use or indication in question is not currently approved by the FDA.

Guidance for Planners, Authors, and Faculty: Ensuring Clinical Content is Valid

As an important contributor to our accredited education, we would like to enlist your help to ensure educational content is fair and balanced, and that any clinical content supports safe, effective patient care. This includes:

- All recommendations for patient care in accredited continuing education must be based on current science, evidence, and clinical reasoning, while giving a fair and balanced view of diagnostic and therapeutic options.
- All scientific research referred to, reported, or used in accredited education in support or justification of a patient care recommendation must conform to the generally accepted standards of experimental design, data collection, analysis, and interpretation.
- Although accredited continuing education is an appropriate place to discuss, debate, and explore new and evolving topics, these areas need to be clearly identified as such within the program and individual presentations. It is the responsibility of accredited providers to facilitate engagement with these topics without advocating for, or promoting, practices that are not, or not yet, adequately based on current science, evidence, and clinical reasoning.
- Content cannot be included in accredited education if it advocates for unscientific approaches to diagnosis or therapy, or if the education promotes recommendations, treatment, or manners of practicing healthcare that are determined to have risks or dangers that outweigh the benefits or are known to be ineffective in the treatment of patients.

These expectations are drawn from Standard 1 of the ACPE Standards for Integrity and Independence in Accredited Continuing Education.

Consider using the following best practices when presenting clinical content in accredited CE:

- Clearly describe the level of evidence on which the presentation is based and provide enough information about date (study dates, design, etc.) to enable learners to assess research validity.
- Ensure that, if there is a range of evidence, that the credible sources cited present a balanced view of the evidence.
- If clinical recommendations will be made, include balanced information on all available therapeutic options.
- Address any potential risks or adverse effects that could be caused with any clinical recommendations.

Note for clinical reviewer

One strategy to ensure the clinical content validity of accredited continuing education is to allow external (peer) review by persons with appropriate clinical expertise and no relevant financial relationships with ineligible companies, defined as those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. The questions below direct reviewers to share feedback about each of the requirements that comprise Standards for Integrity and Independence Standard 1.

Course: (443) Myasthenia Gravis (MG)

Please answer the following questions regarding the clinical content of the education.

To check box yes or no, double click on the appropriate box to open "Check box form field options" window. Default value is "not checked." Select "Checked" then "OK."

Are the recommendations for patient care based on current science, evidence, and clinical reasoning, while giving a fair and balanced view of diagnostic and therapeutic options? [Standards for Integrity and Independence 1.1]	<input checked="checked" type="checkbox"/> Yes <input type="checkbox"/> No
Comments:	
Does all scientific research referred to, reported, or used in this educational activity in support or justification of a patient care recommendation conform to the generally accepted standards of experimental design, data collection, analysis, and interpretation? [Standards for Integrity and Independence 1.2]	<input checked="checked" type="checkbox"/> Yes <input type="checkbox"/> No
Comments:	
Are new and evolving topics for which there is a lower (or absent) evidence base, clearly identified as such within the education and individual presentations? [Standards for Integrity and Independence 1.3]	<input checked="checked" type="checkbox"/> Yes <input type="checkbox"/> No
Comments:	
Does the educational activity avoid advocating for, or promoting, practices that are not, or not yet, adequately based on current science, evidence, and clinical reasoning? [Standards for Integrity and Independence 1.3]	<input checked="checked" type="checkbox"/> Yes <input type="checkbox"/> No
Comments:	
Does the activity exclude any advocacy for, or promotion of, unscientific approaches to diagnosis or therapy, or recommendations, treatment, or manners of practicing healthcare that are determined to have risks or dangers that outweigh the benefits or are known to be ineffective in the treatment of patients? [Standards for Integrity and Independence 1.4]	<input checked="checked" type="checkbox"/> Yes <input type="checkbox"/> No
Comments:

Number: AHI SOP CE 4	Revision: 9	Effective Date: 06/03/2005	
Title: Independent Learning Contact Hour Determination via Pilot Test			
Department: Continuing Education			
Program: General			

Purpose

The purpose of the Pilot Test for Independent Learning Contact Hour Determination procedure is to provide a standardized process for determination of contact hours for courses that are not given by a presenter.

Scope

This procedure is applicable to Accredo Health, Inc. Continuing Education (AHI CE). It should be referenced by all individuals responsible and/or involved in AHI CE course approval from development through pilot test approval.

Definitions

AHI – Accredo Health, Inc.

CE – Continuing Education

Home study and other mediated activities - printed, recorded or computer assisted instructional activities that do not provide for direct interaction between faculty and participants.

Independent learning - a self-paced learning activity undertaken by the participant in an unstructured setting under the guidance of, and monitored by, an approved provider. This term may include self-study programs, distance learning, and authorship.

Procedure

It is your responsibility to ensure that you understand this procedure before performing the following tasks. Contact the document author if you have any questions about this procedure.

Contact hours for home study or independent learning will be determined by performing a pilot test using 3-5 participants representing the intended target audience for whom the activity was developed.

Pilot Test Development and Completion Process

Step	Action
1	Develop activity following AHI SOP CE 1: Continuing Education Process up to approval process.
2	Quality Assurance and Clinical reviewers will review and approve information and format prior to pilot test.
3	CE Administrator will create pilot test instructions explaining the intent of the process, the pilot test requirements (tracking time required to complete course and passing post test, CE – nonCE split), and form to document the following: <ul style="list-style-type: none"> Participant name Participant state and license number (license number required for nurses only) Completion date Completion time Test result
4	Pilot test must be completed by clinicians for whom the course will be approved. Example: a home study activity for nursing CE will be pilot tested by nurses. Completion time must be a minimum of:

	<ul style="list-style-type: none"> • 15 minutes for pharmacist, pharmacy technician activities • 60 minutes for activities approved for nurses • 60 minutes for activities approved for case managers.
5	Following initial pilot test, results are reviewed to determine activity completion time meets continuing education contact hour minimum requirements. In addition, comments or feedback are evaluated. Identified items are returned to course developer to address and revise.
6	Once revisions are made, proceed with 2 nd pilot test. If additional revisions to content are required, additional pilot tests will be performed so results are determined from final format.
7	Upon completion of pilot test, determine the average completion time only using results of those successfully passing the posttest.
8	Create a pilot test results synopsis including participants' names, license, discipline, completion time, test score, and average time to complete the activity. Include this and pilot test documentation with the other course documents on file for the life of the course offering.
9	Review evaluation comments and determine if any changes are required to course material prior to approval review.
10	Complete course approval process (See AHI SOP CE 1: Continuing Education Process .
11	Upon approval, issue certificates to pilot test participants who successfully passed posttest.

Process Flow

The following Process Flows are to be used in conjunction with this SOP:

Title: AHI CE via WebEx			
Department: Continuing Education			
Program: General			

Purpose

To provide a standardized process to present AHI CE via WebEx.

Scope

This procedure is applicable to AHI CE. All individuals who will be scheduling, presenting, and editing for live and self-study AHI CE should reference it.

Definitions

ACPE – Accreditation Council for Pharmacy Education

AHI – Accredo Health, Inc.

CE – Continuing Education

CEA – Continuing Education Administrator

CES – Continuing Education Specialist

CPE – Continuing Pharmacy Education

RN – Registered nurse

RPh – Registered Pharmacist

PharmD – Doctor of Pharmacy

Procedure

It is your responsibility to ensure that you understand this procedure before performing the following tasks. Contact the document author if you have any questions about this procedure.

All CPE credit must be reported in CPE Monitor continuing pharmacy education tracking service within 60 days of the presentation date.

1.1 Presenter instruction

Step	Action
1.	Presenter, topic and presentation date determined by CE Series committee.
2.	Continuing education specialist determines if presenter is approved to present topic. If not, CES initiates presenter approval – see SOP 2 [43a]
3.	CEA provides presenter with instructions, templates and examples: [SOP 1] [43b] <ul style="list-style-type: none"> • Faculty Guidance checklist link (found in Survey Monkey) • Current PPT template including the CE disclosure slides, instructions for each discipline, objective slide, knowledge check slide pair, and reference slides. • Needs assessment template • Objectives • Bibliography • Minimum 10 question pre- / posttest answer key with rationale (multiple choice, matching, and true / false)

	<ul style="list-style-type: none"> • 3-5 knowledge checks with correct answer marked
4.	CEA and presenter review CE Series Document checklist and determine due dates. Dates added to form and the CEA and the presenter keep a copy. [CE Series Doc Checklist] [43c]

1.2 CEA Document Development, review, and approval

Step	Action
1	CEA develops the following documents per SOP #1: [43d] <ul style="list-style-type: none"> • Registration instruction announcement
2	CEA develops the following using presenter-developed content: <ul style="list-style-type: none"> • Summary of planning • Education document / Documentation format • Bibliography • Save the Date announcement • CE Program Description Brochure • CE Program Pretest and Registration • Pretest / registration, posttest / evaluation / participant information / 2nd attempt posttest (in Survey Monkey) • Pretest / posttest • Pretest / posttest answer key with rationale • Knowledge checks • Attendance rosters (RPh and RN)
3	ACPE UAN and activity type created per SOP 11 [43e]
4	Course and presentation date entered in ACPE Provider Web tool; course information submitted to ACPE, per SOP 12 [43f]
5	Review and approval performed per SOP 1. [43g]

1.3 WebEx Schedule Training Session (See WebEx Teaching Tool) [43h]

Step	Action												
1	Select "Training Center." Enter information requested

1.7 Creating Pretest / Registration, Posttest / Evaluation / Participant Information, and 2nd Attempt Posttest

Step	Action
1.	Access "CE Series: Pretest, WebEx presentation, posttest, and evaluation" in Survey Monkey
2.	Select "Design Survey"
3.	Under "1. Choose course" select "edit." Add course ID and course title. Select "Save."
4.	Scroll to the last pretest before the one being added. Under "More actions" select "Copy Page." Edit to appropriate test questions, including "I don't know."
5.	Under Options, select "Require an Answer to this question."
6.	After final question, add "What is your discipline?" Add RPh, RN, Other with text box.
7.	<p>List presentation title Presentation WebEx recording: Select link below to view presentation (left click actual link)> Note: It may take a few moments to open. Add link below. (Link is from WebEx)</p> <p>15. Rare Diseases and Orphan Drugs Presentation WebEx recording: Select link below to view presentation (left click actual link). Note: It may take a few moments to open.</p> <p>https://urdefense.proofpoint.com/v2/url?u=https-3A__expressscripts.webex.com_expressscripts_lsr.php-3FRCID-3D9d2040c111cbe56db7db3bcac1795b0d&d=BQMGaQ&c=TRM22a2q2ENZDxdZ_Nz-0IFGs_bogxlwig_LbUWFZX0&r=Ln0B8Nw_Lf7z7VQ9Q0s1DYDqRl7nyJL08XB5b9w6UI&m=mTY1_HHJmeCF86qag58IOI_vo1j0E22Iqz5ISrlwv&s=Yq0bsOrUrPIT1AqbRJMk4k5N2G9SDWSX3QUgyIXIMl&e=</p>
8	Copy pretest page. Edit name to "Posttest and evaluation." Remove option "I don't know."
9	Copy evaluation questions from another course. Revise objectives.

	<p>29. Please rate your level of expertise for each objective before and after the education, and what is required for your position</p> <table border="1"> <thead> <tr> <th></th> <th>Before Education</th> <th>After Education</th> <th>Needed for position</th> </tr> </thead> <tbody> <tr> <td>Define the term "orphan drug", as well as discuss provisions and impact of Orphan Drug Act of 1983</td> <td><input type="text"/></td> <td><input type="text"/></td> <td><input type="text"/></td> </tr> <tr> <td>Recognize characteristics of Urea Cycle Disorders, Nephropathic Cystinosis, and Phenylketonuria: prevalence, etiology, clinical signs and symptoms, and burden of disease</td> <td><input type="text"/></td> <td><input type="text"/></td> <td><input type="text"/></td> </tr> <tr> <td>Identify available treatments for the above diseases, including orphan drugs, their indications and side effects</td> <td><input type="text"/></td> <td><input type="text"/></td> <td><input type="text"/></td> </tr> <tr> <td>Demonstrate awareness of resources for patients with rare diseases</td> <td><input type="text"/></td> <td><input type="text"/></td> <td><input type="text"/></td> </tr> </tbody> </table> <p>Explain how education could be improved to better meet any objective(s) not met.</p> <div style="border: 1px solid black; height: 30px; width: 100%;"></div> <p>30. CONTINUING EDUCATION COURSE OFFERING
ACCREDITO HEALTH, INCORPORATED

CE Series Recorded Presentations

The CE Series WebEx recordings are available in LMS and in Survey Monkey

If you were not able to attend the live presentation, the recorded presentations are now available for continuing education credit

The following courses are available in LMS (in HR Expressway):

- CE Series – (269) Hereditary Angioedema Self Study
- CE Series – (260) HIV in the United States: An updated perspective Self Study
- CE Series – (265) Growth Hormone Deficiency (GHD) Self Study
- CE Series – (278) Specialty Pharmaceuticals in Development Self Study

*Enter "CE Series" into Search to locate all courses. Follow instructions given in LMS.

The following courses are available in Survey Monkey

- (284) Rare Diseases & Orphan Drugs Self Study
- (288) Immunotherapy for the oncology patient Self Study
- (291) Primary immune deficiency, Intravenous Immune Globulin, and Subcutaneous Immune Globulin Self Study
- (292) Disease Modifying Treatment Options in Multiple Sclerosis Self Study
- (298) Immunosuppressive Therapy in Solid Organ Transplant Self-study

*Select: <https://www.surveymonkey.com/r/CESeriesSelfStudy>

1. Select the presentation
2. Complete the pretest, view the recording, complete the post-test, evaluation, and participant information.

Upon completion of all requirements in LMS or Survey Monkey, nurses will receive a continuing education certificate by mail within 3 weeks. Pharmacist continuing education credit will be reported to CPE Monitor within 60 days of the presentation date. A statement of credit will be issued upon request.

For questions or assistance, contact:

- Erica Harris at Erica.harris@accredtohealth.com or (877)239-7156 extension 254420, or
- Laura Turner at laura.turner@accredtohealth.com or (877)2397156 extension 254419

Add answer key answers and minimum passing score to "Master Self-study scores" Excel spreadsheet located CE/CE Series Survey Monkey/ Participant Reports/ Master self -study scores [43i]

16

17

PDF the answer key and add it to CE/CE Series Survey Monkey/ Participant Reports/ answer keys

18

After participant completes self-study, CES scores pre- and posttest, and records scores on Master Self-study Scores spreadsheet CE/CE Series Survey Monkey/ Participant Reports/ participant results. CE credit given if participant passed posttest

CONTINUING EDUCATION COURSE OFFERING

ACCREDITED HEALTH, INCORPORATED

Title: (443) Myasthenia Gravis (MG)

ACPE 1.25 RPh contact hours
UAN: 0386-0000-22-011-L01-P

KSBN 1.5 RN contact hours
Release date: 9/22/2022

CCMC 1.25 CM contact hours
Planned expiration date: 9/22/2025

Activity length: 75 minutes
CE Approved: 9/12/2022

Learning objectives

- Review Myasthenia Gravis (MG) symptoms, clinical presentation and pathophysiology
- Review MG diagnostic process
- Discuss MG interventions: pharmacotherapy, non-drug and surgical

Agenda

- Myasthenia Gravis Overview
- Treatment and Management
- Pharmacotherapy Intervention
- Non-drug Intervention
- Surgical Intervention
- Barriers to Care
- Patient and Caregiver Experience
- Questions
- Posttest
- Evaluation

Major Activity Objective

The program will provide the attendees with an overview of myasthenia gravis, its complications, and therapy strategies. Discussion includes the variables influencing results, the treatment, and management of side effects appropriately.

Needs assessment:

Gaps between Current and Desired State:

- Attendees may not be familiar with the details and types of MG, the recommended treatment, or its complex clinical management. This provides the most recent guidelines for treating MG, a comprehensive overview of drug therapy, and discusses the different treatment options available specific to the various types of MG.

Benefit of Desired State:

- Attendees will be more conversant in identification, classification and clinical course of MG and the appropriate management of this disorder. They will be able to incorporate the information learned into external conversations as well as our own product and materials development.

Intended outcome

Clinicians who attend this presentation and successfully complete requirements will be more conversant in myasthenia gravis, currently available agents, indication, drug profile elements, clinical efficacy and current guidelines.

Activity overview:

This live activity consists of a 75-minute presentation.

Target Audience:

This continuing professional education learning activity is designed for pharmacists and nurses who may encounter patients diagnosed with myasthenia gravis; clinicians who counsel patients on their drug therapy, answer questions, or make pharmacotherapy recommendations on behalf of these patients to treating physicians.

Continuing Education Information and Requirements per discipline:

This continuing education activity is approved for pharmacists and nurses.

- Nurses must complete a pretest, pass a posttest, complete an evaluation and attendance roster, including their license number(s) and signature, to receive course credit.
- Pharmacists must complete a pretest, pass a posttest, complete an evaluation and attendance roster, including their NABP e-profile ID and date of birth (MMDD), to receive course credit.

Continuing Education Information:

The continuing education activity number, requirement, and credit for this knowledge-based activity is included with the continuing education activity description.

Registered Pharmacists (RPh)

Accredo Health, Incorporated is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. UAN: 0386-0000-22-5L01-P. Release date: 9/22/2022

Activity type: Knowledge Contact hours: 1.25

CONTINUING EDUCATION COURSE OFFERING

ACCREDITED HEALTH, INCORPORATED

Advance Practice Registered Nurses (APRNs), Registered Nurses (RNs), & Licensed Practical Nurses (LPNs)

Accredo Health, Incorporated is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for 1.5 contact hours applicable for APRN, RN, or LPN relicensure. Kansas State Board of Nursing provider number LT0223-0538.

Assessment Method:

Participants must complete the posttest. The participant must pass the posttest with a score of 70% or greater. He/she may attempt the test a 2nd time to receive course credit. Participants will be given a copy of the answer key for future reference.

Faculty

- Developer(s)
 - Jennifer Johnson, RN, BSN, CRNI, Senior Clinical Program Advisor
- Continuing Education Reviewers
 - Laura Turner, RN, Continuing Education Administrator
 - Adam Portik, PharmD, Senior Clinical Advisor
 - Maureen McCullough, MSN, RN, CRNI, Director of Clinical Resources, Nursing / Continuing Education Program Coordinator

Disclosure Declaration

Accredo Health Group, Incorporated, and its subsidiaries dispense medications and provide services discussed in this presentation. Every effort has been made to include all approved treatment options currently used for the treatment of this disease state; to present each therapy equally, objectively, and without bias; and to avoid promotion of one therapy over another.

No commercial support was received for this activity. No compensation was received for planning, development, approval, or presentation of this activity.

All persons considered to plan, develop, or review/approve content of an education activity must disclose all relevant financial relationships (RFRs) with any ineligible company(ies).^{*} If any RFRs were disclosed, steps will be taken to mitigate the relationship. Disclosure and mitigation will be kept on file, and will be disclosed to the participants.

^{*}Ineligible company: One whose primary business is producing, marketing, selling, re-selling or distributing healthcare products used by or on patients.

There is no commercial support for this course offering.

Accredo Health, Incorporated develops continuing education presentations for pharmacists, nurses, and case managers that provide an in-depth presentation with fair, full disclosure, and equitable balance. Topics and learning objectives will not be promotional or appear to be intended for the purpose of endorsing a specific commercial drug or a specific commercial service. All educational programs and associated materials will be free from promotional influence and/or content. Written agreements will be used in the event of external support. Any relevant relationship between funding organization(s) and program faculty will be disclosed. Accredo will avoid promotional activities or materials as an integral part of the program or program materials, or in any manner that interferes with or interrupts the educational activity. Disclosure will be made of limitations on information including but not limited to:

- Data that represents ongoing research
- Interim analysis
- Preliminary data
- Unsupported opinion
- Opinions or approaches to care that, while supported by some research studies, do not represent the only opinion or approach to care supported by research.
- Off label use

Relevant financial disclosure

No persons in control of content had relevant financial relationships.

Participant information

Participant names and contact information are retained by the continuing education department and only shared with appropriate accreditation boards for the purpose of providing continuing education credit.

There is no fee for this activity

Registration process:

Registration instructions including a link to Survey Monkey are sent via email to participant distribution list. Participants complete a pretest and provide identification (name, email). Registrants are sent access information to WebEx for the presentation day, along with the presentation handout.

Statements of Credit:

Continuing education credit for pharmacists is submitted to CPE Monitor within 60 days of presentation date.

CE Certificate / Verification of Completion

Nurses will receive a CE certificate by mail within 3 weeks.

Continuing Education Development Tools

Session Planning Worksheet: Practice Gaps and Learning Needs

(443) Myasthenia Gravis

Use this template to reflect on practice gaps and learning needs for your educational activity.

1. Identify recent work-related situation(s) that you think require additional knowledge/skills to better manage similar situations in the future.

Why this topic? Why our pharmacists and nurses?

The Myasthenia Gravis Foundation of America publishes evidence-based guidelines on the treatment and management of Myasthenia Gravis (MG). There are additional guidelines by the American Academy of Neurology (AAN) regarding use of thymectomy in MG patients. Many health care providers may not be aware there are now several therapies with FDA indication for generalized MG (gMG) with anti-acetylcholine receptor (AChR) antibodies, or be aware that many formally recommended therapies for MG are off-label. The guidelines summarize the evidence and makes recommendations regarding treating patients with Myasthenia Gravis using FDA approved, off-label, non-pharmacotherapeutic and surgical interventions.

2. List areas of improvement that your department, organization, health-system, and/or community have identified that you think require additional knowledge/skills to optimize the delivery of care and patient health.

A comprehensive management strategy that incorporates the patient, payer, and healthcare provider can result in better outcomes and help prevent complications.

3. Identify recent research, expert opinion, national guidelines, regulations, or other data that may require additional knowledge/skills to better manage the work-related situations or improvement areas listed above in 1 and 2. (Use Needs Assessment Justification template)

This program will provide information about MG and how we can best manage symptoms, level of disability and disease. References include Myasthenia Gravis Foundation of America (MGFA), AAN, additional literature, and additional peer-reviewed scientific journal articles. These are the evidence based treatment recommendations neurologists follow to make treatment decision for their patients.

4. List any specific gaps in knowledge/ skills based upon your reflections (above, 1-3) and the anticipated benefit from addressing them.

Gaps between Current and Desired State

The attendees may not be familiar with the details and types of MG, the recommended treatment, or its complex clinical management. This provides the most recent guidelines for treating MG, a comprehensive overview of drug therapy, and discusses the different treatment options available specific to the various types of MG.

Benefit of Desired State

Attendees will be more conversant in identification, classification and clinical course of MG and the appropriate management of this disorder. They will be able to incorporate the information learned into external conversations as well as our own product and materials development.

CONTINUING EDUCATION COURSE OFFERING
ACCREDITED HEALTH, INCORPORATED

Continuing Education Development Tools

5. *Describe the target audience that will benefit from the education activity.*

Healthcare providers who interact, or may interact with clients with MG.

6. *Summarize how the education activity will fill the above gaps listed in 4.*

The program will provide the attendees with an overview of neuromuscular disorders, its complications, and therapy strategies. Discussion includes the variables influencing results, the treatment, and appropriate management of side effects.

Needs Assessment Justification Template

Basis of Need	Name of expert, guideline, research, survey, etc.	What the expert / guideline / research says that supports the need (include approximate date) *use additional space if needed
Expert Opinion	Referenced in guidelines	
National Guidelines	Myasthenia Gravis Foundation of America. Narayanaswami P, Sanders D, Wolfe G, et al. International Consensus Guidance for Management of Myasthenia Gravis. 2020 Update. Neurology Jan 2021, 96 (3) 114-122; https://n.neurology.org/content/96/3/114 .	Guidelines regarding appropriate use of recommended therapies for the different types/severity levels of MG including pharmacotherapy, non-pharmacotherapy intervention and surgical intervention (thymectomy).
	Sussman J, Farrugia ME, Maddison P, Hill M, Leite MI, Hilton-Jones D. The Association of British Neurologists' myasthenia gravis guidelines. Ann N Y Acad Sci. 2018 Jan;1412(1):166-169. doi: 10.1111/nyas.13503. https://pn.bmj.com/content/practneurol/15/3/199.full.pdf .	British guidelines included as they add some detail not seen in the American guidelines.
	American Academy of Neurology. Gronseth GS, Barohn R, Narayanaswami P. Practice advisory: Thymectomy for myasthenia gravis (practice parameter update): Report of the Guideline Development, Dissemination, and Implementation Subcommittee of the American	Recommendations regarding appropriate therapeutic thymectomy with/without thymoma.

Title: (443) Myasthenia Gravis (MG) (CE Series)			
CRP approved: N/A		Activity Type: Knowledge	CE approved: 09/12/2022
Presentation time is 1 hour 15 minutes			
Contact hours: ACPE: 1.25 RPh		KSBN: 1.5 RN	CCMC: N/A
ACPE UAN 0386-0000-22-015-L01-P		Release date: 09/22/2022	Planned Exp date: 09/22/2025
Presenter: Only a properly licensed Express Scripts clinician may provide Program content to non-Express Scripts Healthcare Professionals. For sake of clarity, sales or marketing personnel, including clinicians who report through a sales or marketing organization, may not determine, write, fund, or deliver program content. Experienced RN or RPh presenter meeting company presenter policy. RN or RPH with 2 years experience with bleeding disorders.			
Faculty	Discipline	Title	Disclosure signature date
Adam Portik	PharmD	Senior Clinical Advisor	12/20/2021
Jennifer Johnson	RN, BSN, CRNI	Senior Clinical Program Advisor	12/21/2021
Laura Turner	BS, RN	Continuing Education Administrator	12/27/2021
Adam Portik	PharmD	Senior Clinical Advisor	12/20/2021
Maureen McCullough	MSN, RN, CRNI	Director of Clinical Resources, Nursing / Continuing Education Program Coordinator	1/3/2022
Erica Harris	Non-clinical	Continuing Education Specialist	11/18/2021

Content (Topics)

Objectives:

- Review Myasthenia Gravis (MG) symptoms, clinical presentation and pathophysiology
- Review MG diagnostic process
- Discuss MG interventions: pharmacotherapy, non-drug and surgical

Agenda

- Myasthenia Gravis Overview
- Treatment and Management
- Pharmacotherapy Intervention
- Non-drug Intervention
- Surgical Intervention
- Barriers to Care
- Patient and Caregiver Experience
- Questions
- Posttest
- Evaluation

Knowledge Checks

Knowledge Check #1

Myasthenic crisis is a serious, life-threatening, rapid worsening of MG and potential airway compromise from ventilatory or bulbar dysfunction.

True or False?

- A. True**
- B. False

Rationale: A. True. It is defined as “Worsening of myasthenic weakness requiring intubation or noninvasive ventilation to avoid intubation, except when these measures are employed during routine postoperative management.”

Knowledge Check #2

Most people with Myasthenia Gravis (MG) have which type of antibodies present at the neuromuscular junction?

40% correction daily for 2 days, then 20% correct daily for 5 days

- A. Anti-MuSK antibodies
- B. FcRn antibodies
- C. Anti-Lrp-4 antibodies
- D. Anti-AChR antibodies**

Rationale: D. Anti-AchR antibodies. These antibodies are identifiable in ~85% of gMG patients.

Knowledge Check #3

Which of the following pharmacotherapies does not have an FDA indication (approval) for MG?

- A. Ultomiris® (ravulizumab)
- B. Rituxan® (rituximab)**
- C. Mestinon® (pyridostigmine)
- D. Vyvgart® (efgartigimod)

Rationale: B. Soliris, Ultomiris, Vyvgart and Pyridostigmine have an FDA indication for MG. Corticosteroids, immunosuppressants, Rituxan and immunoglobulin do not have an FDA indication for MG, although they are recommended for use and included in management guidelines.

PROFESSIONAL EXPERIENCE

Accredo, Inc. Virtual

March 2022 to Current

Senior Clinical Advisor, Specialty Clinical programs for the Advanced Pulmonary Conditions
Therapeutic Resource Center and Immune and Complex Conditions Therapeutic Resource Center

- Pharmacotherapy subject matter expert for specialty medications assigned to the Advanced Pulmonary Conditions (APC) TRC
 - Infused, Inhaled, and Oral Prostacyclins
 - Endothelin Receptor Antagonists
 - Phosphodiesterase type 5 inhibitors and sGC stimulators
 - IPF pharmacotherapy
- Pharmacotherapy subject matter expert for specialty medications assigned to the Immune and Complex Conditions (ICC) TRC
 - Infused Immune Globulin (intravenous and subcutaneous)

- Infused Alpha-1 Antitrypsin therapies
- Infused and oral Lysosomal Storage Disorder therapies
- Infused Myasthenia Gravis therapies
- Duopa for Parkinson's Disease
- Complete clinical education training on APC and ICC TRC medications and disease states across multiple clinical and non-clinical groups to ensure understanding of new drug launches and new therapy indications
- Meet with Pharma and Payer groups to provide clinical expertise on products supported with the Advanced Pulmonary Conditions TRC as well as introduce the companies' clinical value props
- Report to Therapeutic Assessment Committee annually and ad hoc to provide detail around clinical program updates, new therapeutic options, and different programs the Advanced Pulmonary Conditions and Immune and Complex TRCs offer
- Construct and approve continuing education courses for our operational clinical pharmacists in the APC TRC and ICC TRC
- Attend Quarterly Business Review meetings with external pharma clients with the goal of collaborating on programs that best serve the PAH patient population and various other disease states covered under the APC TRC and ICC TRC.

Accredo, Inc. Virtual

2020 to March 2022

Senior Clinical Advisor, Specialty Clinical programs for Pulmonary Arterial Hypertension and Idiopathic Pulmonary Fibrosis

- Pharmacotherapy subject matter expert for specialty medications assigned to the Advanced Pulmonary Conditions (APC) TRC
 - Infused, Inhaled, and Oral Prostacyclins
 - Endothelin Receptor Antagonists
 - Phosphodiesterase type 5 inhibitors and sGC stimulators
 - IPF pharmacotherapy
- Complete clinical education training on PAH and ILD across multiple clinical and non-clinical groups to ensure understanding of new drug launches and new therapy indications
- Meet with Pharma and Payer groups to provide clinical expertise on products supported with the Advanced Pulmonary Conditions TRC as well as introduce the companies' clinical value props
- Report to Therapeutic Assessment Committee annually and ad hoc to provide detail around clinical program updates, new therapeutic options, and different programs the Advanced Pulmonary Conditions TRC offers
- Construct and approve continuing education courses for our operational clinical pharmacists in the APC TRC
- Attend Quarterly Business Review meetings with external pharma clients with the goal of collaborating on programs that best serve the PAH patient population

Accredo, Inc., Virtual

2019 to 2020

Senior Clinical Advisor, Clinical Product Reporting

- Provided analysis for all Therapeutic Resource Centers at Accredo

- Ensured clinical education across all TRCs was tracked with emphasis of meeting internal clinical education goals
- Analyzed quarterly Cigna Board of Director metrics for Clinical Engagement across all Accredo TRCs
- Conducted quarterly and ad hoc Blood Disorder audits for over 60 payer groups to ensure company goals met in relation to precision dispensing and treatment summary reports
- Collaborated with 3rd party analytics company to provide in-depth clinical data in Hemophilia, Multiple Sclerosis, Pulmonary Hypertension, and Immune deficiencies areas

Accredo, Inc., Warrendale, PA

2015 to 2019

Pulmonary Arterial Hypertension – Operations Supervisor

- Management of 16 regional pharmacists across the United States
- Focused on process improvement initiatives to streamline solutions for physicians, payers, pharma, and patients.
- Met virtually and in-person with prescribers across the country to collaborate on best practices to ensure optimal patient benefit
- Involved in over 5 Kaizen events with multi-functional teams and work streams to evolve current practice internally into future state solutions

Accredo, Inc., Warrendale, PA

2011 to 2015

Clinical Pharmacist – Pulmonary Arterial Hypertension TRC

- Perform initial clinical assessment and reassessments of patients receiving specialty medications for the management of Pulmonary Arterial Hypertension
 - Drug utilization review
 - Pharmacy care planning
- Dispensing specialty pharmaceuticals for Pulmonary Arterial Hypertension across all 50 states
- Collaborated with key opinion leaders and prescribers across the country for onboarding of patients taking any PAH medication

Qualifications:

- Registered Nurse with 21 yrs. clinical experience; 14 yrs. specialty infusion experience
- Strong leadership ability and interpersonal skills
- Passion and drive to meet challenges for numerous stakeholders
- Completely autonomous and equally adept in groups
- Experience presenting/developing/ implementing education for health care providers, patients and community members
- Positive and creative problem resolution
- Experienced partner and resource for referral sources, patients and sales team

Education: Bachelor of Science in Nursing, 2001
MidAmerica Nazarene University, Olathe, Kansas

Experience:

Accredo August 2008-Present
Current position-Sr. Advisor, Pharmacy Clinical Consulting-Clinical educator
Previous position-Nurse Manager for 16 Registered Nurses

- Presentations/Training/Educational support for clinicians and community members- Pulmonary Hypertension, Bleeding Disorders, Primary Immune Deficiency, Neuromuscular diseases, Hereditary Angioedema and other chronic diagnoses. Assist with staff competency, ongoing basis.
- Clinical Sales Support-Visit physicians in conjunction with Account Executives (AE) as clinical resource.
- Contact with referral sources as need in coordination of clinical training.
- Attendance at national conferences related to stay abreast of new research or consensus regarding disease states covered.
- Clinical resource for AEs, PH centers.
- Analyze and identify needs of advanced therapy therapeutic resource centers (TRC) for annual pharmacist education to meet URAC guidelines in collaboration with clinical product pharmacists.

Craig Homecare September 2006-August, 2012
Private Duty Pediatric Nursing

- Total care and management of complex pediatric patients requiring technology to sustain life.
- Central catheter care, infusion therapy, enteral and wound management

Kid-Screen, LLC March 2004-September, 2007
Contract Case Manager for Kansas Medicaid

- Medical Case Management for technology dependent and medically fragile children up to age 21yrs.

- Collaboration with all professionals for each child's health care team
- Coordination of cost effective approach to meeting needs of the client.
- Implementation of state and federal mandated regulations in conjunction with each child's care.

Johnson County Govt. September 2001-March, 2004

- Coordination of Pediatric well child clinics for visiting physicians
- Autonomous completion of well child exams/STD testing for adolescent clients
- Clinician-OB/well woman clinics
- Clinician-WIC clinic
- Clinician-STD/birth control clinic.

Licensure/Certification:

Explain how education could be improved to better meet any objective(s) not met: _____

Identify anything not covered in the presentation you need to care for your patients: _____

CONTINUING EDUCATION COURSE OFFERING

A C C R E D O H E A L T H , I N C O R P O R A T E D					
Please evaluate	Strongly Agree	Agree	Disagree	Strongly Disagree	N/A
The presenter was knowledgeable and effective					
The presenter was responsive to participant questions					
The education material was useful					
The teaching and learning methods were effective					
The activity was presented objectively and was free from commercial bias					
The education contained opportunities for active learning					
The posttest accurately measured what I learned from the information presented					
The content learned from this activity will impact my practice					
The activity promotes improvement in healthcare					
I would recommend this activity to others					

Please elaborate if bias perceived: _____

This activity will assist in the improvement of my: (Check all that apply)

- ☐ Competence
- ☐ Performance
- ☐ Patient outcomes

I plan to make the following changes to my practice; (Check all that apply)

- ☐ Modify treatment plans
- ☐ Incorporate different diagnostic strategies into patient evaluation
- ☐ Use alternative communication methodologies with patients and families
- ☐ None; the activity validated current practice

Other (please specify): _____

CONTINUING EDUCATION COURSE OFFERING

ACCREDITED HEALTH, INCORPORATED
What is your level of commitment to making changes stated above?

- ☐ Very committed
- ☐ Somewhat committed
- ☐ Not very committed
- ☐ Do not expect to change practice

What are the barriers you face in your current practice setting that may impact patient outcomes? (Check all that apply)

- ☐ Lack of evidenced-based guidelines
- ☐ Lack of applicability of guidelines to my current practice/patients
- ☐ Lack of time
- ☐ Organizational/Institutional
- ☐ Insurance/Financial
- ☐ Patient adherence/compliance
- ☐ Treatment-related adverse events

Other (please specify): _____

What did you like most about the presentation? _____

What did you like least about the presentation? _____

**Title: (448) Age-related Macular Degeneration and Diabetic Macular Edema
Overview and Treatment**

ACPE 1.0 RPh contact hours
UAN: 0386-0000-22-019-L01-P

KSBN 1.2 RN contact hours
Release date: 12/6/2022

CCMC N/A
Planned expiration date: 9/12/2025

Activity length: 60 minutes
CE Approved: 9/12/2022

Learning objectives

1. Recall characteristics of age-related macular degeneration (AMD) and diabetic macular edema (DME): prevalence, etiology, genetics, detection, clinical manifestations, and assessment
2. Discuss guideline recommendations for treatment standards
3. Identify specialty medications used to treat AMD and DME including: risks and benefits of these therapies, patient selection, adverse effects and appropriate monitoring
4. Debate financial considerations and effect on treatment options
5. Recall the AMD and DME medication pipeline

Agenda

- Age-related Macular Degeneration (AMD) Overview
- Diabetic Macular Edema (DME) Overview
- Therapeutic Treatment Options
- Treatment Pipeline
- References
- Product References (Accessed October 26, 2022)
- Questions
- Posttest
- Evaluation

Major Activity Objective

The program will provide review of AMD/DME disease states, currently available agents, indication, drug profile elements, clinical efficacy and current guidelines as well as upcoming potential pipeline agents.

Needs assessment:

Gaps between Current and Desired State:

- New therapies with new, unfamiliar mechanisms of action.
- Increasing numbers of available agents for the treatment of AMD/DME leading to confusion on the best initial treatment option
- Updated guidelines for treatment of AMD/DME patients

Benefit of Desired State:

- Become familiar with newly approved agents.
- Gain understanding of currently available agents and their optimal utilization.
- Understand how pipeline product approvals could change the treatment landscape
- Become familiar with various practice guidelines

Intended outcome

Pharmacists and nurses who do or may encounter this patient population will gain up-to-date knowledge on disease basics, currently available agents, their appropriate use, anticipated efficacy and known safety concerns.

Activity overview:

This live activity consists of a 60-minute presentation.

Target Audience:

This continuing professional education learning activity is designed for pharmacists and nurses who may encounter patients diagnosed with AMD and DME; clinicians who counsel patients on their drug therapy, answer questions, or make pharmacotherapy recommendations on behalf of these patients to treating physicians.

Continuing Education Information and Requirements per discipline:

This continuing education activity is approved for pharmacists and nurses.

- Nurses must complete a pretest, pass a posttest, complete an evaluation and attendance roster, including their license number(s) and signature, to receive course credit.
- Pharmacists must complete a pretest, pass a posttest, complete an evaluation and attendance roster, including their NABP e-profile ID and date of birth (MMDD), to receive course credit.

Continuing Education Information:

The continuing education activity number, requirement, and credit for this application-based activity is included with the continuing education activity description.

CONTINUING EDUCATION COURSE OFFERING

ACCREDITED HEALTH, INCORPORATED

Registered Pharmacists (RPh)

Accredo Health, Incorporated is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. UAN: 0386-0000-22-019-L01-P. Release date: 12/6/2022

Activity type: Knowledge Contact hours: 1.0

Advance Practice Registered Nurses (APRNs), Registered Nurses (RNs), & Licensed Practical Nurses (LPNs)

Accredo Health, Incorporated is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for 1.0 contact hours applicable for APRN, RN, or LPN relicensure. Kansas State Board of Nursing provider number LT0223-0538.

Assessment Method:

Participants will complete the posttest. The participant must pass the posttest with a score of 70% or greater. He/she may attempt the test a 2nd time to receive course credit. Participants will be given a copy of the answer key for future reference.

Faculty

- Developer(s) / Presenter
 - Eric Fairbrother, PharmD, Sr. Clinical Advisor, Specialty Clinical Programs (Developer / Presenter)
 - Barbara Hockaday, RN, Clinical Specialist (Developer)
 -
- Continuing Education Reviewers
 - Laura Turner, RN, Continuing Education Administrator
 - Gail Bridges, PharmD, Director, Specialty Clinical Product
 - Maureen McCullough, MSN, RN, CRNI, Director of Clinical Resources, Nursing / Continuing Education Program Coordinator

Disclosure Declaration

Accredo Health Group, Incorporated, and its subsidiaries dispense medications and provide services discussed in this presentation. Every effort has been made to include all approved treatment options currently used for the treatment of this disease state; to present each therapy equally, objectively, and without bias; and to avoid promotion of one therapy over another.

No commercial support was received for this activity. No compensation was received for planning, development, approval, or presentation of this activity.

All persons considered to plan, develop, or review/approve content of an education activity must disclose all relevant financial relationships (RFRs) with any ineligible company(ies).^{*} If any RFRs were disclosed, steps will be taken to mitigate the relationship. Disclosure and mitigation will be kept on file, and will be disclosed to the participants.

^{*}Ineligible company: One whose primary business is producing, marketing, selling, re-selling or distributing healthcare products used by or on patients.

There is no commercial support for this course offering.

Accredo Health, Incorporated develops continuing education presentations for pharmacists, nurses, and case managers that provide an in-depth presentation with fair, full disclosure, and equitable balance. Topics and learning objectives will not be promotional or appear to be intended for the purpose of endorsing a specific commercial drug or a specific commercial service. All educational programs and associated materials will be free from promotional influence and/or content. Written agreements will be used in the event of external support. Any relevant relationship between funding organization(s) and program faculty will be disclosed. Accredo will avoid promotional activities or materials as an integral part of the program or program materials, or in any manner that interferes with or interrupts the educational activity. Disclosure will be made of limitations on information including but not limited to:

- Data that represent ongoing research
- Interim analysis
- Preliminary data
- Unsupported opinion
- Opinions or approaches to care that, while supported by some research studies, do not represent the only opinion or approach to care supported by research.
- Off label use

Relevant financial disclosure

No persons in control of content had relevant financial relationships.

Participant information

Participant names and contact information are retained by the continuing education department and only shared with appropriate accreditation boards for the purpose of providing continuing education credit.

There is no fee for this activity

CONTINUING EDUCATION COURSE OFFERING

A C C R E D O H E A L T H , I N C O R P O R A T E D

Registration process:

Registration instructions including a link to Survey Monkey are sent via email to participant distribution list. Participants complete a pretest and provide identification (name, email). Registrants are sent access information to WebEx for the presentation day, along with the presentation handout.

Statements of Credit:

Continuing education credit for pharmacists is submitted to CPE Monitor within 60 days of presentation date.

CE Certificate / Verification of Completion

Nurses will receive a CE certificate by mail within 3 weeks. Other participants will be receive a certificate of participation by mail within 3 weeks.

(448) Age-related Macular Degeneration and Diabetic Macular Edema:
Overview and Treatment Options 2022

SUMMARY OF PLANNING

Needs assessment

<p>1. Identify recent work-related situation(s) that you think require additional knowledge/skills to better manage similar situations in the future.</p>	
<p><i>Age-related macular degeneration and diabetic macular edema are two of the lesser known disease states treated within specialty pharmacy. New therapy approvals and labeling updates have occurred within the space in the past few years. A richer variety in therapeutic options has created a question of therapy choice. Understanding appropriate therapy selection and the risks and benefits of these options is crucial to an informed understanding of the AMD/DME treatment landscape.</i></p>	
<p>2. List areas of improvement that your department, organization, health-system, and/or community have identified that you think require additional knowledge/skills to optimize the delivery of care and patient health.</p>	
<p>Overall disease knowledge and treatment considerations for AMD and DME and understanding the risks and benefits of each treatment option.</p>	
<p>3. Identify recent research, expert opinion, national guidelines, regulations, or other data that may require additional knowledge/skills to better manage the work-related situations or improvement areas listed above in 1 and 2. (Use Needs Assessment Justification template)</p>	
<p><i>American Society of Retinal Specialist / American Academy of Ophthalmology / International Diabetes Federation/British Journal of Ophthalmology published guidelines. Study results from Age-related Eye Disease Study(AREDS) / AREDS2</i></p>	
<p>4. List any specific gaps in knowledge/ skills based upon your reflections (above, 1-3) and the anticipated benefit from addressing them.</p>	
<p><u>Gaps between Current and Desired State</u></p> <ul style="list-style-type: none"> <i>New therapies with new, unfamiliar mechanisms of action.</i> <i>Increasing numbers of available agents for the treatment of AMD/DME leading to confusion on the best initial treatment option</i> <i>Updated guidelines for treatment of AMD/DME patients</i> 	<p><u>Benefit of Desired State</u></p> <ul style="list-style-type: none"> <i>Become familiar with newly approved agents.</i> <i>Gain understanding of currently available agents and their optimal utilization.</i> <i>Understand how pipeline product approvals could change the treatment landscape</i> <i>Become familiar with various practice guidelines</i>
<p>5. Describe the target audience that will benefit from the education activity.</p>	
<p><i>Pharmacists and nurses who do or may encounter this patient population will gain up- to -date knowledge on disease basics, currently available agents, their appropriate use, anticipated efficacy and known safety concerns.</i></p>	
<p>6. Summarize how the education activity will fill the above gaps listed in 4.</p>	
<p><i>Will provide review of AMD/DME disease states, currently available agents, indication, drug profile elements, clinical efficacy and current guidelines as well as upcoming potential pipeline agents.</i></p>

Target audience

This continuing professional education activity is designed for pharmacists, nurses, and case managers who may encounter patients diagnosed with MS; clinicians who counsel patients on their drug therapy, answer questions, or make pharmacotherapy recommendations on behalf of these patients to treating physicians.

Summary of Planning

Gaps between Current and Desired State: Attendees are not familiar with new therapies with new, unfamiliar mechanisms of action. There are increasing numbers of available agents for MS treatment leading to confusion and complexity in regimen selection.

Benefit of Desired State: Attendees will become familiar with newly approved agents. They will gain understanding of currently available agents and their optimal utilization.

Intended outcome

Pharmacists and nurses will gain up- to -date knowledge on disease basics, currently available agents for MS disease modification, their appropriate use, anticipated efficacy and known safety concerns. Clinicians who attend this presentation and successfully complete requirements will be more conversant in multiple sclerosis disease state, currently available agents, indication, drug profile elements, clinical efficacy and current guidelines. They will be able to incorporate the information learned into external conversations as well as our own product and materials development.

CONTINUING EDUCATION COURSE OFFERING

A C C R E D O H E A L T H , I N C O R P O R A T E D

Objectives

Upon completion of this educational activity, the participant should be able to:

1. Recall characteristics of age-related macular degeneration (AMD) and diabetic macular edema (DME): prevalence, etiology, genetics, detection, clinical manifestations, and assessment
2. Discuss guideline recommendations for treatment standards
3. Identify specialty medications used to treat AMD and DME including: risks and benefits of these therapies, patient selection, adverse effects and appropriate monitoring
4. Debate financial considerations and effect on treatment options
5. Recall the AMD and DME medication pipeline

Learning objectives

1. Recall characteristics of age-related macular degeneration (AMD) and diabetic macular edema (DME): prevalence, etiology, genetics, detection, clinical manifestations, and assessment
2. Discuss guideline recommendations for treatment standards
3. Identify specialty medications used to treat AMD and DME including: risks and benefits of these therapies, patient selection, adverse effects and appropriate monitoring
4. Debate financial considerations and effect on treatment options
5. Recall the AMD and DME medication pipeline

Agenda

- Age-related Macular Degeneration (AMD) Overview
- Diabetic Macular Edema (DME) Overview
- Therapeutic Treatment Options
- Treatment Pipeline
- References
- Product References (Accessed October 26, 2022)
- Questions
- Posttest
- Evaluation

Major Activity Objective

The program will provide review of AMD/DME disease states, currently available agents, indication, drug profile elements, clinical efficacy and current guidelines as well as upcoming potential pipeline agents.

Needs assessment:

Gaps between Current and Desired State:

- New therapies with new, unfamiliar mechanisms of action.
- Increasing numbers of available agents for the treatment of AMD/DME leading to confusion on the best initial treatment option
- Updated guidelines for treatment of AMD/DME patients

Benefit of Desired State:

- Become familiar with newly approved agents.
- Gain understanding of currently available agents and their optimal utilization.
- Understand how pipeline product approvals could change the treatment landscape
- Become familiar with various practice guidelines

Intended outcome

Pharmacists and nurses who do or may encounter this patient population will gain up-to-date knowledge on disease basics, currently available agents, their appropriate use, anticipated efficacy and known safety concerns.

Activity overview:

This live activity consists of a 60-minute WebEx presentation.

Target Audience:

This continuing professional education learning activity is designed for pharmacists and nurses who may encounter patients diagnosed with AMD and DME; clinicians who counsel patients on their drug therapy, answer questions, or make pharmacotherapy recommendations on behalf of these patients to treating physicians.

Continuing Education Information and Requirements per discipline:

This continuing education activity is approved for pharmacists and nurses.

- Nurses must complete a pretest, pass a posttest, complete an evaluation and attendance roster, including their license number(s) and signature, to receive course credit.
- Pharmacists must complete a pretest, pass a posttest, complete an evaluation and attendance roster, including their NABP e-profile ID and date of birth (MMDD), to receive course credit.

Continuing Education Information:

The continuing education activity number, requirement, and credit for this application-based activity is included with the continuing education activity description.

CONTINUING EDUCATION COURSE OFFERING
ACCREDITED HEALTH, INCORPORATED

Registered Pharmacists (RPh)

Accredo Health, Incorporated is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. UAN: 0386-0000-22-020-L01-P. Release date: 12/6/2022

Activity type: Application Contact hours: 1.0

Advance Practice Registered Nurses (APRNs), Registered Nurses (RNs), & Licensed Practical Nurses (LPNs)

Accredo Health, Incorporated is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for 1.0 contact hours applicable for APRN, RN, or LPN relicensure. Kansas State Board of Nursing provider number LT0223-0538.

Assessment Method:

Participants will complete the posttest. The participant must pass the posttest with a score of 70% or greater. He/she may attempt the test a 2nd time to receive course credit. Participants will be given a copy of the answer key for future reference.

Faculty

- Developer(s) / Presenter
 - Eric Fairbrother, PharmD, Sr. Clinical Advisor, Specialty Clinical Programs (Developer / Presenter)
 - Barbara Hockaday, RN, Clinical Specialist (Developer)
- Continuing Education Reviewers
 - Laura Turner, RN, Continuing Education Administrator
 - Gail Bridges, PharmD, Director, Specialty Clinical Product
 - Maureen McCullough, MSN, RN, CRNI, Director of Clinical Resources, Nursing / Continuing Education Program Coordinator

Disclosure Declaration

Accredo Health Group, Incorporated, and its subsidiaries dispense medications and provide services discussed in this presentation. Every effort has been made to include all approved treatment options currently used for the treatment of this disease state; to present each therapy equally, objectively, and without bias; and to avoid promotion of one therapy over another.

No commercial support was received for this activity. No compensation was received for planning, development, approval, or presentation of this activity.

All persons considered to plan, develop, or review/approve content of an education activity must disclose all relevant financial relationships (RFRs) with any ineligible company(ies). * If any RFRs were disclosed, steps will be taken to mitigate the relationship. Disclosure and mitigation will be kept on file, and will be disclosed to the participants.

*Ineligible company: One whose primary business is producing, marketing, selling, re-selling or distributing healthcare products used by or on patients.

There is no commercial support for this course offering.

Accredo Health, Incorporated develops continuing education presentations for pharmacists, nurses, and case managers that provide an in-depth presentation with fair, full disclosure, and equitable balance. Topics and learning objectives will not be promotional or appear to be intended for the purpose of endorsing a specific commercial drug or a specific commercial service. All educational programs and associated materials will be free from promotional influence and/or content. Written agreements will be used in the event of external support. Any relevant relationship between funding organization(s) and program faculty will be disclosed. Accredo will avoid promotional activities or materials as an integral part of the program or program materials, or in any manner that interferes with or interrupts the educational activity. Disclosure will be made of limitations on information including but not limited to:

- Data that represent ongoing research
- Interim analysis
- Preliminary data
- Unsupported opinion
- Opinions or approaches to care that, while supported by some research studies, do not represent the only opinion or approach to care supported by research.
- Off label use

Relevant financial disclosure

No persons in control of content had relevant financial relationships.

Participant information

Participant names and contact information are retained by the continuing education department and only shared with appropriate accreditation boards for the purpose of providing continuing education credit.

There is no fee for this activity

CONTINUING EDUCATION COURSE OFFERING

A C C R E D O H E A L T H , I N C O R P O R A T E D

Registration process:

Registration instructions including a link to Survey Monkey are sent via email to participant distribution list. Participants complete a pretest and provide identification (name, email). Registrants are sent access information to WebEx for the presentation day, along with the presentation handout.

Statements of Credit:

Continuing education credit for pharmacists is submitted to CPE Monitor within 60 days of presentation date.

CE Certificate / Verification of Completion

Nurses will receive a CE certificate by mail within 3 weeks. Other participants will be receive a certificate of participation by mail within 3 weeks.

Content (Topics)

Objectives:

- Recall characteristics of age-related macular degeneration (AMD) and diabetic macular edema (DME): prevalence, etiology, genetics, detection, clinical manifestations, and assessment
- Discuss guideline recommendations for treatment standards
- Identify specialty medications used to treat AMD and DME including: risks and benefits of these therapies, patient selection, adverse effects and appropriate monitoring
- Debate financial considerations and effect on treatment options
- Recall the AMD and DME medication pipeline

Agenda

- Age-related Macular Degeneration (AMD) Overview
- Diabetic Macular Edema (DME) Overview
- Therapeutic Treatment Options
- Treatment Pipeline
- References
- Product References (Accessed October 26, 2022)
- Questions
- Posttest
- Evaluation

Knowledge Checks

Knowledge Check #1

Which of the following factors has been associated as an increased risk of AMD?

Which of the following factors has been associated to be an increased risk of AMD?

- a. Never smoker
- b. Hypotension
- c. Family history of AMD
- d. Low body weight

Rationale: C - Increased risk for AMD includes 55 years and older, family history, Caucasian, smoker, cardiovascular disease, hypertension, high cholesterol, and obesity.

Knowledge Check #2

Which of the following descriptions is true?

- a. Retinal thickening and hard exudates are present in the posterior pole and > than 10,000 μm outside the central macular subfield in mild DME.
- b. Retinal thickening and hard exudates are present within the central subfield of the macula but do not involve the center in moderate DME.
- c. Eating excess sugar causes increased swelling in the retina.

d. DME is a complication of diabetic neuropathy.

Rationale: B - Retinal thickening and hard exudates are present within the central subfield of the macula and but do not involve the center. Mild is $>1,000\text{ }\mu\text{m}$ outside the central macular subfield. Excess fluid causes swelling in the retina. DME is a complication of diabetic retinopathy.

Knowledge Check #3

Based on current available anti-vegf therapy, what is the least amount of times to come in-office for treatment per year?

- a. 12 in-office treatments
- b. 8 in-office treatments
- c. 2 in-office treatments
- d. 1 in-office treatments

Rationale: C – Treatments vary from every 6 months to every 4 weeks.

HEALTHCARE / CLINICAL LIAISON

Clinical Training | Continuous Improvement

Experienced nurse with expertise in specialty pharmacy education and operations. Successful in achieving operational and business goals. Exceptional customer service skills and disciplined in completion of work responsibilities, problem solver and issue resolution. Registered Nurse in the State of North Carolina.

**Clinical product development | Cross-Functional Team Leadership | Specialty Pharmacy | Performance Improvement
| Business Development | Performance Management | Mentoring | Process Redesign**

PROFESSIONAL EXPERIENCE

ACCREDITO HEALTH, INC., Greensboro, NC

Acquired by Medco in 2005 and by Express Scripts in 2012

Sr. Advisor, Pharmacy Clinical Consulting-Clinical educator

2017 to present

Member of clinical product team responsible for development and implementation of clinical products related to chronic and rare diseases. Scope includes products for internal and external clinicians, and other stakeholders as needed (account management and customer service, for example), reporting for clinical product team, development and revision of clinical documentation in therapy management

- Provide clinical training in various formats including continuing education, disease and treatment overview to clinicians and / or account executives, new hire orientation for account managers for example— either live or virtually.
- Identify and implement annual clinical training for pharmacy therapeutic resource centers to meet education and accreditation requirements
- Collaborate with CE department for CE accreditation of new and existing training modules, process improvement, and compliance to meet standards
- Partner with stakeholders to provide clinical education with new products or refresher in content needs

Regional Pharmacy Director

2012 to 2017

Selected to lead operations and prescription fulfillment through 5 branches in the southeastern US. Managed 20+ employees. Scope included “back end” fulfillment, regulatory compliance, quality improvement activities, and location operations. Partnered with physician and Pharma sales and met directly with physicians, referral sources, and providers as clinical resource or operations support.

- Led organizational realignment to a centralized model and establishment of regional pharmacy operations, creating savings through alignment and standardization.
- Collaborated with IT, Pharmacy, Billing, Legal, Compliance, and project managers, migrating medical records to electronic format and creating new SOPs for records management.
- Initiated and led project for IT system enhancements which provided ‘proof of delivery,’ satisfying payers, ensuring reimbursement, and preventing losses.

General Manager

2009 to 2012

Directed specialty pharmacy branch with 47+ employees. Managed operational, pharmacy, nursing, regulatory, and financial activities.

- Teamed with physician and Pharma sales providing clinical and operations support for retention and new business, increasing branch revenue in therapies distributed for Chronic and Coag division.
- Received Medco’s President’s Award 2010 for leading integration of Accredo Health, Hemophilia Health Services, and Critical Care Systems to function as 1 business unit with 1 management and operational team.
- Awarded National Hemophilia Branch of the Year 2010 for outstanding sales and retention.

- Met or exceeded corporate quality improvement standards, resulting in successful accreditation with The Joint Commission (TJC) and URAC.

Branch Manager

2007 to 2009

Promoted to manage operations in local branch with 25+employees. Oversaw Pharmacy, Nursing, and Customer Service, supporting physician and Pharma sales and clearance / reimbursement activities.

- Streamlined branch processes and communication between all departments improving communication and morale among staff and increasing patient and referral source satisfaction results.
- Led quality improvement program with process improvements, achieving TJC accreditation and met compliance audits.
- Awarded A.C.E. Award for excellence in customer service 10/07.
- Served as Continuing Education Unit (CEU) presenter for IG and Alpha I presentations to referral staff and insurance case managers.

Nurse Manager

2003 to 2007

Managed approximately 20 field RNs. Ensured all staff maintained current credentials, completed in-services and updated training / cross-training. Assisted with intake for new referrals, obtained complete and concise nursing orders from MD office, and staffed patients for ordered infusion therapies. Contributed in marketing of infusion therapies and directed clinical rounds with referring physicians.

- Met or exceeded Performance Improvement Audits by establishing process improvements, resulting in improvement in Nursing delivery of care, documentation, and plan of treatment orders.
- Met criteria for successful Joint Commission survey, achieving accreditation.
- Approved CEU presenter for Alpha I Antitrypsin Deficiencies and IVIG, contributing to staff development.

Per Diem RN

1998 to 2003

- Performed duties related to pharmacy fulfillment, pharmacy assessments, and medication compounding.
- Conducted referral intake, infusion visits, and nursing visit billing.

EDUCATION

- **Nursing Degree Diploma**, Presbyterian Hospital School of Nursing, Charlotte, NC (3 year program)

PROFESSIONAL DEVELOPMENT

- Introduction to Business, Guilford Technical Community College, Greensboro, NC
- Certified Registered Nurse Infusion (Expired), Intravenous Nurse Society, Self-Study/Exam
- Chemotherapy Course, Wake Forest Baptist Hematology / Oncology, Winston-Salem, NC
- The Practical Coach, Accredo Health, Greensboro, NC
- How to Become a More Effective Supervisor, Accredo Health, Greensboro, NC
- The Manager Experience, Accredo Health, Memphis, TN

Explain how education could be improved to better meet any objective(s) not met: _____

Identify anything not covered in the presentation you need to care for your patients: _____

CONTINUING EDUCATION COURSE OFFERING

A C C R E D O H E A L T H , I N C O R P O R A T E D					
Please evaluate	Strongly Agree	Agree	Disagree	Strongly Disagree	N/A
The presenter was knowledgeable and effective					
The presenter was responsive to participant questions					
The education material was useful					
The teaching and learning methods were effective					
The activity was presented objectively and was free from commercial bias					
The education contained opportunities for active learning					
The posttest accurately measured what I learned from the information presented					
The content learned from this activity will impact my practice					
The activity promotes improvement in healthcare					
I would recommend this activity to others					

Please elaborate if bias perceived: _____

This activity will assist in the improvement of my: (Check all that apply)

- ☐ Competence
- ☐ Performance
- ☐ Patient outcomes

I plan to make the following changes to my practice; (Check all that apply)

- ☐ Modify treatment plans
- ☐ Incorporate different diagnostic strategies into patient evaluation
- ☐ Use alternative communication methodologies with patients and families
- ☐ None; the activity validated current practice

Other (please specify): _____

Long Term CNE Provider Checklist
(K.A.R. 60-9-107)

Name of Provider: Republic County Hospital

Name of Program Coordinator: Rebecca Brown, MSN, RN

Date Received: 1/26/23

Date to CNE Committee: March 2023

_____ **Approved**

_____ **Not Approved:** _____

Date Notified: _____

Information Required	Received	NA
Completed application for initial approval or five-year renewal for LT CNE providership shall be submitted at least 60 days before a scheduled board meeting	X	
The name and address of the organization on the application	X	
The name and address of the department or unit within the organization responsible for approving CNE, if different from the name and address of the organization	X	
The name, education and experience of the program coordinator responsible for CNE	Rebecca Brown, MSN, RN	
• Be a licensed professional nurse	X	
• Have three years of clinical experience	X	
• Have one year of experience in developing and implementing nursing education	X	
• Have a baccalaureate degree (unless held this position for the provider at least five years immediately prior to January 1, 1977)	X	
Policies & Procedures:		
Written policies and procedures, including at least the following areas:		
• Assessing the need and planning for CNE activities	X	
• Fee assessment	X	
• Advertisements or offering announcements. Published information shall contain the following statement: "(name of provider) is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for contact hours applicable for APRN, RN, or LPN relicensure. Kansas State Board of Nursing provider number: _____"	X	
• Notice of change of coordinator or required policies and procedures. The program coordinator shall notify the board in writing of any change of the individual	X	

responsible for the providership or required policies and procedures within 30 days		
For long term providers, the policies and procedures for the offering approval process shall include the following:		
• A summary of the planning	X	
• The behavioral objectives	X	
• The content, which shall meet the definition of CNE in KSA 65-1117	X	
• The instructor's education and experience, documenting knowledge and expertise in the content area	X	
• A current bibliography that is reflective of the offering content. The bibliography shall include books published within the past 10 years, periodicals published within the past five years, or both	X	
• An offering evaluation that includes each participant's assessment of the following:		
▪ The achievement of each objective	X	
▪ The expertise of each individual presenter	X	
An approved provider may award any of the following:		
• Contact hours as documented on an offering agenda for the actual time attending, including partial credit for one or more contact hours	X	
• Credit for fractions of hours over 30 mins to be computed towards a contact hour	X	
• Instructor credit, which shall be twice the length of the first-time presentation of an approved offering, excluding an standardized, prepared curriculum	X	
• Independent study credit that is based on the time required to complete the offering, as documented by the provider's pilot test results	X	
• Clinical hours		Not addressed
Documentation of Attendance		
Each provider shall maintain documentation to verify that each participant attended the offering. The provider shall require each participant to sign a daily roster, which shall contain the following information:		
• The provider's name, address, provider number, and coordinator	X	
• The date and title of the offering, and the presenter or presenters	X	
• The participant's name and license number and the number of contact hours awarded	X	
Each provider shall maintain documentation to verify completion of each independent study offering, if applicable. To verify completion of an independent study offering, the provider shall maintain documentation that includes the following:		
• The provider's name, address, provider number, and coordinator	X	

• The participant's name and license number, and the number of contact hours awarded	X	
• The title of the offering	X	
• The date on which the offering was completed	X	
• Either the completion of a posttest or a return demonstration	X	
Certificate of Attendance/CE Transcript		
A certificate of attendance shall be awarded to each participant after completion of an offering, or a CE transcript shall be provided according to the policies and procedures of the long-term provider	X	
Each certificate and each CE transcript shall be complete before distribution to the participant	X	
Each certificate and each CE transcript shall contain the following information:		
• The provider's name, address and provider number	X	
• The title of the offering	X	
• The date or dates of attendance or completion	X	
• The number of contact hours awarded and, if applicable, the designation of any independent study or instructor contact hours awarded	X	
• The signature of the individual responsible for the providership	X	
• The name and license number of the participant	X	
Recordkeeping & Storage		
For each offering, the approved provider shall retain the following for two years:		
• A summary of the planning	X	
• A copy of the offering announcement or brochure	X	
• The title and objectives	X	
• The offering agenda or, for independent study, pilot test results	X	
• A bibliography	X	
• A summary of the participants' evaluations	X	
• Each instructor's education and experiences	X	
• Documentation to verify completion of the offering	X	
The record storage system used shall ensure confidentiality and easy retrieval of records by authorized individuals	X	
Program Evaluation Plan		
For long-term providers, a copy of the total program evaluation plan	X	
Two Proposed Offerings		
The provider shall submit two proposed offerings, including the following:	#1 Burn Care	#2 Pediatric Pain Management

• A summary of planning	X	X
• A copy of the offering announcement or brochure	X	X
• The title and behavioral objectives	X	X
• The offering agenda or, for independent study, pilot test results	X	X
• Each instructor's education and experience	X	X
• A current bibliography	X	X
• The offering evaluation form	X	X

radio ~ Renewal

Providername ~ Republic County Hospital

providernum ~ LT0057-0338

legalbody ~ Great Plains of Republic County Inc.

address ~ 2420 G Street

address2 ~ Belleville, KS 66935

telephone ~ 7855272254

email ~ rbrown@rphospital.org

coordinator ~ Rebecca Brown, MSN, RN

date ~ 01-24-2023

planningce ~ Republic County Hospital has a CNE advisory committee comprised of the CNE coordinator (who is also CNO), the Director of Nursing, ISB Manager, the Director of Risk Management and Quality Improvement. We strive to recognize the desired and felt needs of our nursing staff and the nurses within our community & surrounding areas. Annually, a needs assessment is obtained from the nursing staff and the CNE committee meets to review the findings and plan courses for the upcoming year. Additionally, the committee compares needs to responses issued by nurses attending CNE programs, issues/events which have occurred within the facility and/or processes which are changing and evolving with nursing practice. Programs may be selected per the request of a departmental supervisor, community resource, physician or by administration to enhance professional growth within the organization and surrounding community. As such, the continuing nursing education learning experiences do build upon the educational and experiential bases of the registered professional and licensed practical nurse for the enhancement of practice, education, administration, and research or theory development to the end of improving the health of the public. Republic County Hospital strives to provide quality programming presented, whenever possible, by nurse educators.

feeassessment ~ Republic County Hospital believes that our primary audience is RNs and LPNs whom are members of our staff. Therefore, courses which are offered at RCH are provided at no cost to our staff members. Non-employee fees for educational offerings are derived at

through an estimated cost appraisal for each offering. However, generally a fee of \$6.00 per hour shall be charged for a course offering. The source of financial support for the program shall be considered and planning shall be done accordingly. Grants and company contributions shall be utilized whenever possible. Cancellations may occur and unless otherwise stated in program advertising, a full refund shall be given. Refund fees may be established dependent upon course cost/expenses and ability to fill vacancies, but shall be clearly stated in program advertising. Insufficient fund checks have not been an issue for the RCH education department. Being a small community, insufficient fund issuers would be contacted and given the opportunity to make right by submitting the correct fee. If at that point fees are still not paid the hospital Chief Financial Officer shall handle the matter per Republic County Hospital general policy.

advertisement ~ Program marketing is done via brochures/announcements. The brochure/ announcement is mailed, e-mailed and posted a minimum of one month prior to any CNE offering to area medical facilities and nurses within the RCH data base. The information shall include name of provider; title and objectives; CNE hours offered with the KSBN approval statement and provider information; place, date & time of program; cost; pre-registration information and target audience. Additionally information on the Republic County Hospital web page provides contact information for the CNE coordinator as well as a general statement regarding CNE: Republic County Hospital is an approved provider of continuing nursing education by the Kansas State Board of Nursing and as such offers courses for Continued Nursing Education (CNE). We also work closely with Cloud County Community College and the Northwest Kansas Area Health Education Center to provide for all our nursing education needs as well as the needs of other members of our healthcare team including physical and occupational therapy, respiratory therapy, and radiology.

approvalprocess ~ At Republic County Hospital the education coordinator utilizes a planning work sheet to verify and review all information for each class. Information on the work sheet includes: summary of planning; behavioral objectives review and that they are appropriate for CNE meeting KSA 65-1117; review of instructor credentials; instructor vitae is on file; review of bibliography for relevancy and that it is up to date; and that development and review of evaluation form including achievement of the objectives and the expertise of the presenter.

contacthours ~ Contact hours will be approved based on 50 minutes for one contact hour. Participants are expected to be on time and remain until the end of the offering, when certificates are distributed. CNE contact hours will be reduced for participants arriving late for the offering or leaving early from the offering, and it shall be noted accordingly on the sign in roster. Occasionally a special offering may be developed that will consist of two or more sections with each section independent of the other (serial). In this case partial credit would be

considered dependent upon the content and the time in attendance. Partial credit will not be offered for less than one credit hour (50 minutes); increments over one hour will be offered in half hour increments. Independent study credit is based on the time required to complete the offering as documented by the provider's pilot test result or if credit had previously been determined for the independent study by another state board or national accrediting agency, it shall be noted as such on the pilot study form. A successful posttest or return demonstration shall be completed and documented.

Each faculty member presenting a program for the first time may be given double credit (2:1) for each hour of presentation. The certificate issued will state plainly that this is a first time offering of that material, and the presenter's name with double time will be placed on the roster. Instructors for TNCC, ACLS, NRP and other courses with established standardized curriculum will not receive instructor credit.

Certificate as well as the course roster shall indicate that instructor credit is being awarded. A nurse may earn up to fifty percent (50%) of the required CNE credits in this manner.

verifycompletion ~ The roster of attendance shall be computer generated and will contain the name, address and license number for the participants and shall be signed by the participant upon attendance to the program with verification of their credentials and information.

Nurse names are typed-alphabetically by first name, as names are listed as on the nursing license, nurse category (RN / LPN), and hours of CNE to earned. The roster shall also list the title of the program, date of the program, the names of instructor(s) and their credentials, such as RN, BSN, MSN, PhD, etc. The name of hospital offering the program as well as the name of the provider, Republic County Hospital with the Republic County Hospital Provider number, LT 0057-0338.

recordkeeping ~ All information listed below shall be maintained in a yearly file with a summation index in the Office of the Education Director. The records to be included are: Planning information/correspondence; copy of the brochure; program agenda; signed roster; instructor vitae; program objectives; bibliography; program evaluations – summarized; handouts (if applicable); and pilot time testing results for independent study.

Attendance and corresponding program information shall be entered into the computer log, so that an individual nurse's attendance history may be printed. At the conclusion of each program, an evaluation log shall be completed for review by the CNE coordinator and for later review by the CNE Advisory Committee.

All records are to be maintained in the education office files. The offices shall be locked at the conclusion of each workday. Computers are password protected. Records, for a minimum of 2 years, shall be maintained in the education director / CNE coordinators office. After that, all records shall be boxed and labeled and moved to the Republic County Hospital locked record storage area for a period of up to 20 years.

noticeofchange ~ Republic County Hospital has a policy in place that outlines the overall responsibilities of the continuing nursing education coordinator. Said policy addresses that the KSNB shall be notified in writing within 30 days of said action should a different coordinator need appointed. Additionally, policy addresses that the coordinator shall be a registered nurse with a valid Kansas nursing license, who is educationally prepared and has experience in education.

programevaluation ~ A total program evaluation tool is utilized and completed each year with a review by the CNE advisory committee. The total program evaluation has proven useful in monitoring for changes, needs and improvements to the CNE program here at RCH.

Submission date ~ 01-24-2023 17:33:33

- Assessment and Care of Trauma Patients
- Risk Management 101
- Staff Nurse Retention

REPUBLIC COUNTY HOSPITAL

Planning Procedures / Process for Offering Approval

PURPOSE: In order to meet the required regulations of continuing education programs mandated by the Kansas State Board of Nursing, the following procedure should be followed.

HOSPITAL EDUCATION COORDINATOR:

1. The Republic County Hospital Education Coordinator shall be responsible for developing a continuing education program planning procedure which is utilized in planning a continuing nursing education program.

A. Course Description

1. Course Title - The title should be short, if possible, no more than six key words. It should identify the subject matter.
2. Behavioral Objectives - Objectives should not be numerous enough to provide an outline but should be sufficient to provide direction. Behavioral objectives must be measurable.
3. Course Outline or Agenda - The course outline should adequately describe the course content. It should include specific time frames for each speaker, breaks, and lunch.
4. Format - i.e. lecture, conference, seminar, etc.
5. Bibliography - To include current nursing articles and books. Use of reference articles published within the last five years and/or books published within the last ten years are acceptable.
6. Budget - The source of financial support for the program shall be considered and planning shall be done accordingly. Grants and company contributions (i.e. pharmaceutical speaker's bureaus) shall be utilized whenever possible.
7. Evaluation Plan - The plan or method which measures behavior to be achieved as specified by the objectives. Must include a measurement of objectives, whether they were met or not.
8. Intended Audience - Including any necessary prerequisites (i.e. RN, LPN, BLS verification).
9. Justification - For the presentation of this course, (i.e. needs of community, institution or of the attendees).

B. Faculty - A curriculum vitae is needed for each instructor. The vitae should include educational experience appropriate to the offering.

C. Facility - Description for this presentation.

D. Other Information - To include date, location, CNE hours to be awarded.

E. Pre-program - Advertise, accept applications for attendance, prepare the roster including the instructor's credentials, prepare handouts and arrange for any equipment needs.

F. Day of Program - Participants to sign the roster on admission to the program, confirming that names, license #'s, and addresses are correct.

G. Certificates - Certificates of attendance are prepared and distributed at the completion of the program, as per policy.

H. Evaluations - Summarize evaluations and review for comment and needed recommendations/changes, send a copy to the instructor and retain a copy for the program file.

Nursing Education Needs

POLICY:

Republic County Hospital shall recognize the desired and felt needs of our nursing staff and the nurses within our community & surrounding areas, in the scheduling of CNE programs. This will encourage professional growth and provide a mechanism to address issues of interest as well as current health care trends within our community.

PROCEDURE:

- ☐ A needs assessment survey shall be administered to the nursing staff one time per year, in March or April, in conjunction with the hospital's required inservices.
- ☐ Nurses attending CNE programs are surveyed for their felt or desired learning needs.
- ☐ It is our desire to recognize the adult learners' needs and desires and to provide a mechanism through which they can relate them.
- ☐ The survey shall be prepared in a manner that will allow recognition of current trends and will acknowledge personal preferences.
- ☐ Survey results shall be tabulated and then reviewed by the Continuing Nursing Education Advisory Committee. Program planning will be done using information gained from this survey.
- ☐ Programs may also be selected per the request of a departmental supervisor, community resource, physician, or administration to enhance professional growth within the organization and surrounding community.

Program Fees & Cancellation Policy

POLICY: Republic County Hospital intends to provide nursing education at reasonable fees so as not to deter attendance. We recognize that due to unforeseen circumstances, it is sometimes necessary to cancel offerings. It is the intent of this policy to provide a method of covering expenses and recovering fees that will be fair to participants and to the Republic County Hospital.

Republic County Hospital shall:

- ☐ encourage pre-registration
- ☐ inform participants of the policy prior to the offering
- ☐ provide a guideline so that all registrants will be treated in an equal manner

Procedure:

1. Refund of fees may be established dependent upon course cost/expenses and ability to fill vacancies, but shall be clearly stated in program advertising
 - Unless stated differently in the program announcement, a registrant may cancel and receive a full refund.
2. Full refund will be given if it is necessary for the Republic County Hospital to cancel the offering.
3. All refunds will be issued by mail.
4. Attendance fees shall be calculated from program expenses including instructor fees, travel expense, and upon the expected # of attendees. Generally, a fee of \$6.00 per credit hour shall be charged.
 - This amount may be more or less depending upon the calculated expenses of providing the program.
 - Republic County Hospital staff shall not be charged an attendance fee as this is an employee benefit.
5. In the event that the RCH Education department receives an insufficient fund check the issuer shall be contacted and given the opportunity to make good on the payment. If correction does not occur the matter will be turned over to the RCH CFO for collection of debt per hospital policies.

PROGRAM MARKETING

Policy

Adequate publicity is necessary to inform potential participants that an offering is being presented in the area. Marketing an offering should increase awareness and attendance. The marketing is the responsibility of the nurse coordinator of the CE programs. Republic County Hospital shall utilize brochures/announcements as our primary method of marketing due to cost expenditures.

Brochures and Announcements

Brochures and/or announcements are mailed and/or e-mailed by the Republic County Hospital Education department a minimum of one month prior to any CNE offering to area medical facilities and nurses within the RCH data base. E-mail distribution will be utilized whenever possible to decrease cost expenditures.

The following information shall be provided:

- Name of Provider
- Title & Objectives
- CNE hours offered with KSBN approval statement & provider
- Place, date & time of program
- Cost
- Pre—registration information, target audience

Media Releases

The purpose of media releases is to enable the potential audience to determine if the offering is in a topic area that will meet their requirements. The news media release will contain the information necessary for the potential participant to determine if this program is suited for them, as title, length of offering, speaker, time and place of the offering, and any other pertinent information will be included. The media releases will also serve to remind participants of offerings being presented.

Procedure

Two to four weeks prior to the presentation of an offering, news releases may be prepared by the education department. If the decision to utilize such releases is made they shall be distributed to area newspapers and radio stations at a minimum, two weeks prior to the presentation.

World Wide Web

Program listings may be placed on the Republic County Hospital web page. Information on how to contact the CNE coordinator via e-mail and phone shall be included in this site.

ADMINISTRATION: PROVIDERSHIP COORDINATOR

The coordinator of the continuing nursing education long term providership is responsible for the administrative details of the continuing education program. The coordinator:

- ☐ plans and implements educational offerings based on recommendation of the advisory committee, assessment of learning needs, and/or recommendation of the Director of Nursing, Administration, Quality Improvement, or Risk Management.
- ☐ with the help of the advisory committee, assures that objectives are met and that the content of the presentation is relevant to the audience.

- ❑ The coordinator shall be a registered nurse who has a valid Kansas nursing license, is educationally prepared and has experience in education.
- ❑ If for any reason Republic County Hospital has the need to appoint a different CNE coordinator, the KSBN shall be notified in writing within 30 days of said action.

The educational assistant shall have experience with various office machines and possess other secretarial skills, such as typing, filing and telephone skills. The assistant shall:

- ❑ be knowledgeable in the record maintenance and regulations governing CNE course attendance
- ❑ shall assist with licensure verification
- ❑ assist with maintenance CNE program records
- ❑ assist with the coordination of program offerings including registration
- ❑ assist with CNE program publicity.

CONTINUING EDUCATION OFFERING PROCESS

Assessment

The assessment is an important means for obtaining participant input. It can identify areas of need and/or interest. The assessment should give nurses an opportunity to have input into offering selection. The assessment is often a result of evaluations on previous offerings. It may be the recommendation of the advisory committee members, State or Federal recommendations, departmental or administrative staff, or from the educational director following current trends in nursing practice. Additional assessments are completed annually, providing nurses the opportunity to specify specific needs or interests.

Planning

This phase of the process results in a list of topics that will meet the needs and interests of nurses. Well-planned offerings should ultimately lead to improved delivery of health care. Planning should result in offerings that are relevant to the needs of participants and reflect the current trends and research in nursing. The coordinator has the final decision in determining that a topic is appropriate for nurses; however consultation with members of the CNE committee is conducted. The coordinator is also responsible for scheduling, faculty selection, and approval of the objectives, determining that the content meets the objectives, travel arrangements and any other identified program needs. A CNE planning worksheet shall be utilized to assure that all phases of planning are completed.

Implementation

Implementation is the actual presentation of the offering. The implementation should present the offering as advertised. It should also give the participants a valuable learning experience that will enhance their professional practice. The educational director or designee will be responsible for ordering refreshments, distributing written material to participants, setting up equipment, typing certificates of attendance and distributing them, and any other tasks necessary for the successful completion of the offering. The coordinator and/or her assistant shall observe to assure that all attendees sign upon arrival at the program and remain in attendance.

Evaluation

Evaluations are an integral part of each offering. They assist in the ever-continuing effort to maintain quality. The evaluation should provide an opportunity for participants to voice an opinion and offer constructive criticism about all phases of the offering. The evaluation gives the director an overall view of how the education offering met participants' needs, and is one means of providing the presenter with an appraisal of their presentation.

The procedure for the evaluation is as follows:

1. An evaluation form is distributed to each participant at the beginning of the offering
2. It will include the listed objectives in question form that can be answered with "yes", "no", " N/A" or Likert scale
3. Participants are encouraged to thoughtfully complete the form
4. Evaluations are collected at the offerings completion
5. A summary is made of the evaluations and a copy is mailed to the presenter with one copy of the summary being kept in the offering file

FACULTY SELECTION

It is the policy of Republic County Hospital to select the most qualified persons as faculty for continuing education offerings. It is also desirable to develop inexperienced speakers into qualified presenters. This policy is developed to help select the most qualified faculty available to serve as presenter for the offering. It is also the intent of the hospital that suggestions for faculty selection as stated by the KSBN are considered.

Procedure

1. Once a topic has been selected, a search is begun to identify a qualified speaker.
2. If the coordinator does not have first-hand knowledge of a speaker, other sources are contacted. Networking may include Task Force members, other providers, or other outside professional contacts of the coordinator.
3. Experienced faculty are encouraged to invite inexperienced, but otherwise qualified, speakers to participate in the presentation.
4. Faculty will meet at least two of the criteria as suggested by the KSBN:
 - A. Educational experience appropriate to the offering
 - B. Teaching experience of similar content to the offering
 - C. Clinical experience appropriate to the offering
5. Other factors will be considered such as ability to relate to an audience, ability to speak interestingly, appearance, and past evaluations.
6. Non—nursing faculty may be used if the content area is one in which a qualified nurse is not available, or in conjunction with nursing faculty.

Continuing Education Credit and Certificates

Offering Credit:

Educational offerings are usually developed so that partial credit is not possible and attendance is necessary at the entire offering. Contact hours will be approved based on 50 minutes for one contact hour. Participants are expected to be on time and remain until the end of the offering, when certificates are distributed. CNE contact hours will be reduced for participants arriving late for the offering or leaving early from the offering. Occasionally a special offering may be developed that will consist of two or more sections with each section independent of the other (serial). In this case partial credit would be considered dependent upon the content and the time in attendance.

Partial Credit:

Partial credit will not be offered for less than one credit hour (50 minutes); increments over one hour will be offered in half hour increments. Independent study credit is based on the time required to complete the offering as documented by the provider's pilot test result or if credit had previously been determined for the independent study by another state board or national accrediting agency it shall be noted as such on the pilot study form.

Instructor Credit:

Each faculty member presenting a program for the first time may be given double credit (2:1) for each hour of presentation. The certificate issued will state plainly, that this is a first time offering of that material, and the presenter's name with double time will be placed on the roster. Instructors for TNCC, ACLS, NRP and other courses with established standardized curriculum will not receive instructor credit.

Certificates:

At the completion of each offering, a certificate of attendance will be given to the participants. The certificate will be completely filled out before it is distributed. The name on the certificate will be typed exactly as it is on the nursing license. Any corrections or changes made on the certificate must be made by the coordinator and initialed. The certificate of attendance is unique to Republic County Hospital. It is designed so that it can be easily read and xeroxed by machine.

The certificate of attendance shall contain the following:

- ☐ provider's name, address, and provider number
- ☐ title of the course and instructor
- ☐ dates of attendance
- ☐ number of contact hours awarded
- ☐ name of the person responsible for the providership
- ☐ name and license number of the participant
- ☐ if independent study, it shall be clearly noted
- ☐ if instructor credit, it shall be clearly noted

Duplicate Certificate:

If a duplicate certificate must be issued to a participant due to an error on the part of Republic County Hospital, there is no charge. If a participant requests a duplicate certificate because of loss or error on the participant's part, a fee of \$5.00 may be charged. If a duplicate is issued for any reason, the word "duplicate" will be prominently added to the certificate.

INSTRUCTOR CREDIT

Policy: To provide CNE credit to a program instructor the first time that a course is developed and presented and to do so in accordance to the KSBN.

Procedure:

A nurse who prepares and presents a course for an approved offering may be given credit for the portion of the offering for the first time presented.

The minimum length of the presentation shall be one hour with two contact hours awarded.

Instructor credit is issued at a 2:1 ratio.

Arrangements for the instructor credit shall be made with the CNE coordinator in advance of the program presentation.

Republic County Hospital awards the instructor a certificate showing the credits earned

Certificate as well as the course roster shall indicate that instructor credit is being awarded.

A nurse may earn up to fifty percent (50%) of the required CNE credits in this manner.

Instructor credit shall not be issued for courses such as ACLS, NPR, TNCC, etc. with standardized prepared curriculum.

Independent Study

Republic County Hospital recognizes that Independent Study may be an appropriate alternate for earned CNE credit. Independent study may be used up to the required 30 hours in a two year period. The following are the guidelines for independent study at Republic County Hospital (RCH):

Self-instructional or independent study shall be defined as an organized study under the guidance of the RCH CNE coordinator.

Designated credit will be determined by the CNE coordinator, as appropriate for the offering.

- Credit may be determined by pilot testing
 - Total all time required for completion and divide by number of testers following policy on credit for fractions of hours
- Credit may be determined by previous credit approval by a National Accreditation agency or a state board of nursing

The study is designed by the CNE coordinator and the learner jointly. The program may include such things as research, professional papers, and authorship. In-service education and on-the-job training shall not be eligible for CNE credit.

Methods of evaluation shall be identified and may include pre and post testing, demonstrations, and/or written reports.

A certificate of completion shall be issued by the provider listing the number of contact hours granted for the independent study, and clearly stating that such contact hours were earned in independent study.

There shall be a minimum fee of \$6.00 shall be charged for each independent study, however some programs may be charged at a fee of \$6.00 per hour. This fee shall be clearly stated on program flier. RCH staff may obtain independent study at no charge if approved by their supervisor.

ROSTERS

PURPOSE: To assure that rosters of CNE programs contain appropriate information and comply with KSBN regulations.

Republic County Hospital shall begin registration a minimum of 15 minutes prior to the start of a program and shall utilize a roster that contains the information recommended by the Kansas State Board of Nursing. This roster is produced in Microsoft Access with a program designed by the RCH coordinator. The finalized roster shall be maintained in our office files for a minimum of 2 years. Contents of the standardized roster are:

A. Rosters shall be computer generated.

B. The hospital educational coordinator or her assistant shall have participants sign the original roster at registration time as designated for the program. The original shall be maintained in the CNE file. Registrants shall sign their names. Check marks or initials are not acceptable. The name, license #, and address will be verified at the time of registration.

C. Nurse names are typed--alphabetically by first name, as names are listed as on the nursing license, current address (even if different than on license), nurse category (RN / LPN), and hours of CNE earned. If no number is available for the license number column; give the reason (i.e. new graduate, new Kansas applicant, or relicensure applicants). If a nurse does not have a current license in Kansas, does not know the license number when previously licensed in Kansas, and is

currently getting CNE hours for reinstatement, then the person's social security number may be used on the roster instead of the license number. The social security number should not be substituted if the person has a current license. List out-of-state nurses with the abbreviation for their state and their license number.

D. Walk-in registrants may be added to the roster, if the class is not full.

E. List names of nursing instructors and their credentials, such as RN, BSN, MSN, PhD, etc. Persons who serve as panelists, consultants and conference leaders are not listed as instructors on the roster sheet.

F. Name of hospital offering the program as well as the name of the provider, Republic County Hospital.

G. Title of the program.

H. Republic County Hospital Provider number, LT 0057-0338.

CNE Planning Worksheet

Program Date: October 10, 2022

Program Name: Burn Class

Planning Committee: Rebecca Brown, RN; Tracey Moore, Debbie Krohn, RN

Learning Needs Assessment: Requested by Trauma Coordinator

Target Audience: (RN's; LPN's; Etc.): RN's, LPN's

Learning Objectives: (reviewed & appropriate – note any changes required)

1. Identify the depth of the burn injury
2. Calculate % of burn injury
3. Identify signs of inhalation injury
4. Identify care for the different types of burn injury

Program Logistics:

Speaker(s): Eric Jensen, RN

Instructor Credentials: See vitae

Vitae on File: yes

Bibliography relevant and up to date: Yes

Agenda: Reviewed, no changes

Evaluation Form Developed including: **Yes**

- a. Achievement of the objectives
- b. Expertise of the presenter

Form Completed by: Rebecca Brown, MSN, RN

Burn Injury

October 10, 2022

10:00a to 2:00p

9:45a Registration

Republic County Hospital
Education Room
2420 G St
Belleville, KS 66935

Objectives:

Upon completing this presentation, the participant will be able to:

1. Identify the depth of the burn injury
2. Calculate % of burn injury
3. Identify signs of inhalation injury
4. Identify care for the different types of burn injury

Target Audience: RNs, LPNS

Fees: No charge to RCH employee
\$25 for non-employees

Continuing Nurse Education (CNE) hours will be offered. Republic County Hospital as an approved provider of continuing education by the Kansas State Board of Nursing, presents this course offering for 3 contact hours applicable for RN/LPN relicensure. Kansas State Board of Nursing Provider #LT0057-0338.

Speaker: Eric Jensen, RN has 24 years of experience providing high quality care to patients with burn injuries through education, research and direct patient care. He has provided care to critical patients with 10 years experience in the burn outpatient unit, managing the long term care of patients. He is a member of the speaker bureau and has helped to educate the community, EMS, Nurses and Physician's about burn care and also received the Governor's Recognition Award for outstanding burn education throughout Nebraska in 2003.

Special Assistance: RCH wishes to take those steps required to ensure no individual with a disability is excluded, denied services, segregated, or otherwise treated differently than other individuals because of the absence of auxiliary aids and services identified in the Americans with Disabilities Act in order to attend this program. Please contact Rebecca Brown, RN at rbrown@rphospital.org if there are special accommodations or needs.

Registration: Required by October 3, 2022.

Please call Tracey at 785-527- 6075 or email tmoore@rphospital.org to register.

Burn Class

Objectives

Identify the depth of the burn injury

Calculate % of burn injury

Identify signs of inhalation injury

Identify care for the different types of burn injury

Agenda

10:00-11:00: Depth & percentage of injury

11:00-12:00: Signs of inhalation injury

12:00-1:00: Lunch

1:00 to 2:00: Case Studies

Summary of Qualifications

- With 24 years' experience I am continuing to provide high quality care to patients with burn injuries through education, research and direct patient care in the inpatient and outpatient setting
- As a nurse on the floor I have been a part of many admissions and critical patients care along with 10 years' experience in the burn outpatient managing the long term care of patients
- As part of the speaker bureau I have helped to educate the community, EMS, Nurses, and Physician's about burn care
- In 2003, received Governor Recognition Award for outstanding burn education throughout Nebraska
- Experienced public speaker, who has completed many educational sessions along with two at the ABA Burn Conference, Statewide EMS Conference, Case study for 3M and KCI

Burn Injury

ABLS Provider Manual (2018). Pham, T., et al. American Burn Association

Rice, Jr, Phillip; Orgill, Dennis (September 23, 2022). Emergency care of moderate and severe thermal burns in adults. Retrieved online www.uptodate.com Retrieved online October 5, 2022

Lippincott, . *Lippincott Nursing Procedures*. Available from: Wolters Kluwer, (8th Edition). Wolters Kluwer Health, 2018

St. Elizabeth Burn Management Algorithm

888-877-BURN (2876) or 402-219-5078

The Rule of Palm

Rule of Nines

Burn Start

Identify any Trauma and treat first. If not pass trauma center prior to going to burn center

Inhalation

Upper airway: Blast hot air, damage above cord. Edema is emergency. S/S singed hair, stridor or respiratory distress.
Lower airway: Enclosed space fire or prolonged extraction. S/S facial burns, soot on face, carbonaceous sputum, hypoxia.
Tx: Early airway protection with intubation may be needed. 100% oxygenation with non-rebreather or once intubated to remove CO poisoning.

Cardiac/Circulatory Status

Heart rate is elevated normally in a burn patient. EKG with electrical injuries.
Monitor for full thickness circumferential burns and evaluate extremity pulses.

Determining TBSA

Rule of Palm: The patients palm is equal to 1%.
Rule of Nine: Head/arms 9%, Bil Legs, Chest, Back 18%.
Superficial burns do not count in TBSA.

Fluid Resuscitation

Use LR for fluid resuscitation if only have Normal saline switch to LR as soon as possible.
Formula calculated for 24hr estimates, give half the total volume in 1st 8hrs. Remember to base on time of burn.
Place Foley 30-50 cc/hr UOP Adult.

Transfer/Outpatient

Call 800-877-BURN (2876) for transfer or burn related questions.
Keep patient warm, cover w/ clean dry sheet.

A Burn Physician is on-call 24hr a day to consult with you on the assessment and management of a burn patient. We offer Telehealth, secure email or video link.

CHI Health St. Elizabeth
Regional Burn & Wound Center
800-877-BURN (2876) or 402-219-5078

Outpatient Care Guidelines

Superficial burns

- **Does not count in TBSA**
- Heals in 7-10 days
- Pink/red NO Blisters
- Manage pain and keep ointment on burns
- Ointments: Bacitracin, Aloe lotions

Partial thickness

- Blistering or sloughing skin present
- Areas pink, red, moist, and blanches to touch
- Heals 10-21 days
- Must wash soap and water and keep covered
- Treatments: Bacitracin, silvadene, Xeroform

Full thickness

- Dry, tan, white, charred
- Does not blanch
- Burn may be insensate
- Will require Grafting
- Wash burn keep covered and apply ointment
- Ointments: Bacitracin, Silvadene, or Silver dressing

Outpatient Care: Cooling small burn <5% with water is appropriate. Wash burns 2x a day remove loose skin or yellow drainage. Apply ointment (select from above) keep burns covered and schedule appropriate follow up.

Burn Transfers: Keep burns free from ointments and creams. Keep patients warm for transport.

ABA Burn Unit Referral Criteria

Not all referral criteria may require immediate admission.

Discuss each case with the burn center.

1. Second degree burns greater than 10% total body surface area (TBSA)
2. Burns involving the face, hands, feet, genitalia, perineum and major joints
3. Electrical burns including lightning injury
4. Third degree burns in any age group
5. Chemical burns
6. Inhalation injury
7. Burn injury in patients with preexisting medical disorders that could complicate management, prolong recovery or affect mortality
8. Any patient with burns and concomitant trauma (such as fractures) in which the burn injury poses the greatest risk of morbidity or mortality. In such cases, if the trauma poses the greater immediate risk, the patient may be treated initially in a trauma center until stable before being transferred to a burn unit. Physician judgment will be necessary in such situations and should be in concert with the regional medical control plan and triage protocols.
9. Hospitals without qualified personnel or equipment for the care of children should transfer children with burns to a burn unit with these capabilities.
10. Burn injury in patients who will be requiring special social/emotional and/or long-term rehabilitative support such as cases involving suspected child abuse, substance abuse, etc.

A Burn Physician is on-call 24hr a day to consult with you on the assessment and management of a burn patient.
We offer Telehealth, secure email or video link.

Scan QR Code for more burn information, education, and outpatient instructions.

Pediatric pain management

An individualized,
multimodal, and
interprofessional
approach is key for
success.

By Sharon Wrona, DNP, PMGT-BC, CPNP, PMHS,
AP-PMN, FAAN, and Michelle L. Czarnecki,
MSN, PMGT-BC, CPNP, AP-PMN

ACCORDING to the Healthcare Cost and Utilization Project, more than 5,000,000 children in the United States had a hospital stay in 2017. Many of them experienced some type of pain. Pain has an immense impact on the mind and body. In addition to the physical sensation of pain, effects include emotional suffering, pulmonary complications, decreased mobility, poor sleep, immune impairment, reduced quality of life, economic costs, and a potential for developing persistent (chronic) pain syndromes. Despite advances in care, many children continue to experience significant pain because of undertreatment and inadequate pain management after surgery. Sparing children the short- and long-term effects of pain requires early recognition and treatment.

Nurses are critical to pain prevention, recognition, and treatment in children. They're with patients more than any other healthcare professionals and have the opportunity to assess pain throughout their shift. When pain is diagnosed, the nurse can start planning which interventions are most appropriate for individual patients. After interventions are implemented, the nurse should reassess the patient's pain and response to treatment to evaluate intervention effectiveness.

Nurses have identified barriers (many out-

CNE
1.4 contact
hours

LEARNING OBJECTIVES

Identify at least three signs and symptoms of pain in children.
Describe nonpharmacologic pain prevention for children.
List at least three pharmacologic pain interventions for children.
Identify at least three signs and symptoms of pain in children.
Describe nonpharmacologic pain prevention for children.
List at least three pharmacologic pain interventions for children.

Choosing the right pain scale

Pain scales have been developed for various pediatric populations. Nurses should select scales that are valid, reliable, user friendly, and easy to incorporate into practice. No matter which scale is used, re-assessment after interventions is a necessary component of the pain management plan.

Neonates and infants

Premature infants, starting around 20 weeks gestation, can perceive and respond to pain. To conserve energy, they frequently show a less-robust physical response compared to full-term infants (for example, they are more likely to close their eyes instead of grimacing and often have lower oxygen saturation levels). This unique response requires a scale specific to premature infants.

- The Premature Infant Pain Profile (PIPP), although less commonly used now because it's valid only in premature infants ≤ 37 weeks gestation, is well equipped to measure pain in this patient population. The Neonatal Pain, Agitation and Sedation Scale (N-PASS) includes a sedation assessment so that only one scale is needed for infants 23 weeks gestation through 100 days of life. The N-PASS scores pain/agitation from 0 to 10 and sedation from -10 to 0.
- Scales appropriate for full-term and older infants include the Neonatal Infant Pain Scale, the FLACC (Face, Legs, Activity, Cry, Consolability) scale, Child Facial Coding System, CRIES (Crying, Requires increased oxygen administration, Increased vital signs, Expression, Sleeplessness) score, Children's Hospital of Eastern

Ontario Pain Scale, Riley Infant Pain Scale, and Children and Infants Postoperative Pain Scale.

Toddlers

When possible, self-report scales are preferred over behavioral or observational scales in this patient population. When children communicate pain with words (usually by age 3 to 4 years), many can self-report using faces scales.

- Several self-report faces scales exist, each with varying levels of validity and reliability. These scales require the child to point to the face that best depicts their pain level. Examples include Faces Pain Scale-Revised (FPS-R) and Wong-Baker FACES pain rating scale. Nurses should use the same scale with a child rather than alternating between scales. The FPS-R has been used with smartphone technology with some success.

School age and adolescents

Many older children (8 years and older) can self-report pain by using a 0 to 10 scale.

- Numeric rating scales are easy to use and may be verbal (Verbal Numerical Rating Scale) or written (Visual Analogue Scale).

Children with cognitive developmental delays

These children are at increased risk for poor pain assessment and management. Although their pain response may be diminished, no studies have demonstrated a decrease in pain sensation. Voepel-Lewis found that when self-report isn't possible, facial cues are

highly sensitive indicators of postprocedure and postoperative pain. Several scales exist, each with varying levels of reliability and validity.

- The revised FLACC (r-FLACC) has been validated in children from age 4 to 19 years. Using the original FLACC scale as a base, additional indicators (such as head banging and breath holding) were added, along with space for parents to document any features unique to their child.
- Another helpful tool is the Individualized Numeric Rating Scale. Caregivers are asked to assign a number to typical pain behavior seen in their child. The scale must be periodically updated because pain signs may change as the child ages.

Intubated and mechanically ventilated children

Very few validated scales exist for this patient population.

- The COMFORT scale, which Van Dijk and colleagues demonstrated to be reliable and valid, is one of the more commonly used scales in this population. It uses six behavioral and two physiological metrics for a total score from 8 to 40.
- An American Society of Pain Management Nursing position statement recommends using self-report if possible, evaluating potential sources of pain, assessing patient behaviors, incorporating physiologic measures (keeping in mind that they may not be specific to pain), soliciting input from parents, and assuming pain is present if the child is undergoing a painful procedure or has known reasons for pain.

side of their control) to pediatric pain management. Czarnecki and colleagues' 2019 multisite study of barriers to pediatric pain management found commonalities across the United States. The most frequently identified barriers included inadequate provider orders, insufficient time to provide pain medication before a procedure, insufficient premedication orders before procedures, and low priority given to pain management by medical staff. Regardless of role or setting, nurses can be empowered to overcome these barriers and provide optimal pain management. For exam-

ple, they can use the electronic health record to develop order sets that include analgesic options, reducing barriers to adequate and timely orders. At a system level, nurses can collaborate with interprofessional teams on quality improvement projects to remove barriers that are out of the nurse's control but within the area of other professionals' work. In the Czarnecki study, concerns about addiction, limitations in nurses' ability to assess pain, and a low priority given to pain by nursing staff were rated among the least frequently identified barriers.

Nonpharmacologic pain management interventions should be age-appropriate.

Infants

- Breastfeeding
- Oral sucrose
- Non-nutritive sucking
- Swaying (rocking the infant back and forth)
- Swaddling

Toddlers

- Bubbles, toys, books, or other objects for distraction
- Comfort holds (secure hugging by a parent or caregiver that helps the child feel safe and secure, decreases movement, and allows the parent to appropriately participate in the procedure)

School-age children

- Comfort holds during procedures
- Video games, toys, books, bubbles, and other objects for distraction

Adolescents

- Whenever possible, allow adolescents to use their independence, make choices, and apply coping skills they've previously acquired.
- Adolescents may want more privacy or social support from peers and others, compared to other age groups.
- They may prefer technology (phone or laptop) for distraction.

Assessment

Historically, pain intensity numbers were viewed as key to patient assessment, and pain was considered the 5th vital sign. Although this was interpreted as requiring a pain score along with other vital signs, a true pain assessment should capture more than just a number. It should describe the patient's pain experience, including its nature, impact, and context. Parental input can help differentiate pain from anxiety or other

sources of distress in pediatric patients.

Pain intensity ratings are one piece of a pain assessment, but function is more important. Among adult patients, pain intensity ratings are being replaced with multidimensional pain assessments. For example, the Clinically Aligned Pain Assessment Tool guides the conversation between nurse and patient, focusing on general comfort, treatment effectiveness, whether pain is getting better or worse, activity level, and sleep quality. The tool can be adapted for use with children. Not all categories may apply to all pediatric patients, so the tool should be individualized and include parental input.

When used, pain intensity ratings should be gathered with developmentally appropriate, reliable, and validated tools. (See *Choosing the right pain scale*.)

Treating pain in children and adolescents

Pain management should take an individualized, multimodal (nonpharmacologic and pharmacologic), and interprofessional approach. The Pain Management Best Practices Inter-Agency Task Force identified gaps where multimodal, nonopioid treatment options were underused, especially in acute care settings. This report suggests the need for more guidelines, including a multimodal approach.

Nonpharmacologic approaches

Nonpharmacologic approaches to pain treatment should be tailored to the developmental level of the child and their individual needs. Treatment plans should be developed to effectively manage the child's pain with an overarching goal of improving function. Involving the patient and family in treatment planning is essential for developing realistic expectations and goals.

The Joint Commission standards encourage hospitals to provide nonpharmacologic pain treatment and monitor intervention outcomes. Frequently, acute pain, especially in the hospital, is treated with a combination of nonpharmacologic and pharmacologic options. In contrast, when working with children and adolescents with persistent pain, nonpharmacologic treatment options frequently are the mainstay of pain treatment.

Nonpharmacologic pain interventions can be categorized as behavioral, cognitive,

restorative, and complementary. A child life therapist can work with a child before a procedure or surgery to help facilitate therapeutic play and teach *behavioral* and *cognitive* techniques they can use throughout their lives to manage pain or uncomfortable situations. These techniques include deep breathing, self-coping skills, guided imagery, and virtual reality. In addition, music and reduced stimulation can create a soothing environment. (See *Age-appropriate options*.)

Restorative therapies, such as physical therapy, occupational therapy, and therapeutic recreation, can help restore a child to optimal function when they're experiencing acute pain. These therapies are essential for children with persistent pain.

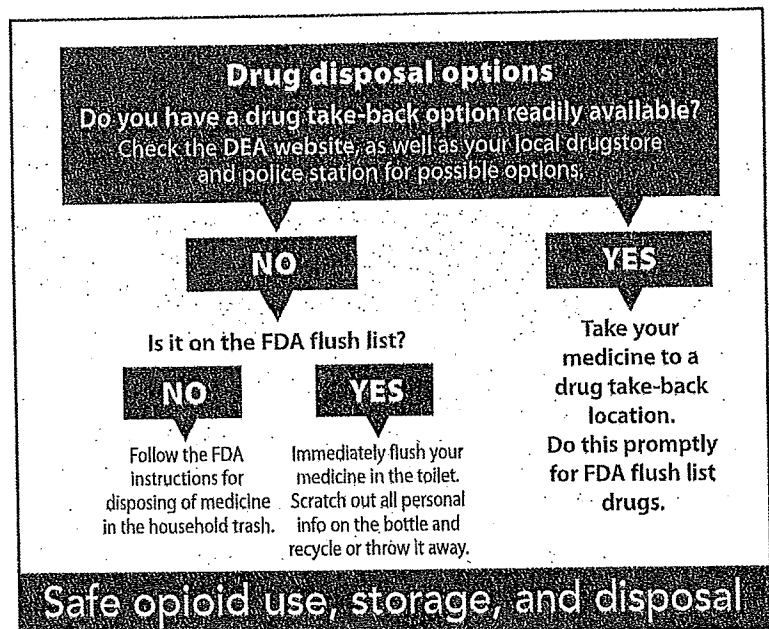

According to Brittner and colleagues, *complementary* and integrative health modalities, such as massage and acupuncture, are showing some promising effects when used as part of a multimodal approach to treat various types of pain in children. Their evidence supports the safe use of acupuncture in children, and findings suggest this type of integrative approach can be beneficial for improving infant colic, headaches, dysmenorrhea, and other types of pain.

For children of all ages, parental involvement to provide comfort and reassurance is beneficial to both the parent and the child. However, nurses must recognize when parent or caregiver stress and anxiety may be upsetting the child. When that's the case, nurses can help by providing open channels of communication, sharing information, and involving the parent in their child's care (bathing, comfort holds, distraction) when possible.

Pharmacologic approaches

A variety of medication classes can be used to treat pain in children. The medication selection should consider the nature (for example, physical or emotional, acute or persistent) and intensity of the pain, its characteristics (for example, sharp, dull), and duration.

Nonopioid analgesics. Nonopioid medications, such as acetaminophen (I.V., oral, or rectal) and nonsteroidal anti-inflammatory drugs (NSAIDs) can be used to treat most types of pain. NSAIDs are recommended for mild to moderate pain and as part of a multimodal treatment plan for severe pain when using

Reducing opioid misuse requires appropriate use for pain control as well as safety precautions in the home.

Appropriate opioid use

In a study by Miech and colleagues, a legitimate opioid prescription predicted future opioid misuse in 12th grade students who had little experience with illegal drug use and strongly disapproved of marijuana use. This increased risk of future opioid misuse must be considered when weighing the risks and benefits of prescribing these medications to children. Opioids are appropriately indicated and necessary in some cases, but if pain can be adequately treated without them, they shouldn't be prescribed. Nurses have a duty to discuss the risks and benefits of any treatment modality with patients and their families, and to inform providers of any identified risks.

Safe opioid storage and disposal

About 70% of the opioids misused by children are prescribed or obtained for free from a relative or friend. A study of U.S. Poison Control Centers by Allen and colleagues found that an average of 32 calls a day are received for unintentional opioid ingestion by children (more than 50% are age 5 years or younger).

When educating patients and families about opioid safety, nurses should include the following points:

- Secure medications in a locked location. Many retail pharmacies sell medication lockboxes.
- To ensure no medications are missing, keep a log of the number of opioids on hand and given to the child.
- Be on the lookout for opioid seekers, including family members, friends, neighbors, and even strangers, who might want to steal unused medications from the home.
- Transition from opioids to over-the-counter (OTC) pain medications when opioids are no longer needed. For many minor surgeries or injuries, OTC medications may be sufficient to manage pain.
- Unused medications can be disposed of in a medication drop box using a medication disposal bag, taken to a drug take-back program, or disposed of in household trash after mixing them with undesirable substances such as coffee grounds or cat litter. Nurses can direct families to visit the U.S. Food and Drug Administration website for more information [fda.gov/Drugs/ResourcesForYou/Consumers/BuyingUsingMedicineSafely/EnsuringSafeUseofMedicine/SafeDisposalofMedicines/ucm186187.htm](https://www.fda.gov/Drugs/ResourcesForYou/Consumers/BuyingUsingMedicineSafely/EnsuringSafeUseofMedicine/SafeDisposalofMedicines/ucm186187.htm).

Regardless of administration route, nurses should closely monitor children receiving opioids for side effects and adverse reactions, including increased sedation, which may be the first sign of impending opioid-induced respiratory depression. Nurses should take immediate action to decrease or stop the opioid per provider orders.

Opioid analgesics. Opioids are reserved for managing severe pain. When prescribed for children, opioids are given orally or intravenously. The oral route is easy and inexpensive, and most short-acting opioids are available in a liquid or tablet form. Some oral opioids, such as hydrocodone, are available only as a combination medication (for example, hydrocodone with acetaminophen). When using combination medications that have acetaminophen, nurses must educate parents and caregivers about the

Regardless of administration route, nurses should closely monitor children receiving opioids for side effects and adverse reactions, including increased sedation, which may be the first sign of impending opioid-induced respiratory depression. Nurses should take immediate action to decrease or stop the opioid per provider orders. Common opioid side effects include nausea, pruritus, drowsiness, and constipation. Managing side effects is key to patient comfort. If medications are needed to control side effects, the least sedating option should be used. (See *Safe opioid use, storage, and disposal*.)

Procedural pain control. Critically ill infants experience between seven and 17 painful procedures per day during neonatal intensive care unit stay. A variety of local and topical anesthetics can be used in conjunction with nonpharmacologic pain management

techniques to help comfort children during a procedure. Local anesthetic creams, patches, injections, or sprays should be offered to children before a painful procedure unless contraindicated. Involving parents or caregivers to help with comfort holds can help reduce stress and anxiety during a procedure.

Make a difference

Pain management in children continues to be suboptimal, but nurses can make a difference. Their individualized pain assessment using age-appropriate tools, administration of pharmacologic and nonpharmacologic pain treatments, optimal pain management advocacy, and patient and family education are key to relieving pediatric patients' pain and improving their quality of life.

AN

Sharon Wrona is director of comprehensive pain and palliative care services at Nationwide Children's Hospital in Columbus, Ohio. Michelle Czarnecki is a pain management advanced practice nurse at Children's Hospital of Wisconsin. Jane B. Pettit is Pain and Headache Center in Milwaukee.

POST-TEST • Pediatric pain management

Earn contact hour credit online at myamericannurse.com/pediatric-pain-management

Provider accreditation

The American Nurses Association is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.

Contact hours: 1.4

ANA is approved by the California Board of Registered Nursing, Provider Number CEP17219.

Post-test passing score is 80%.

Expiration: 3/1/24

Please mark the correct answer online.

1. A 16-year-old patient is receiving mechanical ventilation. Which tool would be most appropriate for assessing pain?

- a. COMFORT scale
- b. FLACC scale
- c. Child Facial Coding System
- d. Children and Infants Pain Scale

2. A 10-year-old child with cognitive developmental delays is admitted with possible appendicitis. Which tool would be most appropriate for assessing pain?

- a. Riley Pain Score
- b. CRIES Score
- c. Children and Infants Pain Scale
- d. Revised FLACC

3. At what week of gestation do infants typically begin to perceive and respond to pain?

- a. 15
- b. 20
- c. 25
- d. 30

4. A 2-year-old child needs a nasogastric tube to be placed. Which of the following would be an effective strategy for easing discomfort?

- a. Allowing the child to play with a favorite doll
- b. Administering oral sucrose
- c. Swaddling the child before the procedure starts
- d. Providing a complex video game

5. Swaying would be an appropriate nonpharmacologic pain management strategy for a child who is

- a. 11 months old.
- b. 42 months old.
- c. 12 years old.
- d. 16 years old.

6. An example of restorative therapy is

- a. virtual reality.
- b. acupuncture.
- c. massage.
- d. physical therapy.

7. An example of a cognitive technique to reduce pain is

- a. physical therapy.
- b. occupational therapy.
- c. guided imagery.
- d. deep massage.

8. Which of the following statements about the use of nonsteroidal anti-inflammatory drugs (NSAIDs) for relieving pain in children is correct?

- a. NSAIDs can be used in children with bleeding disorders.
- b. NSAID dosages should be standardized for all ages.
- c. NSAIDs are recommended for mild to moderate pain.
- d. NSAIDs should not be used in conjunction with opioids.

9. Which of the following statements about the use of benzodiazepines for relieving pain in children is correct?

- a. They cause sedation.
- b. They do not cause sedation.
- c. They are contraindicated for muscle spasms.
- d. They are best used in conjunction with opioids.

10. Which of the following statements about the use of opioids for relieving pain in children is correct?

- a. A patient-controlled analgesia pump should not be used to administer I.V. opioids.
- b. A patient-controlled analgesia pump can be safely used to administer I.V. opioids.
- c. Opioids should only be administered I.V. in children.
- d. Opioids should only be administered orally in children.

11. Instructions for the safe disposal of unused opioids include all of the following except

- a. flush down the toilet or a sink drain.
- b. mix with coffee grounds and then put in household trash.
- c. return to a drug take-back program.
- d. deposit in a medication drop box.

Long Term CNE Provider Checklist
(K.A.R. 60-9-107)

Name of Provider: Kansas Heart Hospital

Name of Program Coordinator: Denise Gibbens

Date Received: 12/21/22

Date to CNE Committee: March 2023

_____ **Approved**

_____ **Not Approved:** _____

Date Notified: _____

Information Required	Received	NA
Completed application for initial approval or five-year renewal for LT CNE providership shall be submitted at least 60 days before a scheduled board meeting	X	
The name and address of the organization on the application	X	
The name and address of the department or unit within the organization responsible for approving CNE, if different from the name and address of the organization		X
The name, education and experience of the program coordinator responsible for CNE	Denise Gibbens	
• Be a licensed professional nurse	X	
• Have three years of clinical experience	X	
• Have one year of experience in developing and implementing nursing education	X	
• Have a baccalaureate degree (unless held this position for the provider at least five years immediately prior to January 1, 1977)	X	
Policies & Procedures:		
Written policies and procedures, including at least the following areas:		
• Assessing the need and planning for CNE activities	X	
• Fee assessment	X	
• Advertisements or offering announcements. Published information shall contain the following statement: “(name of provider) is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for contact hours applicable for APRN, RN, or LPN relicensure. Kansas State Board of Nursing provider number: ”	X	
• Notice of change of coordinator or required policies and procedures. The program coordinator shall notify the board in writing of any change of the individual	X	

responsible for the providership or required policies and procedures within 30 days		
For long term providers, the policies and procedures for the offering approval process shall include the following:		
• A summary of the planning	X	
• The behavioral objectives	X	
• The content, which shall meet the definition of CNE in KSA 65-1117	X	
• The instructor's education and experience, documenting knowledge and expertise in the content area	X	
• A current bibliography that is reflective of the offering content. The bibliography shall include books published within the past 10 years, periodicals published within the past five years, or both	X	
• An offering evaluation that includes each participant's assessment of the following:		
▪ The achievement of each objective	X	
▪ The expertise of each individual presenter	X	
An approved provider may award any of the following:		
• Contact hours as documented on an offering agenda for the actual time attending, including partial credit for one or more contact hours	X	
• Credit for fractions of hours over 30 mins to be computed towards a contact hour	X	
• Instructor credit, which shall be twice the length of the first-time presentation of an approved offering, excluding an standardized, prepared curriculum	X	
• Independent study credit that is based on the time required to complete the offering, as documented by the provider's pilot test results		X
• Clinical hours		X
Documentation of Attendance		
Each provider shall maintain documentation to verify that each participant attended the offering. The provider shall require each participant to sign a daily roster, which shall contain the following information:		
• The provider's name, address, provider number, and coordinator	X	
• The date and title of the offering, and the presenter or presenters	X	
• The participant's name and license number and the number of contact hours awarded	X	
Each provider shall maintain documentation to verify completion of each independent study offering, if applicable. To verify completion of an independent study offering, the provider shall maintain documentation that includes the following:		
• The provider's name, address, provider number, and coordinator		X
• The participant's name and license number, and the number of contact hours awarded		X

• The title of the offering		X
• The date on which the offering was completed		X
• Either the completion of a posttest or a return demonstration		X
Certificate of Attendance/CE Transcript		
A certificate of attendance shall be awarded to each participant after completion of an offering, or a CE transcript shall be provided according to the policies and procedures of the long-term provider	X	
Each certificate and each CE transcript shall be complete before distribution to the participant	X	
Each certificate and each CE transcript shall contain the following information:		
• The provider's name, address and provider number	X	
• The title of the offering	X	
• The date or dates of attendance or completion	X	
• The number of contact hours awarded and, if applicable, the designation of any independent study or instructor contact hours awarded	X	
• The signature of the individual responsible for the providership	X	
• The name and license number of the participant	X	
Recordkeeping & Storage		
For each offering, the approved provider shall retain the following for two years:		
• A summary of the planning	X	
• A copy of the offering announcement or brochure	X	
• The title and objectives	X	
• The offering agenda or, for independent study, pilot test results	X	
• A bibliography	X	
• A summary of the participants' evaluations	X	
• Each instructor's education and experiences	X	
• Documentation to verify completion of the offering	X	
The record storage system used shall ensure confidentiality and easy retrieval of records by authorized individuals	X	
Program Evaluation Plan		
For long-term providers, a copy of the total program evaluation plan	X	
Two Proposed Offerings		
The provider shall submit two proposed offerings, including the following:	#1 Neuro Refresher	#2 MegaCode Blue: ALS Workshop
• A summary of planning	X	X

• A copy of the offering announcement or brochure	X	X
• The title and behavioral objectives	X	X
• The offering agenda or, for independent study, pilot test results	X	X
• Each instructor's education and experience	X	X
• A current bibliography	Some outdated	Some outdated
• The offering evaluation form	X	X

radio ~ Initial Application

Providername ~ Kansas Heart Hospital

providernum ~ ~

legalbody ~ ~

address ~ 3601 N Webb RD

adress2 ~ Wichita, KS 67226

telephone ~ 316-650-5000

email ~ dgibbens@kansasheart.com

coordinator ~ Denise Gibbens

date ~ 12-21-2022

planningce ~ 4. Department managers are encouraged to submit recommendations to administration for future educational needs in their department and employee participation in specific courses.

5. Each department will provide department specific in-service training for staff members on new procedures or new equipment. Department managers may require an employee to attend or complete a specific course.

6. All employees are encourage to submit recommendations to administration or the education department for future educational needs including the following but not limited to: committee (i.e. Employer of Choice), unit staff meeting, and individual submission.

7. Educational courses are to be completed monthly or as required by all hospital staff and are accessible through HealthStream. Internet access will be allowed for staff to

complete these courses.

feeassessment ~ 1. All courses and personal absences must be approved in advance by the department manager prior to enrolling in courses.

2. Hospital administration will approve and compensate employees for attendance at specifically identified staff development programs, as they pertain to specific hospital needs. Upon approval, the hospital will pay an employee up to eight (8) hours per day. In the event that employee normally works a 12 hours shift, efforts will be made to arrange for four (4) hours of work in unit to make up the difference or PTO may be taken.

3. An employee may take PTO to attend continuing education courses not offered by KHH.

4. Educational Classes that are offered to include non KHH staff will have a course fee. Any course fee will be stated in the advertisements. Payment is due before start of class.

5. There will be a service charge of \$ 30.00 for all returned checks.

6. A \$ 10 processing fee will be charged for replacement of CE certificates.

7. Fees will not be charged to KHH employees or most continuing education offerings.

8. For special offerings, KHH employees may be required to pay a registration fee. If possible, a reduced rate will be negotiated.

advertisement ~ 1. All courses will have advertisements/offering announcements will include the following statement:

a. "(name of provider) is approved as a provider of CNE by the Kansas State Board of Nursing. This course offering is approved for contact hours applicable for APRN, RN, or LPN re-licensure. Kansas State Board of Nursing provider Number _____."

2. Courses will advertised or announced including but not limited to the following: posters/flyers placed on communication boards and on units, employee email, staff meetings.

approvalprocess ~ 1. Planning and supporting documentation will be summarized by the Staff Development Coordinator.

2. Behavior objectives will be developed by the Quality Assurance/Staff Development Coordinator and/or course instructor to describe the intended result of an educational offering.

a. Providers will be required to clearly state the overall course objective in distributed materials so participants will know in advance what they can expect to learn.

3. All course content will meet the terms set forth in the definition for

continuing nursing education established by the Kansas State Board of Nursing. All course content must be relevant to the practice of registered nursing or for other healthcare professionals and must be:

- a. Related to scientific knowledge and/or technical skills required for the practice of nursing; or
- other healthcare professions;
- b. Related to the direct and /or indirect patient care; or
- c. Related to personal practice or personal health maintenance

4. Documentation of instructor certification(s), qualifications, work experience and expertise in the content area will be required for any CE offering approval.

5. A current bibliography will be required to support the offering content. Acceptable contents include text published within the past 10 years, periodicals published within the past five (5) years, classic references without time restriction, and current online references from established sources.

6. Each course offering will have an evaluation form to determine each participant's assessment of the following:

- a. Behavioral objective achievement; and
- b. Instructor/presenter qualifications/expertise

contacthours ~ 1. CE contact hours will be awarded as follows:

- a. Every 50 minutes of qualified education will qualify for one (1) continuing education (CE) contact hour
- b. Credit is not awarded for breaks, meals, or networking activities
- c. Fractions of a credit hour over thirty minutes will be computed towards a contact hour. (Example: presentation that lasts 1 hour and 45 minutes without any breaks/pauses. Calculation: 105 minutes divided by 50 minutes = 2.1. Thus, two (2) contact hours will be awarded
- d. Partial credit will be awarded based on attendance time of individual (Time will be subtracted for those arriving late or leaving early). The majority of the individual educational offering (90%) must be attended to qualify for CE credit.
- e. Attendance of the entire class is required to receive full credit
- f. Instructor credit will be given for initial course preparation presentation of an approved CE offering. The instructor will receive two (2) CE contact hours for every one (1) hour of student credit, at a maximum of fifteen (15) hours.
- i. This excludes standardized or prepared curriculum (ie- ACLS/BLS course)

verifycompletion ~ 1. An attendance roster for each class will be required for participant verification and will include:

- Instructor name
- Course title
- Provider name, address, provider number, coordinator
- Start date/time and End date/time
- Total hours of instruction, contact hours awarded
- Participant name, address, and nursing license number

2. If lunch or long breaks are taken, participants will be required to initial attendance roster when course resumes

3. At the end of the course, instructors will verify successful completion of course and CE certificate will be awarded, if applicable. (Either at the conclusion of class or distributed at a later date)

4. CE certificate shall contain the following:

- Provider's name, address and provider number
- Title of the offering, date(s) of attendance or completion
- Number of contact hours awarded and, if applicable, the designation of any independent study or instructor contact hours awarded
- Signature of the individual responsible for the provider-ship
- Name and license number of the participant

5. No individual with a disability will be excluded, denied services, segregated or otherwise discrimination against from other individuals because of the absence of auxiliary aids or services. If special accommodations are required, participants should contact the Quality Assurance/Staff Education Coordinator at KHH 630-5093

6. Classes may be cancelled or rescheduled at the facility's discretion. Pre-registered participants will be notified and a full refund given, if applicable. The refund policy may not apply to conferences held offsite by a different CE provider.

recordkeeping ~ 1. For CE offered through HealthStream:

- Documentation of all CE courses completed through HealthStream will be maintained through HealthStream.
- The Staff Development Coordinator will be the designated HealthStream system administrator and will ensure access and retrieval of CE content and user attestations of completion.

3. For CE offered through Kansas Heart Hospital:

- A file cabinet system will be maintained for all hard copies of course roster, class material, class flyer/brochure, completed paper work (including any post-test, if applicable) and course

evaluations for a minimum of two (2) years.

b. All hard copies will be maintained in the Quality Assurance/Staff Education Coordinator office in a secured file cabinet to insure confidentiality and security and allow for easy record retrieval by authorized personnel.

4. Computer files of all related course work will also be maintained for a minimum of two (2) years.

5. Power Point presentations, class materials and handouts will be maintained in computer files.

6. Provider will maintain documentation regarding course offering planning/needs assessment, research data, course title and objectives, course content and time frames for each offering.

7. Staff who complete live, streaming, or online CE courses outside of HealthStream or Kansas Heart Hospital are responsible for maintaining hard copies of attestation of completion of CE courses.

8. Biographical data of the Staff Development Coordinator will be maintained in personnel file

noticeofchange ~ 7. The Kansas State Board of Nursing Education Division will be notified in writing within 30 days of any changes of individuals responsible for the continuing education provider-ship or changes made to the required education policies and procedures.

programevaluation ~ 1. A Total Program Evaluation will be completed annually and reported in accordance with Kansas State Board of Nursing Long Term Continuing Nursing Education Requirements.

2. Total program Evaluation will be a systematic process by which an approved provider analyzes outcomes of the overall CNE program in order to make subsequent decisions

3. Total Program Evaluation will include:

- a. Program administration
- b. Program Coordinator's responsibilities
- c. Program management
- d. Policies and procedures
- e. Total Program Evaluation
- f. Ability of the plan to measure the overall effectiveness of the CNE provider-ship

Submission date ~ 12-21-2022 11:11:37

Form ID ~ 1672730

Planning Summary: Neuro Refresher

Need Identification:

Department Managers and Hospital Administration recognize that procedures and surgeries performed at Kansas Heart Hospital carry risks of neurological complications.

- All current staff will have the opportunity to attend the Neuro Refresher course to review and/or advance skill level and practice of identifying, assessing, and managing neurological complications within their scope of practice.

Offering:

This course will be offered at least bi-annually and as needed to accommodate training requirements and potential influx of new staff.

- Practice applications will be reviewed/discussed in class
- Further education needs will be evaluated based on learner's performance and comprehension

Development/Review:

This CE course has been developed and/or reviewed to meet this training needed by:

- Denise Gibbens, MS, BSN, RN, Quality Assurance/Staff Education Coordinator
- Beatrice Duncan, BSN, RN, Intensive Care Unit Manger
- Brittany Grabill, BSN, RN, Intensive Care Unit

Approval for CE credit is pending KSBN review of Long Term CE Application.

Course Evaluation:

Participants will complete course evaluation to assist with current and future course enhancements and considerations for all educational planning.

NEURO REFRESHER

Education Offering

Kansas Heart
HOSPITAL

3601 North Webb Road, Wichita, Kansas 67226 (316)630-5000

General Comments: _____

Comments/suggestions about course elements (e.g. content, objectives, administration, instructional aids, classroom, materials, etc.) : _____

Planning Summary: Mega Code Blue: ALS Workshop

Need Identification:

Department Managers and Hospital Administration recognize that Mega Code Blue Workshop is offered in addition to RQI program.

All current staff will have the opportunity to attend the Mega Code Blue: ALS Workshop course to review and demonstrate roles, how to locate/access/use equipment, and responses in various ALS scenarios.

Offering:

This course will be offered annually and PRN.

- Practice applications will be reviewed/discussed in class
- Quiz is administered at end of the class
- Further education needs will be evaluated based on learner's performance and comprehension

Development/Review:

This CE course has been developed and/or reviewed to meet this training needed by:

- Denise Gibbens, MS, BSN, RN, Quality Assurance/Staff Education Coordinator
- Beatrice Duncan, BSN, RN, Intensive Care Unit Manager

Approval for CE credit is pending KSBN review of Long Term CE Application.

Course Evaluation:

Participants will complete course evaluation to assist with current and future course enhancements and considerations for all educational planning.

MEGA CODE BLUE Workshop

Mandatory for ICU, IMU, and TELE RNs

Kansas Heart

HOSPITAL

3601 North Webb Road, Wichita, Kansas 67226 (316)630-5000

Education: ALS Mega Code Simulations

This class will review the Crash Cart and its contents and roles in running a Code Blue. Each class will work through various ALS Code Scenarios. A quiz will be given at the end.

Lead by Denise Gibbens, MS, BSN-RN
QA/Staff Education

This class will be held in the KHH Conference Room and last 90 minutes.

Kansas Heart Hospital is a provider of continuing nursing education by the Kansas State Board of Nursing.

This course offering is approved for 1.5 contact hours, applicable for RN, or LPN relicensure.

Kansas State Board of Nursing Provider # _____.

Course Title & Objectives

Course Title: Mega Code Blue: ALS Workshop

Course Objectives:

- Review and understand DNR status and modified DNR Status
- Identify and understand roles in responding to Code Blue
- Review and demonstrate how to use Zoll Defibrillator in Advance Life Support situations
- Identify and understand locations, access, and organization of the Code Carts in KHH
- Class demonstration and discussion of responses/actions in various ALS scenarios
 - Cardiac Arrest
 - Acute Coronary Syndrome
 - Symptomatic Bradycardia
 - Unresponsive Patient with a Pulse
 - Supraventricular Tachycardia

- 09:00 Sign in, Welcome, and Introduction
- 09:02 Power point:
- Variations of Code Status: DNR
 - Call the Code, Roles in Code Blue, and Communication
 - Defibrillator and Crash Cart Review
- 09:30 ALS Scenarios
- Cardiac Arrest
 - Acute Coronary Syndrome
 - Symptomatic Bradycardia
 - Unresponsive Patient with a Pulse
 - Supraventricular Tachycardia
- 10:15 Conclusion, Questions, Quiz
- 10:30 Class dismissed

Long Term CNE Provider Checklist
(K.A.R. 60-9-107)

Name of Provider: Sarah E. Jorgensen

Name of Program Coordinator: Sarah E. Jorgensen

Date Received: 11/21/22

Date to CNE Committee: March 2023

_____ **Approved**

_____ **Not Approved:** _____

Date Notified: _____

Information Required	Received	NA
Completed application for initial approval or five-year renewal for LT CNE providership shall be submitted at least 60 days before a scheduled board meeting	11/21/22	
The name and address of the organization on the application	X	
The name and address of the department or unit within the organization responsible for approving CNE, if different from the name and address of the organization		X
The name, education and experience of the program coordinator responsible for CNE	Sarah E. Jorgensen	
• Be a licensed professional nurse	X	
• Have three years of clinical experience	X	
• Have one year of experience in developing and implementing nursing education	X	
• Have a baccalaureate degree (unless held this position for the provider at least five years immediately prior to January 1, 1977)	X	
Policies & Procedures:		
Written policies and procedures, including at least the following areas:		
• Assessing the need and planning for CNE activities	X	
• Fee assessment	X	
• Advertisements or offering announcements. Published information shall contain the following statement: "(name of provider) is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for contact hours applicable for APRN, RN, or LPN relicensure. Kansas State Board of Nursing provider number: _____"	X	
• Notice of change of coordinator or required policies and procedures. The program coordinator shall notify the board in writing of any change of the individual	X	

responsible for the providership or required policies and procedures within 30 days		
For long term providers, the policies and procedures for the offering approval process shall include the following:		
• A summary of the planning	X	
• The behavioral objectives	X	
• The content, which shall meet the definition of CNE in KSA 65-1117	X	
• The instructor's education and experience, documenting knowledge and expertise in the content area	X	
• A current bibliography that is reflective of the offering content. The bibliography shall include books published within the past 10 years, periodicals published within the past five years, or both	X	
• An offering evaluation that includes each participant's assessment of the following:		
▪ The achievement of each objective	Listed in policy	
▪ The expertise of each individual presenter	X	
An approved provider may award any of the following:		
• Contact hours as documented on an offering agenda for the actual time attending, including partial credit for one or more contact hours	Calculations incorrect	
• Credit for fractions of hours over 30 mins to be computed towards a contact hour	X	
• Instructor credit, which shall be twice the length of the first-time presentation of an approved offering, excluding an standardized, prepared curriculum	X	
• Independent study credit that is based on the time required to complete the offering, as documented by the provider's pilot test results	X	
• Clinical hours		X
Documentation of Attendance		
Each provider shall maintain documentation to verify that each participant attended the offering. The provider shall require each participant to sign a daily roster, which shall contain the following information:		
• The provider's name, address, provider number, and coordinator	X	
• The date and title of the offering, and the presenter or presenters	X	
• The participant's name and license number and the number of contact hours awarded	X	
Each provider shall maintain documentation to verify completion of each independent study offering, if applicable. To verify completion of an independent study offering, the provider shall maintain documentation that includes the following:		
• The provider's name, address, provider number, and coordinator	X	
• The participant's name and license number, and the number of contact hours awarded	X	

• The title of the offering	X	
• The date on which the offering was completed	X	
• Either the completion of a posttest or a return demonstration	X	
Certificate of Attendance/CE Transcript		
A certificate of attendance shall be awarded to each participant after completion of an offering, or a CE transcript shall be provided according to the policies and procedures of the long-term provider	X	
Each certificate and each CE transcript shall be complete before distribution to the participant	X	
Each certificate and each CE transcript shall contain the following information:		
• The provider's name, address and provider number	X	
• The title of the offering	X	
• The date or dates of attendance or completion	X	
• The number of contact hours awarded and, if applicable, the designation of any independent study or instructor contact hours awarded	X	
• The signature of the individual responsible for the providership	Not on template	
• The name and license number of the participant	No license number	
Recordkeeping & Storage		
For each offering, the approved provider shall retain the following for two years:		
• A summary of the planning	X	
• A copy of the offering announcement or brochure	X	
• The title and objectives	X	
• The offering agenda or, for independent study, pilot test results	X	
• A bibliography	X	
• A summary of the participants' evaluations	X	
• Each instructor's education and experiences	X	
• Documentation to verify completion of the offering	X	
The record storage system used shall ensure confidentiality and easy retrieval of records by authorized individuals	X	
Program Evaluation Plan		
For long-term providers, a copy of the total program evaluation plan	X	
Two Proposed Offerings		
The provider shall submit two proposed offerings, including the following:	#1 Epigenetic Leadership	#2 Genetic Effects of

		Chronic Stress
• A summary of planning	X	X
• A copy of the offering announcement or brochure	X	X
• The title and behavioral objectives	X	X
• The offering agenda or, for independent study, pilot test results	X	X
• Each instructor's education and experience	X	X
• A current bibliography	Some 2016	X
• The offering evaluation form	No eval of objectives	No eval of objectives

Providername ~ Sarah E. Jorgensen

providernum ~ ~

legalbody ~ ~

address ~ 526 Main St., PO Box 279

adress2 ~ Brewster, KS 67732

telephone ~ 303-775-3456

email ~ sarah@sejorgensen.com

coordinator ~ Sarah E. Jorgensen

date ~ 11-19-2022

planningce ~ Needs Assessment

1.SEJ Enterprises will assess needs for CNE using informal and/or formal methods including:

a.identifying healthcare facility business needs through formal or informal survey.

b.performing gap analysis through individual interviews, focus groups, surveys, and/or self-assessments.

Assessment of Training Options

1.A list of training options and needs will be generated after the gap analysis has been completed.

2.All options will be carefully evaluated to determine which are:

a.urgent.

b.important.

c.not important.

3.SEJ Enterprises will consider these factors when determining CNE offerings:

a.Does the offering provide a solution to a problem?

b.What is the cost of the training for participants?

- c.What is the expected return on investment for participants?
- d.Does the training assist with meeting legal compliance for individual participants or organizations?
- 4.After all training options have been assessed, SEJ Enterprises will have a list of educational priorities suitable for individuals, departments, and organizations.

Planning of CNE Offerings

- 1.The CNE Program Coordinator will evaluate the list of educational priorities and plan CNE offerings for the upcoming year.
- 2.CNE offerings will be planned and scheduled with consideration of the following:
 - a.Where will the offering be conducted?
 - b.How will the offering be delivered?
 - c.Is the offering suitable to be provided online?
 - d.If the offering already exists, should it continue to be offered?

feeassessment ~ Fee Assessment

- 1.SEJ Enterprises will designate a fee for each CNE offering and publish the fee and refund policy at the time the offering is formally announced.
- 2.The fee for each offering will vary depending on the cost of the speaker(s), venue, advertising, travel expenses, etc.
- 3.The fee for the offering will be collected at the time of registration and will be payable electronically.
- 4.Payment of the fee secures registration for the offering.

Refunds

- 1.If a participant is unable to attend the offering as scheduled, refunds will be issued as follows:
 - a.notice received up to 7 days prior to scheduled event: 100% refund.
 - b.notice received less 7 days prior to scheduled event: 0% refund.
- 2.Refunds will be made within 14 days of receipt of notice.

Insufficient Funds

- 1.SEJ Enterprises will not charge a fee for any payment received that is returned to the organization for insufficient funds. However, SEJ Enterprises is not responsible for any charges incurred by the participant's bank or financial entity as a result of insufficient funds.
- 2.A participant may not attend an offering until fees have been paid in full.

advertisement ~ Advertisements or Announcements

- 1.SEJ Enterprises will advertise or announce CNE offerings in a variety of ways, including:
 - a.internet via website, social media, and email.
 - b.radio.
 - c.television.
 - d.print advertising.

e.mail.

2. Published information shall contain the following statement:

a. SEJ Enterprises is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for ____ contact hours applicable for APRN, RN, or LPN licensure requirements. Kansas State Board of Nursing Provider Number: _____.

approvalprocess ~ Approval Offering

1. Each CNE offering submitted to the CNE Program Coordinator must include:

- a. a summary of planning.
- b. learning objectives.
- c. content that shall meet the definition of CNE in KSA 65-1117(a) which states: continuing nursing education means learning experiences intended to build upon the educational and experiential bases of the registered professional and licensed practical nurse for the enhancement of practice, education, administration, research, or theory development to the end of improving the health of the public.
- d. the instructor's education and experience documenting knowledge/expertise.
- e. a complete bibliography.
- f. an evaluation of the educational offering that includes:
 - i. assessments of learner achievement of each objective and
 - ii. expertise of individual presenters.

contacthours ~ Awarding Contact Hours

1. Participants completing an entire program offering will be awarded 1 contact hour based on 50 minutes of participation in a learning experience.

2. Credit for fractions of an hour will be awarded to those participants who have already completed at least 1 contact hour for a single course offering. Credit for fractions of hours beyond 1 contact hour will be awarded as follows:

- a. 15 minutes – 0.25 contact hour
- b. 30 minutes – 0.50 contact hour
- c. 45 minutes – 0.75 contact hour

3. Instructor credit will be awarded as follows:

a. 2 contact hours for each one hour of first-time presentation of an approved offering, excluding standardized prepared curriculum (e.g. ACLS, PALS, TNCC, ENPC, MANDT, etc.)

4. Independent study credit will be awarded based on time required to complete the offering as documented by SEJ Enterprises' pilot time test results.

a. Pilot test time results will be measured as follows:

- i. A small group of pilot testers representative of the target audience will document time needed by each to complete the offering.
- ii. The Program Coordinator will discard the highest and lowest times, then calculate the average of all remaining times. This calculation will

serve as the independent study credit time.

5.4. Contact hours for clinical hours will not be awarded.

Partial Credit

1. Partial credit will be awarded as follows for late arrival or early departure:

- a. Participants arriving late or leaving early will note and initial either time of late arrival or early departure.
- b. Time for breaks will be subtracted from the total hours the participant was present at the offering.
- c. Total number of minutes attended will be divided by 50 to calculate the number of contact hours to be awarded to participant.

verifycompletion ~ Online Offerings

1. Participants will register for course offerings electronically.
2. Online course settings will not allow participants to advance to post-test and program evaluation without first viewing course content in its entirety.
3. Participants will be required to take a post-test and score 80% or greater to be awarded a Certificate of Continuing Nursing Education or a Certificate of Program Completion.

In-Person Events

1. Participants will register for course offerings electronically.
2. Participants will sign in upon arrival for the event and again after lunch and/or each subsequent day to verify attendance.
3. Participants will complete a program evaluation at the end of the offering.

Independent Study

1. Participants will register for course offerings electronically.
2. Participants will document and email an Independent Study Verification Form to sarah@sejorgensen.com. Documentation will include:
 - a. provider name, address, provider number, name of program coordinator
 - b. title of offering
 - c. date offering completed
 - d. name of presenter(s)
 - e. participant name and signature, email, and license number
3. Participants will be required to take a post-test and score 80% or greater to be awarded a Certificate of Continuing Nursing Education or a Certificate of Program Completion.
 - a. Upon receipt of the Independent Study Verification Form by SEJ Enterprises, participant will receive a link to complete the online post-test for the offering.
 - b. Upon successful completion of the post-test, participants will receive electronically a Certificate of Continuing Nursing Education or a Certificate of Program Completion.
 - c. SEJ Enterprises will document post-test score, contact hours

awarded, and date on the Independent Study Verification Form.
d. The Independent Study Verification Form will then be scanned into the confidential and secure online records storage system to be maintained.

recordkeeping ~ Record-Keeping and Storage

1. SEJ Enterprises will retain the following records for each offering for a period of two years:
 - a. summary of planning
 - b. copy of advertisement or announcement, either digital or hard copy
 - c. course title
 - d. learning objectives
 - e. agenda
 - f. pilot time test results (if independent study)
 - g. complete bibliography
 - h. summary of participant evaluations
 - i. each instructor's education and experience
 - j. documentation to verify completion of the offering

noticeofchange ~ Process for Notifications to Kansas State Board of Nursing

1. The CNE Program Coordinator will notify the Kansas State Board of Nursing within 30 days of any change to:
 - a. CNE Program Coordinator or
 - b. required policies and procedures.
2. Written notification will be mailed to: 900 SW Jackson, Ste. 1051, Topeka, KS 66612-1230

programevaluation ~ Process for Total Program Evaluation

1. The CNE Program Coordinator will complete a total program evaluation at least annually and submit findings in the annual report to the Kansas State Board of Nursing.
2. The total program evaluation will include, per Kansas State Administrative Regulation 60-9-105, "a systematic process by which an approved provider analyzes outcomes of the overall continuing nursing education program in order to make subsequent decisions."
3. The total program evaluation will include evaluation of:
 - a. program administration, including program coordinator's responsibilities.
 - b. program management, including policies and procedures.
 - c. total program evaluation, including the ability of the plan to measure the overall effectiveness of the providership.
4. At least annually SEJ Enterprises will complete a total program evaluation.
5. The CNE Program Coordinator will include the total program evaluation findings with the annual report submitted to the Kansas State Board of Nursing.

Total Program Evaluation Tool
(See attached spreadsheet entitled "CE Evaluation Tool.")

Submission date ~ 11-19-2022 16:38:55
Form ID ~ 1672730

Policy #100: Process of Assessing Need and Planning CNE

Reg. 60-9-107 b (3) (A)

SEJ Enterprises will follow a systematic process for assessing needs and planning CNE offerings.

Date: _____ Reviewed: _____

Needs Assessment

1. *SEJ Enterprises* will assess needs for CNE using informal and/or formal methods including:
 - a. identifying healthcare facility business needs through formal or informal survey.
 - b. performing gap analysis through individual interviews, focus groups, surveys, and/or self-assessments.

Assessment of Training Options

1. A list of training options and needs will be generated after the gap analysis has been completed.
2. All options will be carefully evaluated to determine which are:
 - a. urgent.
 - b. important.
 - c. not important.
3. *SEJ Enterprises* will consider these factors when determining CNE offerings:
 - a. Does the offering provide a solution to a problem?
 - b. What is the cost of the training for participants?
 - c. What is the expected return on investment for participants?
 - d. Does the training assist with meeting legal compliance for individual participants or organizations?
4. After all training options have been assessed, *SEJ Enterprises* will have a list of educational priorities suitable for individuals, departments, and organizations.

Planning of CNE Offerings

1. The CNE Program Coordinator will evaluate the list of educational priorities and plan CNE offerings for the upcoming year.
2. CNE offerings will be planned and scheduled with consideration of the following:
 - a. Where will the offering be conducted?
 - b. How will the offering be delivered?
 - c. Is the offering suitable to be provided online?
 - d. If the offering already exists, should it continue to be offered?

Policy #101: Process for Fee Assessment

Reg. 60-9-107 b (3) (B)

Participants will be aware of the cost of any CNE offering and the process for refunds at the time each offering is announced.

Date: _____ Reviewed: _____

Fee Assessment

1. *SEJ Enterprises* will designate a fee for each CNE offering and publish the fee and refund policy at the time the offering is formally announced.
2. The fee for each offering will vary depending on the cost of the speaker(s), venue, advertising, travel expenses, etc.
3. The fee for the offering will be collected at the time of registration and will be payable electronically.
4. Payment of the fee secures registration for the offering.

Refunds

1. If a participant is unable to attend the offering as scheduled, refunds will be issued as follows:
 - a. notice received up to 7 days prior to scheduled event: 100% refund.
 - b. notice received less 7 days prior to scheduled event: 0% refund.
2. Refunds will be made within 14 days of receipt of notice.

Insufficient Funds

1. *SEJ Enterprises* will not charge a fee for any payment received that is returned to the organization for insufficient funds. However, *SEJ Enterprises* is not responsible for any charges incurred by the participant's bank or financial entity as a result of insufficient funds.
2. A participant may not attend an offering until fees have been paid in full.

Policy #102: Process for Advertisements or Announcements

Reg. 60-9-107 b (3) (C)

CNE offerings will be advertised or announced.

Date: _____ Reviewed: _____

Advertisements or Announcements

1. *SEJ Enterprises* will advertise or announce CNE offerings in a variety of ways, including:
 - a. internet via website, social media, and email.
 - b. radio.
 - c. television.
 - d. print advertising.
 - e. mail.
2. Published information shall contain the following statement:
 - a. *SEJ Enterprises* is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for ____ contact hours applicable for APRN, RN, or LPN licensure requirements. Kansas State Board of Nursing Provider Number: _____.

Policy #103: Process for Offering Approval

Reg. 60-9-107 b (3) (D); 60-9-107 d

SEJ Enterprises will approve offerings using a standardized system to ensure each offering is appropriate.

Date: _____ Reviewed: _____

Approval Offering

1. Each CNE offering submitted to the CNE Program Coordinator must include:
 - a. a summary of planning.
 - b. learning objectives.
 - c. content that shall meet the definition of CNE in KSA 65-1117(a) which states: *continuing nursing education means learning experiences intended to build upon the educational and experiential bases of the registered professional and licensed practical nurse for the enhancement of practice, education, administration, research, or theory development to the end of improving the health of the public.*
 - d. the instructor's education and experience documenting knowledge/expertise.
 - e. a complete bibliography.
 - f. an evaluation of the educational offering that includes:
 - i. assessments of learner achievement of each objective and
 - ii. expertise of individual presenters.

Policy #104: Process for Awarding Contact Hours

Reg. 60-9-107 b (3) (E); 60-9-107 e

SEJ Enterprises will award contact hours to participants for completion of full or partial program offering.

Date: _____ Reviewed: _____

Awarding Contact Hours

1. Participants completing an entire program offering will be awarded 1 contact hour based on 50 minutes of participation in a learning experience.
2. Credit for fractions of an hour will be awarded to those participants who have already completed at least 1 contact hour for a single course offering. Credit for fractions of hours beyond 1 contact hour will be awarded as follows:
 - a. 15 minutes – 0.25 contact hour
 - b. 30 minutes – 0.50 contact hour
 - c. 45 minutes – 0.75 contact hour
3. Instructor credit will be awarded as follows:
 - a. 2 contact hours for each one hour of first-time presentation of an approved offering, excluding standardized prepared curriculum (e.g. ACLS, PALS, TNCC, ENPC, MANDT, etc.)
4. Independent study credit will be awarded based on time required to complete the offering as documented by *SEJ Enterprises'* pilot time test results.
 - a. Pilot test time results will be measured as follows:
 - i. A small group of pilot testers representative of the target audience will document time needed by each to complete the offering.
 - ii. The Program Coordinator will discard the highest and lowest times, then calculate the average of all remaining times. This calculation will serve as the independent study credit time.
5. 4. Contact hours for clinical hours will not be awarded.

Partial Credit

1. Partial credit will be awarded as follows for late arrival or early departure:
 - a. Participants arriving late or leaving early will note and initial either time of late arrival or early departure.
 - b. Time for breaks will be subtracted from the total hours the participant was present at the offering.
 - c. Total number of minutes attended will be divided by 50 to calculate the number of contact hours to be awarded to participant.

Policy #105: Process for Verifying Participation and Completion of the Offering

Reg. 60-9-107 b (3) (F); 60-9-107 f; 60-9-107 g

SEJ Enterprises will verify participation and completion of offerings by participants.

Date: _____ Reviewed: _____

Online Offerings

1. Participants will register for course offerings electronically.
2. Online course settings will not allow participants to advance to post-test and program evaluation without first viewing course content in its entirety.
3. Participants will be required to take a post-test and score 80% or greater to be awarded a Certificate of Continuing Nursing Education or a Certificate of Program Completion.

In-Person Events

1. Participants will register for course offerings electronically.
2. Participants will sign in upon arrival for the event and again after lunch and/or each subsequent day to verify attendance.
3. Participants will complete a program evaluation at the end of the offering.

Independent Study

1. Participants will register for course offerings electronically.
2. Participants will document and email an Independent Study Verification Form to sarah@sejorgensen.com. Documentation will include:
 - a. provider name, address, provider number, name of program coordinator
 - b. title of offering
 - c. date offering completed
 - d. name of presenter(s)
 - e. participant name and signature, email, and license number
3. Participants will be required to take a post-test and score 80% or greater to be awarded a Certificate of Continuing Nursing Education or a Certificate of Program Completion.
 - a. Upon receipt of the Independent Study Verification Form by *SEJ Enterprises*, participant will receive a link to complete the online post-test for the offering.
 - b. Upon successful completion of the post-test, participants will receive electronically a Certificate of Continuing Nursing Education or a Certificate of Program Completion.
 - c. *SEJ Enterprises* will document post-test score, contact hours awarded, and date on the Independent Study Verification Form.
 - d. The Independent Study Verification Form will then be scanned into the confidential and secure online records storage system to be maintained.

Policy #106: Process for Issuing Certificates of Completion

Reg. 60-9-107 b (3) (F); 60-9-107 f; 60-9-107 g

SEJ Enterprises will issue certificates of completion to participants based on verification of participation in offerings.

Date: _____ Reviewed: _____

Issuing Certificates of Completion for Online Offering

1. Participants completing an online offering will be required to take a post-test.
2. A score of 80% or greater is required for issuing a certificate of continuing nursing education.
3. Certificates of Completion will be provided electronically to participants completing online offerings.

Issuing Certificates of Completion for In-Person Offering

1. Participants completing an in-person offering will be required to sign in upon arrival and after lunch for all relevant course days.
2. Certificates of Completion will be provided electronically to those participants with verified participation for each in-person offering.

Policy #107: Process for Record-Keeping and Storage

Reg. 60-9-107 b (3) (G); 60-9-107 h

SEJ Enterprises will retain appropriate records for each offering. These records will be stored electronically and securely, including password protection, in a manner that makes them easily retrievable by authorized personnel.

Date: _____ Reviewed: _____

Record-Keeping and Storage

1. *SEJ Enterprises* will retain the following records for each offering for a period of two years:
 - a. summary of planning
 - b. copy of advertisement or announcement, either digital or hard copy
 - c. course title
 - d. learning objectives
 - e. agenda
 - f. pilot time test results (if independent study)
 - g. complete bibliography
 - h. summary of participant evaluations
 - i. each instructor's education and experience
 - j. documentation to verify completion of the offering

Policy #108: Process for Notice of Change of Coordinator or Required Policies

Reg. 60-9-107 b (3) (H)

The CNE Program Coordinator will notify the Kansas State Board of Nursing in writing of any change to CNE Program Coordinator or required policies and procedures within 30 days.

Date: _____ Reviewed: _____

Process for Notifications to Kansas State Board of Nursing

1. The CNE Program Coordinator will notify the Kansas State Board of Nursing within 30 days of any change to:
 - a. CNE Program Coordinator or
 - b. required policies and procedures.
2. Written notification will be mailed to: (insert address here)

Policy #109: Total Program Evaluation

Reg. 60-9-107 b (3) (I)

SEJ Enterprises will complete a total program evaluation annually and include findings in the annual report to the Kansas State Board of Nursing.

Date: _____ Reviewed: _____

Process for Total Program Evaluation

1. The CNE Program Coordinator will complete a total program evaluation at least annually and submit findings in the annual report to the Kansas State Board of Nursing.
2. The total program evaluation will include, per Kansas State Administrative Regulation 60-9-105, "a systematic process by which an approved provider analyzes outcomes of the overall continuing nursing education program in order to make subsequent decisions."
3. The total program evaluation will include evaluation of:
 - a. program administration, including program coordinator's responsibilities.
 - b. program management, including policies and procedures.
 - c. total program evaluation, including the ability of the plan to measure the overall effectiveness of the providership.
4. At least annually *SEJ Enterprises* will complete a total program evaluation.
5. The CNE Program Coordinator will include the total program evaluation findings with the annual report submitted to the Kansas State Board of Nursing.

Course Evaluation

Course Title: _____

Instructor: _____

Date of course: _____

This course evaluation will take approximately five minutes. Please reflect on your experience in this course and with this instructor.

Responses are anonymous. All feedback and honesty are appreciated.

Question	Agree	Somewhat agree	Neutral	Somewhat disagree	Disagree	N/A
The instructor clearly explained the course materials, process, and agenda.						
The instructor was able to provide clarity if I was confused about something.						
The instructor managed time and pace of the course efficiently.						
The instructor sparked interest in this topic.						
The instructor demonstrated a genuine interest in student learning.						
The instructor demonstrated in-depth knowledge of the subject.						
The methods of evaluation (quizzes, knowledge checks) were fair and consistent throughout the course.						
The instructional materials (videos, graphics, audio, etc.) increased my knowledge in this subject matter.						
The course environment felt welcoming to questions or comments from students.						
This course challenged me to think in new ways.						
I would recommend this course to others.						
I can immediately apply new knowledge to my professional and/or personal life.

Instructor's Education & Experience

Sarah E. Jorgensen – MSN, MS, RN

Education:

- Bachelor of Science in Nursing – Fort Hays State University, 2001
- Master of Science in Organizational Leadership – Colorado State University Global, 2017
- Master of Science in Nursing Administration and Leadership – Capella University, 2020

Experience:

- Emergency RN since 2001
- Clinical nurse educator, emergency department
- Clinical nurse coordinator
- Nurse manager
- Adjunct instructor for nursing
- Online instructor for allied health
- Clinical nursing instructor
- Nursing faculty
- Entrepreneur

Introduction to Epigenetic Leadership

Summary of Planning

Presenter: Sarah E. Jorgensen – MSN, MS, RN

Suggested prerequisite: Genetic Effects of Chronic Stress

Summary of Planning

Much is being learned about how chronic stress can modify the methylation of DNA, resulting in disease phenotypes (Vidrascu, et al, 2019). As a leader, whether your priority is the organizational bottom line or the humans in your charge, your leadership style has implications for both humans and organizations. The ripple effect of your leadership has the potential to lead to epigenetic changes in others if that leadership cultivates an environment of stress for others. Once you learn about some disease processes that can be linked to stress-induced epigenetic changes, you can consider how to use your leadership to define what you care about, understand stressors experienced by others, and change systems and issues that contribute to work-related stress. According to the Oncology Nursing Society, nurses are described as feeling frustrated, exhausted, betrayed, undervalued, stressed, and more (Stone, 2022). This program, Introduction to Epigenetic Leadership, has been developed in response to this identified need to adapt leadership to support nurses, keep them in the profession, and maintain safe practices for patients.

EPIGENETIC LEADERSHIP

A stress-filled, toxic culture extends beyond the workplace. Come find out the potential effects of a leader's words, actions, and behaviors on others' health, as well as workplace culture.

SEJ Enterprises is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering is approved for _____ contact hours

applicable for RN, LPN, or LMHT re-licensure.

Epigenetic Leadership

Objectives

- Examine the relationship between your words, actions, and behaviors and potential epigenetic effects on others.
- Explain the potential implications of your leadership styles.
- Integrate evidence-based self-awareness, self-regulation, and self-transcendence into your leadership.
- Discuss the importance of prioritizing self-leadership before leadership of others.
- Adjust your leadership styles to encompass an epigenetic mindset.
- Re-imagine nursing leadership that considers long-term ripple effects.

Introduction to Epigenetic Leadership

Outline

1. Introduction
2. Science overview
 - a. Review of sympathetic nervous system
 - b. Genetics vs. epigenetics
 - i. Intergenerational effects
 - c. Stress-induced epigenetic evidence
 - i. Immune, nervous, endocrine effects
3. Epigenetic mindset
 - a. All nurses are leaders
 - b. Ripple effect of leadership style on individuals and organizations
 - c. Leadership of self before leadership of others
 - i. Mindfulness model (begin with self)
 1. Self-awareness
 2. Self-regulation
 3. Self-transcendence
 - d. Leadership of others (transcending self)
 - i. Intent vs. impact
 - ii. Trauma-informed communication
 - iii. Trusting others' accounts of stress
 - iv. Managing/leading considerations
4. Going forward
 - a. Define what you care about
 - b. Continual work on self to understand impact on others
 - c. Understand implications of a leader's words, actions, and behaviors
5. Summary

Genetic Effects of Chronic Stress

Summary of Planning

Presenter: Sarah E. Jorgensen – MSN, MS, RN

Summary of Planning

The stresses that are inherent to the human condition, as well as extrinsic stressors, have the potential to modify DNA methylation, which can either activate or de-activate gene expression (Vidrascu, et al, 2019). This ON/OFF function of certain genes can manifest in disease. Humans have a biologic stress response meant to keep us safe, but when that stress response becomes chronically activated, the ripple effect is more than an activation of the sympathetic nervous system. Chronic stress comes in many forms, including social determinants of health, adverse childhood experiences, relationships, and even the workplace. The Future of Nursing 2020-2030 Report directly calls upon the nursing profession to address many of these causes of stress in our patient populations and within the profession itself. This program, Genetic Effects of Chronic Stress, has been developed in response to this identified need.

GENETIC EFFECTS OF CHRONIC STRESS

Everyone experiences stress, but when does it begin to take a genetic toll? Environment, including toxic workplaces, social determinants of health, and relationships, can trigger a ripple effect for you and potentially future generations.

Genetic Effects of Chronic Stress

Objectives

- Identify documented sources of chronic stress in yourself, coworkers, and patients.
- Explain implications for yourself, patients, and coworkers of a chronic-stress environment.
- Utilize evidence-based definition of mindfulness to consider individual contributions to chronic stress in the workplace.
- Re-imagine nursing practice with an intergenerational epigenetic mindset.
- Adopt an epigenetic mindset when interacting with patients, coworkers, and others.

Genetic Effects of Chronic Stress

Outline

1. Introduction
2. Science overview
 - a. Review of sympathetic nervous system
 - b. Genetics vs. epigenetics
 - c. Stress-induced epigenetic evidence
 - i. Immune, nervous, endocrine effects
3. How does this affect patients?
 - a. Types of chronic stress patients experience
 - b. Considerations of cumulative stress
 - c. Adopting an equity mindset
 - i. Review equality vs. equity
 - d. Adapting your care model
4. How does this affect nurses?
 - a. Types of chronic stress nurses experience
 - b. Considerations of cumulative stress
 - c. Adopting an equity mindset
 - d. Adapting your self-care
5. Going forward
 - a. Expectations of yourself
 - b. Expectations of your leaders
 - c. Advocacy
 - i. Consider local workplace
 - ii. Consider nursing profession at large

Carol,

I believe these are the missing documents for my CNE application. However, I do have a question about the bullet point 3A (A summary of planning). Is this item its own document, or was this meant to be the heading for all these supporting documents? If it is its own document, can you offer some clarity on what exactly should be included? Thank you so much. I appreciate your grace in my overlooking these details.

Carol,

Thank you for reviewing these materials and for letting me know what's missing. I will submit the required documents via email within the next two weeks.

Sarah,

I have reviewed the application you submitted and it is incomplete. It is missing the following information:

1. Template for CE attendance roster
2. Template for certificate of attendance
3. You did not submit the following for two proposed offerings (as per the directions)
 - a. A summary of planning
 - b. A copy of the offering announcement or brochure
 - c. The title and behavioral objectives
 - d. The offering agenda or, for independent study, pilot test results
 - e. Each instructor's education and experience
 - f. A current bibliography
 - g. The offering evaluation form

You can email all this information to me or you can submit another application that is complete. It is up to you. Please review the directions closely so the application is complete. I will not take an incomplete application to committee and board to review. This will not go until March 2023 because of the date we received it.

Let me know whether you will be resubmitting a complete application or emailing the missing information to me. Please let me know if you have questions.

Carol Moreland, MSN, RN

65-1119. Schools of nursing; approval; approval of providers of continuing education offerings; application fee; criteria for evaluating out-of-state schools; nationally accredited schools of nursing. (a) *Application for approval.* An approved school of nursing is one which has been approved as such by the board as meeting the standards of this act, and the rules and regulations of the board. An institution desiring to conduct an approved school of professional or practical nursing shall apply to the board for approval and submit satisfactory proof that it is prepared to and will maintain the standards and basic professional nursing curriculum or the required curriculum for practical nursing, as the case may be, as prescribed by this act and by the rules and regulations of the board. Applications shall be made in writing on forms supplied by the board and shall be submitted to the board together with the application fee fixed by the board. The approval of a school of nursing shall not exceed 10 years after the granting of such approval by the board. An institution desiring to continue to conduct an approved school of professional or practical nursing shall apply to the board for the renewal of approval and submit satisfactory proof that it will maintain the standards and basic professional nursing curriculum or the required curriculum for practical nursing, as the case may be, as prescribed by this act and by the rules and regulations of the board. Applications for renewal of approval shall be made in writing on forms supplied by the board. Each school of nursing shall submit annually to the board an annual fee fixed by the board by rules and regulations to maintain the approval status.

(b) *Schools for professional nurses.* To qualify as an approved school for professional nurses, the school must be conducted in the state of Kansas, and shall apply to the board and submit evidence that: (1) It is prepared to carry out the professional curriculum as prescribed in the rules and regulations of the board; and (2) it is prepared to meet such other standards as shall be established by this law and the rules and regulations of the board.

(c) *Schools for practical nurses.* To qualify as an approved school for practical nurses, the school must be conducted in the state of Kansas, and shall apply to the board and submit evidence that: (1) It is prepared to carry out the curriculum as prescribed in the rules and regulations of the board; and (2) it is prepared to meet such other standards as shall be established by this law and the rules and regulations of the board.

(d) *Survey.* The board shall prepare and maintain a list of approved schools for both professional and practical nurses whose graduates, if they have the other necessary qualifications provided in this act, shall be eligible to apply for a license as a registered professional nurse or as a licensed practical nurse. A survey of the institution or institutions and of the schools applying for approval shall be made by an authorized employee of the board or members of the board, who shall submit a written report of the survey to the board. If, in the opinion of the board, the requirements as prescribed by the board in its rules and regulations for an approved school for professional nurses or for practical nurses are met, it shall so approve the school as either a school for professional nurses or practical nurses, as the case may be. The board shall resurvey approved schools on a periodic basis as determined by rules and regulations. If the board determines that any approved school of nursing is not maintaining the standards required by this act and by rules and regulations prescribed by the board, notice thereof in writing, specifying the failures of such school, shall be given immediately to the school. A school which fails to correct such conditions to the satisfaction of the board within a reasonable time shall be removed from the list of approved schools of nursing until such time as the school shall comply with the standards. All approved schools shall maintain accurate and current records showing in full the theoretical and practical courses given to each student.

(e) *Providers of continuing nursing education.* (1) To qualify as an approved provider of continuing nursing education offerings, persons, organizations or institutions proposing to provide such continuing nursing education offerings shall apply to the board for approval and submit evidence that the applicant is prepared to meet the standards and requirements established by the rules and regulations of the board for such continuing nursing education offerings. Initial applications shall be made in writing on forms supplied by the board and shall be submitted to the board together with the application fee fixed by the board.

(2) A long-term provider means a person, organization or institution that is responsible for the development, administration and evaluation of continuing nursing education programs and offerings. Qualification as a long-term approved provider of continuing nursing education offerings shall expire five years after the granting of such approval by the board. An approved long-term provider of continuing nursing education offerings shall submit annually to the board the annual fee established by rules and regulations, along with an annual report for the previous fiscal year. Applications for renewal as an approved long-term provider of continuing nursing education offerings shall be made in writing on forms supplied by the board.

(3) Qualification as an approved provider of a single continuing nursing education offering, which may be offered once or multiple times, shall expire two years after the granting of such approval by the board. Approved single continuing nursing education providers shall not be subject to an annual fee or annual report.

(4) In accordance with rules and regulations adopted by the board, the board may approve individual educational offerings for continuing nursing education which shall not be subject to approval under other subsections of this section.

(5) The board shall accept offerings as approved continuing nursing education presented by: Colleges that are approved by a state or the national department of education and providers approved by other state boards of nursing, the national league for nursing, the national federation of licensed practical nurses, the American nurses credentialing center or other such national organizations as listed in rules and regulations adopted by the board.

(6) An individual designated by a provider of continuing nursing education offerings as an individual responsible for CNE who has held this position for the provider at least five years immediately prior to January 1, 1997, shall not be required to have a baccalaureate or higher academic degree in order to be designated by such provider as the individual responsible for CNE.

(f) *Criteria for evaluating out-of-state schools.* For the purpose of determining whether an applicant for licensure who is a graduate of a school of professional or practical nursing located outside this state meets the requirements of item (2) of subsection (a) of K.S.A. 65-1115 and amendments thereto or the requirements of item (2) of subsection (a) of K.S.A. 65-1116 and amendments thereto, as appropriate, the board by rules and regulations shall establish criteria for determining whether a particular school of professional nursing located outside this state maintains standards which are at least equal to schools of professional nursing which are approved by the board and whether a particular school of practical nursing located outside this state maintains standards which are at least equal to schools of practical nursing which are approved by the board. The board may send a questionnaire developed by the board to any school of professional or practical nursing located outside this state for which the board does not have sufficient information to determine whether the school meets the standards established under this subsection (f). The questionnaire providing the necessary information shall be completed and returned to the board in order for the school to be considered for approval. The board may contract with investigative agencies, commissions or consultants to assist the board in obtaining information about schools. In entering such contracts the authority to approve schools shall remain solely with the board.

(g) The board may accept nationally accredited schools of nursing as defined in rule and regulation.

(1) Schools of nursing which have received accreditation from a board recognized national nursing accreditation agency shall file evidence of initial accreditation with the board and shall file all reports from the accrediting agency and any notice of any change in school accreditation status. The board may grant approval based upon evidence of such accreditation.

(2) Schools of nursing holding approval based upon national accreditation are also responsible for complying with all other requirements as determined by rules and regulations of the board.

(3) The board may grant approval to a school of nursing with national accreditation for a continuing period not to exceed 10 years.

60-16-102. Scope of practice for licensed practical nurse performing intravenous fluid therapy. (a) A licensed practical nurse under the supervision of a registered professional nurse may engage in a limited scope of intravenous fluid treatment, including the following:

- (1) Monitoring;
 - (2) maintaining basic fluids;
 - (3) discontinuing intravenous flow and an intravenous access device not exceeding three inches in length in peripheral sites only; and
 - (4) changing dressings for intravenous access devices not exceeding three inches in length in peripheral sites only.
- (b) Any licensed practical nurse who has met one of the requirements under K.S.A. 65-1136, and amendments thereto, may perform, in addition to the functions specified in subsection (a) of this regulation, the following procedures relating to the expanded administration of intravenous fluid therapy under the supervision of a registered professional nurse:
- (1) Calculating;
 - (2) adding parenteral solutions to existing patent central and peripheral intravenous access devices or administration sets;
 - (3) changing administration sets;
 - (4) inserting intravenous access devices that meet these conditions:
 - (A) Do not exceed three inches in length; and
 - (B) are located in peripheral sites only;
 - (5) adding designated premixed medications to existing patent central and peripheral intravenous access devices or administration sets either by continuous or intermittent methods;
 - (6) maintaining the patency of central and peripheral intravenous access devices and administration sets with medications or solutions as allowed by policy of the facility;
 - (7) changing dressings for central venous access devices;
 - (8) administering continuous intravenous drip analgesics and antibiotics; and
 - (9) performing the following procedures in any facility having continuous on-site registered professional nurse supervision:
 - (A) Admixing intravenous medications; and
 - (B) administering by direct intravenous push any drug in a drug category that is not specifically listed as a banned drug category in subsection (c), including analgesics, antibiotics, antiemetics, diuretics, and corticosteroids, as allowed by policy of the facility.
- (c) A licensed practical nurse shall not perform any of the following:
- (1) Administer any of the following by intravenous route:
 - (A) Blood and blood products, including albumin;
 - (B) investigational medications;
 - (C) anesthetics, anxiolytic agents, biological therapy, serums, hemostatics, immunosuppressants, muscle relaxants, human plasma fractions, oxytocics, sedatives, tocolytics, thrombolytics, anticonvulsants, cardiovascular preparations, antineoplastics agents, hematopoietics, autonomic drugs, and respiratory stimulants;
 - (D) intravenous fluid therapy in the home health setting, with the exception of the approved scope of practice authorized in subsection (a); or
 - (E) intravenous fluid therapy to any patient under the age of 12 or any patient weighing less than 80 pounds, with the exception of the approved scope of practice authorized in subsection (a);
 - (2) initiate total parenteral nutrition or lipids;
 - (3) titrate medications;
 - (4) draw blood from a central intravenous access device;
 - (5) remove a central intravenous access device or any intravenous access device exceeding three inches in length; or
 - (6) access implantable ports for any purpose.
- (d) Licensed practical nurses qualified by the board before June 1, 2000 may perform those activities listed in subsection (a) and paragraph (b)(9)(A) regardless of their intravenous therapy course content on admixing.
- (e) This regulation shall limit the scope of practice for each licensed practical nurse only with respect to intravenous fluid therapy and shall not restrict a licensed practical nurse's authority to care for patients receiving this therapy. (Authorized by and implementing K.S.A. 65-1136; effective Nov. 21, 1994; amended Dec. 13, 1996; amended June 12, 1998; amended Oct. 29, 1999; amended Jan. 24, 2003; amended May 18, 2012; amended Oct. 18, 2013.)
