**RN and LPN SCOPE of PRACTICE:
Components of Nursing Comparison Chart**

By law, the scope of practice for the registered nurse (RN) and the licensed practical nurse (LPN) differs. The RN functions at an independent level while the LPN functions at a dependent level. This chart provides a general comparison only. Standards of care set minimum criteria for competency and may be defined by nursing associations, accrediting organizations, nurse practice acts, and facility policy and procedures.

ANA Competencies - ANA Standards of Practice (1 – 6)	RN Scope of Practice <i>Independent role</i>	LPN Scope of Practice <i>Dependent role</i>
