Unfinished Business:

Prescription Monitoring Program (PMP) Committee Report:

Bobbe Mansfield reported that the KTRACS committee meets quarterly and met recently. The emphasis seems to be on the fact it's a state by state initiative and some boarding states which include primarily Missouri do not have a statewide program. There is some limitation in the sharing of information with our boarding states. There has been improvement with Nebraska.

The relevancy of that program continues to be in the front as we look at repercussion from Opioid use across the country. Committee is looking at extending the number of providers that routinely use the program and continue to encourage access to the Prescription Monitoring Program before refilling or prescribing controlled substance.

Carol Moreland discussed the press release that was in the onsite packet that announced the statewide integration of the Prescription Drug Monitoring Program which would enable a single sign-on for access to a patient's medical record and prescription history.

Follow up on NCSBN APRN Roundtable Discussion:
APRN Certification Task Force:
KAPN 2018 legislation:

Michelle Knowles reported that the Kansas Advanced Practice nurses will present a new bill in January. It's very similar to the last bill. It will still have the transition to practice for 2000 hours for anyone wanting to prescribe, requirement of national certification, requirement of malpractice and definition of APRN practice.

Nurse Midwife Council Report:

Cara Busenhart reported that the Nurse Midwife Council has not met with the Kansas State Board of Healing Arts since December, 2016. They do have a meeting scheduled for 2:00 p.m. on Thursday, September 14, 2017.
