- PMP Committee Report:** Bobbe Mansfield, DNP, FNP-BC reported on the Prescription Monitoring Program (PMP) Committee. In previous reports this referred to KTRACS and how APRN interfaced with the data collection system. Funding continues to be an issued as PMP is the wave of the future nationwide. There has been discussion on creating data that would be meaningful for guiding practice on three levels 1) recognizing patients who may be having outlining behavior and what to do about that; 2) prescribers who may be performing outside of guidelines; 3) media impact with reality and

hype concerning the opioid epidemic. Meetings have included a KBI representative to discuss what to do if a patient is referred.

Nurse Midwife Council: Cara Busenhardt, MSN, CNM, APRN reported on the Nurse Midwife Council. Cara was asked to represent the Board of Nursing along with staff Diane Glynn, JD, RN, Practice Specialist to meet with Tucker Poling, General Counsel, Kansas State Board of Healing Arts (KSBHA), Colleen, KSBHA and Dr. Chad Johanning, MD, KSBHA Certified Nurse Midwife Council. Cara still has concerns that only a few topics were being discussed which was regulations governing ordering of tests, diagnostic services, prescribing drugs and referral or transfer to physicians by CNM-I licensees. After discussions it was decided that Tucker would bring the BOHA CNM-I Regulations to the APRN Committee and to the full Board for approval. The consensus of the APRN Committee is to conduct a roll call vote of the BOHA CNM-I Regulations at the September 12, 2018 Board meeting.
