ADVANCED PRACTICE REGISTERED NURSE STATUTES

65-1130. Advance practice registered nurse; standards and requirements for licensure; rules and regulations; roles, titles and abbreviations; prescription of drugs authorized; licensure of currently registered individuals.

(a) No professional nurse shall announce or represent to the public that such person is an advanced practice registered nurse unless such professional nurse has complied with requirements established by the board and holds a valid license as an advanced practice registered nurse in accordance with the provisions of this section.

(b) The board shall establish standards and requirements for any professional nurse who desires to obtain licensure as an advanced practice registered nurse. Such standards and requirements shall include, but not be limited to, standards and requirements relating to the education of advanced practice registered nurses. The board may give such examinations and secure such assistance as it deems necessary to determine the qualifications of applicants.

(c) The board shall adopt rules and regulations applicable to advanced practice registered nurses which:
(1) Establish roles and identify titles and abbreviations of advanced practice registered nurses which are consistent with nursing practice specialties recognized by the nursing profession.

(2) Establish education and qualifications necessary for licensure for each role of advanced practice registered nurse established by the board at a level adequate to assure the competent performance by advanced practice registered nurses of functions and procedures which advanced practice registered nurses are authorized to perform. Advanced practice registered nursing is based on knowledge and skills acquired in basic nursing education, licensure as a registered nurse and graduation from or completion of a master's or higher degree in one of the advanced practice registered nurse roles approved by the board of nursing.

(3) Define the role of advanced practice registered nurses and establish limitations and restrictions of such role. The board shall adopt a definition of the role under this paragraph which is consistent with the education and qualifications required to obtain a license as an advanced practice registered nurse, which protects the public from persons performing functions and procedures as advance practice registered nurses for which they lack adequate education and qualifications and which authorizes advanced practice registered nurses to perform acts generally recognized by the profession of nursing as capable of being performed, in a manner consistent with the public health and safety, by persons with postbasic education in nursing. In defining such role the board shall consider:
(A) The education required for a license as an advanced practice registered nurse;
(B) the type of nursing practice and preparation in specialized advanced practice skills involved in each role of advanced practice registered nurse established by the board;
(C) the scope and limitations of advanced practice nursing prescribed by national advanced practice organizations; and
(D) acts recognized by the nursing profession as appropriate to be performed by persons with postbasic education in nursing.

(d) An advanced practice registered nurse may prescribe drugs pursuant to a written protocol as authorized by a responsible physician. Each written protocol shall contain a precise and detailed medical plan of care for each classification of disease or injury for which the advanced practice registered nurse is authorized to prescribe and shall specify all drugs which may be prescribed by the advanced practice registered nurse. Any written prescription order shall include the name, address and telephone number of the responsible physician. The advanced practice registered nurse may not dispense drugs, but may request, receive and sign for professional samples and may distribute professional samples to patients pursuant to a written protocol as authorized by a responsible physician. In order to prescribe controlled substances, the advanced practice registered nurse shall:
(1) register with the federal drug enforcement administration; and
(2) notify the board of the name and address of the responsible physician or physicians. In no case shall the scope of authority of the advanced practice registered nurse exceed the normal and customary practice of the responsible physician. An advanced practice registered nurse certified in the role of registered nurse anesthetist while functioning as a registered nurse anesthetist under K.S.A. 65-1151 to 65-1164, and amendments thereto, shall be subject to the provisions of K.S.A. 65-1151 and 65-1164, and amendments thereto, with respect to drugs and anesthetic agents and shall not be subject to the provisions of this subsection. For the purposes of this subsection, "responsible physician" means a person licensed to practice medicine and surgery in Kansas who has accepted responsibility for the protocol and the actions of the advanced practice registered nurse when prescribing drugs.

(e) As used in this section, "drug" means those articles and substances defined as drugs in K.S.A. 65-1626 and 65-4101, and amendments thereto.

(f) A person registered to practice as an advanced registered nurse practitioner in the state of Kansas immediately prior to the effective date of this act shall be deemed to be licensed to practice as an advanced practice registered nurse under this act and such person shall not be required to file an original application for licensure under this act. Any application for registration filed which has not been granted prior to the effective date of this act shall be processed as an application for licensure under this act.

(g) An advanced practice registered nurse certified in the role of certified nurse-midwife and engaging in the independent practice of midwifery under the independent practice of midwifery act with respect to prescribing drugs shall be subject to the provisions of the independent practice of midwifery act and shall not be subject to the provisions of the section.

65-1131. Advance practice registered nurse; licensure; fees; license with temporary permit; exempt license; inactive license.
(a)(1) Licensure. Upon application to the board by any professional nurse in this state and upon satisfaction of the standards and requirements established by the board under K.S.A. 65-1130, and amendments
thereto, the board may issue a license to such applicant authorizing the applicant to perform the duties of an advance practice registered nurse as defined by the board under K.S.A. 65-1130, and amendments thereto.

(2) The board may issue a license to practice nursing as an advance practice registered nurse to an applicant who has been duly licensed or certified as an advance practice registered nurse under the laws of another state or territory if, in the opinion of the board, the applicant meets the licensure qualifications required of an advance practice registered nurse in this state. Verification of the applicant’s licensure or certification status shall be required from the original state of licensure or certification.

(3) An application to the board for a license, a license with temporary permit, renewal of a license and reinstatement of a license shall be upon such form and contain such information as the board may require and shall be accompanied by a fee, to be established by rules and regulations adopted by the board, to assist in defraying the expenses in connection with the issuance of licenses as advance practice registered nurses, in an amount fixed by the board under K.S.A. 65-1118, and amendments thereto.

(4) An application for initial licensure or endorsement will be held awaiting completion of meeting qualifications for a time period specified in rules and regulations.

(b) The board may grant a one-time temporary permit to practice as an advance practice registered nurse for a period of not more than 180 days pending completion of the application for a license.

(c) Exempt license. The board may issue an exempt license to any advance practice registered nurse as defined in rules and regulations who makes written application for such license on a form provided by the board, who remits a fee as established pursuant to K.S.A. 65-1118, and amendments thereto, and who is not regularly engaged in advanced practice registered nursing practice in Kansas but volunteers advanced practice registered nursing services or is a charitable health care provider as defined by K.S.A. 75-6102, and amendments thereto. Each exempt advance practice registered nurse shall be subject to all provisions of the nurse practice act. Each exempt license may be renewed biennially subject to the provisions of this section. To convert an exempt license to an active license, the exempt advance practice registered nurse shall meet all the requirements of subsection (a) or K.S.A. 65-1132, and amendments thereto.

(d) Inactive license. The board may issue an inactive license to any advanced practice registered nurse as defined in rules and regulations who makes written application for such license on a form provided by the board, who remits a fee as established pursuant to K.S.A. 65-1118, and amendments thereto, and who is not regularly engaged in advanced practice registered nursing in Kansas. The holder of an inactive license shall not be required to submit evidence of satisfactory completion of a program of continuing education required by K.S.A. 65-1117 and 65-1132, and amendments thereto. An inactive license shall not entitle the holder to engage in advanced practice registered nursing in this state. Each inactive license may be renewed subject to the provisions of this section. An inactive licensee may apply for a license to regularly engage in advanced practice registered nursing upon filing a written reinstatement application with the board. The application shall be on a form provided by the board and shall be accompanied by the license fee established pursuant to K.S.A. 65-1118, and amendments thereto. An applicant for a license to practice as an advanced practice registered nurse who has not been licensed to practice advanced practice registered nursing for five years preceding application shall be required to successfully complete a refresher course as defined by the board. The board shall by rules and regulations establish appropriate continuing education requirements for inactive licensees to become licensed to regularly engage in advanced practice registered nursing in this state. An advanced practice registered nurse who has been granted an inactive license pursuant to this subsection shall be exempt from the requirements of K.S.A. 40-3402 and 40-3404, and amendments thereto.

(e) The board shall have authority to write rules and regulations to carry out the provisions of this section.

(a) All licenses issued under the provisions of this act, whether initial or renewal, shall expire every two years. The expiration date shall be established by rules and regulations of the board. The board shall send a notice for renewal of a license to every advance practice registered nurse at least 60 days prior to the expiration date of such person’s license. Every person who desires to renew such license shall file with the board, on or before the date of expiration of such license:

(1) A renewal application together with the prescribed biennial renewal fee;
(2) evidence of completion of continuing education in the advanced practice registered nurse role, which has met the continuing education requirement for an advanced practice registered nurse as developed by the
board or by a national organization whose certifying standards are approved by the board as equal to or greater than the corresponding standards established by the board. These continuing education credits approved by the board may be applied to satisfy the continuing education requirements established by the board for licensed professional nurses under K.S.A. 65-1117, and amendments thereto, if the board finds such continuing education credits are equivalent to those required by the board under K.S.A. 65-1117, and amendments thereto; and

(3) proof of evidence of current license as a professional nurse.

Upon receipt of such application and payment of any applicable fee, and upon being satisfied that the applicant for renewal of a license meets the requirements established by the board under K.S.A. 65-1130, and amendments thereto, in effect at the time of initial qualification of the applicant, the board shall verify the accuracy of the application and grant a renewal license.

(b) Any person who fails to secure a renewal license prior to the expiration of the license may secure a reinstatement of such lapsed license by making application therefor on a form provided by the board, upon furnishing proof that the applicant is competent and qualified to act as an advance practice registered nurse and upon satisfying all of the requirements for reinstatement including payment to the board of a reinstatement fee as established by the board.

(a) The board shall send a notice for renewal of license to all licensed mental health technicians at least 60 days prior to the expiration date of December 31. Every mental health technician who desires to renew a license shall file with the board, on or before December 31 of even-numbered years, a renewal application together with the prescribed renewal fee. Every licensee who is no longer engaged in the active practice of mental health technology may so state by affidavit and submit such affidavit with the renewal application. An inactive license may be requested along with payment of a fee as determined by rules and regulations of the board.

Except for the first renewal for a license that expires within 30 months following licensure examination or for renewal of a license that expires within the first nine months following licensure by reinstatement or endorsement, every licensee with an active mental health technology license shall submit with the renewal application evidence of satisfactory completion of a program of continuing education required by the board. The board by duly adopted rules and regulations shall establish the requirements for such program of continuing education. Continuing education means learning experiences intended to build upon the educational and experiential bases of the licensed mental health technician for the enhancement of practice, education, administration, research or theory development to the end of improving the health of the public.

Upon receipt of such application and evidence of satisfactory completion of the required program of continuing education and upon being satisfied that the applicant meets the requirements set forth in K.S.A. 65-4203, and amendments thereto, in effect at the time of initial licensure of the applicant, the board shall verify the accuracy of the application and grant a renewal license.

(b) Any licensee who fails to secure a renewal license within the time specified may secure a reinstatement of such lapsed license by making verified application therefor on a form prescribed by the board together with the prescribed reinstatement fee and, satisfactory evidence as required by the board that the applicant is presently competent and qualified to perform the responsibilities of a mental health technician and of satisfying all the requirements for reinstatement. A reinstatement application for licensure will be held awaiting completion of such documentation as may be required, but such application shall not be held for a period of time in excess of that specified in rules and regulations.

(c) (1) Each licensee shall notify the board in writing of
(A) a change in name or address within 30 days of the change or

Also, for the purposes of this subsection, a forfeiture of bail, bond or collateral deposited to secure a defendant's appearance in court, which forfeiture has not been vacated, shall be equivalent to a conviction. Applications for renewal of approval shall be made in writing on forms
supplied by the board. Each institution offering a course of mental health technology shall submit annually to the board an annual fee fixed by the board by rules and regulations to maintain approval status.

If the board determines that any previously approved course is not maintaining the content required by this act and by the rules and regulations prescribed, a notice thereof shall be given immediately to the institution specifying the nature and extent of the deficiency. A failure to correct such condition or conditions to the satisfaction of the board within one year following the notice shall cause the course to be removed from the master list of approved courses on mental health technology. Personnel conducting approved courses shall maintain accurate and current records showing in full the theoretical and practical instruction given to all students.
