- Atty Gen Response:** Jan Arndt provided her response to the CE Broker. Based on the review of CE Broker’s contracts with other states, the use of this provider may violate state law in that KSBN would be required to send licensee’s information to CE Broker (including name, license number and contact information). This information could be used for solicitation purposes, which is a violation under KORA. Contract may violate state law -the Board would have to send all the licensee’s, names, license number & contact information; contact information is probably for a marketing strategy (could be used for solicitation).
