December 2014 CNE Committee

The December CNE Committee was called to order December 9, 2014 at 8:45 a.m. in room 560 of the Landon State Office Building in Topeka by Judy Hiner, Chair. Agenda was amended to move the four LTP 5 year renewals under Unfinished Business to New Business. The minutes from the September 2014 meeting were approved as drafted.

D. Glynn reported IOAs were denied for being incomplete, submitted outside of renewal period, and did not meet the definition of CNE. Committee directed Board staff to create an instruction document that the Board can place on the website to assist individuals with the submission of their IOAs.

The following long term provider applications were approved pending submission of missing documents:

KSBN will not be giving credit for BLS (Basic Life Support) as the committee re-reviewed regulation 60-9-106(e)(2) BLS is basic prep at the level of current licensure. ANCC also gives credit for in-services and KSBN does not, as it is basic and not designed to meet the Kansas definition of CNE.

A uniform roster sample was reviewed and it was recommended to make it available to all IV therapy providers. It will help standardize the information reported by providers.

December Finance Committee

Blubaugh introduced Jennifer Ouellette the agencies new budget analyst. The minutes of the September 17, 2014 Finance Committee were approved as written. KSBN had only one KORA request for this quarter which means there was not enough information to analyze the fees. The staff will continue to collect the information and bring back in March if there are more requests.

M. Blubaugh reported that the fee fund balance will go down due to the reduction of fees. The preliminary budget was approved for FY16 and FY17. There is a 4% budget reduction for the last months of FY15 for the state general fund agencies, but the fee fund agencies did not have a reduction.

A. Guerrero reported that he may need onsite vendor assistance with the upgrade and migration to our licensure system. It was moved to authorize expenditures up to $15,000 for vendor support for the upgrade and migration of license application.

What is KNAP?
KNAP is a professional assistance program designed to assist all nurses and mental health technicians who have a problem or illness that has or could impair their ability to practice safely.

The Goal of KNAP
Mental and physical illness, including alcohol and other drug addiction, can potentially impair practice and health. We estimate that at any given time, approximately 10% of the population is affected. This same percentage is thought to be true of healthcare professionals. Alcohol and other drug addiction, as well as mental and physical illnesses, are treatable.

KNAP works with the program participants to obtain an evaluation, treatment (if indicated), and monitoring throughout the recovery process.

Referrals
Self-referrals to the program are encouraged, but referrals may be made by a family member, a friend, employer or anyone concerned about the nurse/LMHT. Anonymous referrals are not accepted. A person may call for information or advice without giving their name, however. Referrals may be made by calling 913-236-7575.

KNAP Providers
• Confidential services to Kansas RNs, LPNs, and LMHTs experiencing problems and illnesses which could lead to impaired practice.
• Interventions, assessments, referrals for evaluation and treatment (if indicated.)
• On-going monitoring through random urine drug screens, contact with employers and monthly groups.

Causes for Concern
Job Function
• Narcotics discrepancies, e.g.: incorrect counts, alteration of narcotic containers, increased patient reports of ineffective pain control, discrepancies on records or frequent corrections of records, unusual amounts of narcotics wasted, significant variations in the quantity of narcotics ordered for technician's unit or shift.
• Fluctuations in the quality of work performance.
• Irresponsible behavior from someone previously conscientious and responsible.
• Requests to work shifts that are the least supervised.
• Inordinate interest in patients' pain control medications.

Behavior
• Increasing isolation from colleagues, friends and family and avoiding social activities.
• Complaints from others about work performance or alcohol or drug use.
• Mood swings, irritability or depression, or suicide threats or attempts, perhaps caused by accidental overdose.

Physical Symptoms
• Obvious intoxication such as swaying, staggering or slurred speech.
• Odor of alcohol on breath or the excessive use of breath-fresheners or perfume to disguise the odor of alcohol.

KNAP is supported by funds from the Board of Nursing and, in small part, by fees charged to the participants.
