The summary of all denied IOAs was reviewed without further discussion.

K.A.R. 60-9-107 – Language revisions were reviewed and discussed. It was moved to approved K.A.R. 60-9-107 as revised without adding Kansas to the language in (c)(1) (A) & (c)(2)(A).

What is KNAP?

KNAP is a professional assistance program designed to assist all nurses and mental health technicians who have a problem or illness that has or could impair their ability to practice safely.

The Goal of KNAP

Mental and physical illness, including alcohol and other drug addiction, can potentially impair practice and health. We estimate that at any given time, approximately 10% of the population is affected. This same percentage is thought to be true of healthcare professionals.

Alcohol and other drug addiction, as well as mental and physical illnesses, are treatable. KNAP works with the program participants to obtain an evaluation, treatment (if indicated), and monitoring throughout the recovery process.

Referrals

Self-referrals to the program are encouraged, but referrals may be made by a family member, a friend, employer or anyone concerned about the nurse/LMHT. Anonymous referrals are not accepted. A person may call for information or advice without giving their name, however. Referrals may be made by calling 913-236-7575.

KNAP Providers

- Confidential services to Kansas RNs, LPNs, and LMHTs experiencing problems and illnesses which could lead to impaired practice.
- Interventions, assessments, referrals for evaluation and treatment (if indicated.)
- On-going monitoring through random urine drug screens, contact with employers and monthly groups.

Causes for Concern

Job Function

- Narcotics discrepancies, e.g.: incorrect counts, alteration of narcotic containers, increased patient reports of ineffective pain control, discrepancies on records or frequent corrections of records, unusual amounts of narcotics wasted, significant variations in the quantity of narcotics ordered for technician’s unit or shift.
- Fluctuations in the quality of work performance.
- Irresponsible behavior from someone previously conscientious and responsible.
- Requests to work shifts that are the least supervised.
- Inordinate interest in patients’ pain control medications.

Behavior

- Increasing isolation from colleagues, friends and family and avoiding social activities.
- Complaints from others about work performance or alcohol or drug use.
- Mood swings, irritability or depression, or suicide threats or attempts, perhaps caused by accidental overdose.

Physical Symptoms

- Obvious intoxication such as swaying, staggering or slurred speech.
- Odor of alcohol on breath or the excessive use of breath-fresheners or perfume to disguise the odor of alcohol.

KNAP is supported by funds from the Board of Nursing and, in small part, by fees charged to the participants.

CNE Guidelines for Advanced Practice Nurses

60-11-113(b) reads “License renewal. On and after January 1, 2013, each individual renewing a license shall have completed the required 30 contact hours of approved continuing nursing education (CNE) related to the advanced practice role during the most recent prior license period. Proof of completion of 30 contact hours of approved CNE in the advanced practice nurse role may be requested by the board.”

Guidelines for advanced practice nurses seeking continuing nursing education offerings:

Compare the course learning objectives/outcomes for any course you are considering with the definition of Continuing Nursing Education:

Continuing nursing education means a learning experience intended to build upon the educational and experiential bases of the advanced practice nurse for the enhancement of practice, education, administration, research or theory development to the end of improving the health of the public.

• Is the course designed to provide new knowledge or enhance current knowledge and/or skills in your advanced practice role, to assist you in improving the health of the public?

• Is the course designed to provide you with the skills and/or knowledge to provide innovative changes supported by research and theory within your advanced practice role, to assist you in improving the health of the public?

• Is the course designed to provide you with new and developing standards of practice within your advanced practice role, to assist you in improving the health of the public?

• Is the course designed to assist you within your role by advancing your clinical decision making skills, to assist you in improving the health of the public?

If the course learning objectives meet the above criteria, then the offering is appropriate for advance practice continuing nursing education.

Guidelines for approved CNE offerings:

65-1119(5) “The board shall accept offerings as continuing nursing education presented by: Colleges that are approved by a state or national department of education and providers approved by other state boards of nursing, the national league for nursing, the national federation of licensed practical nurses, the American nurse credentialing center, or other such national organizations as listed in the rules and regulations adopted by the board.”

PLEASE NOTE:

• All college courses must be submitted and approved by the Individual Offering Approval (IOA) process, prior to renewal of license.

• CME’s are continuing medical education (not continuing nursing education) and must be submitted and approved by the Individual Offering Approval (IOA) process, prior to renewal of license.

• If the CNE certificate of completion does not clearly indicate being approved for advanced practice nurses, you must submit the course learning objectives with the certificate for proof of advance practice continuing nursing education, if audited or reinstating your license.
